Novello, 1998 Follows the train of thought put in motion by Jean Jacques Rousseau in the broad areas of progressivism Romanticism collectivism and nationalism to determine their relevance to the history of educational thought After a brief biography of Rousseau and his influence on educational methods chapters explore the progressive education movement in the 19th century effects of the Romantic movement and concepts of citizenship that led to the American and French revolutions Concludes with an argument for the separation of school and state Annotation copyrighted by Book News Inc Portland OR **The Human Relationship with Nature** Peter H. Kahn, 1999 Winner of Outstanding Book Award 2000 Moral Development and Education American Educational Research Association Winner of the 2000 Book Award from the Moral Development Education Group of the American Educational Research Association Urgent environmental problems call for vigorous research and theory on how humans develop a relationship with nature In a series of original research projects Peter Kahn answers this call For the past eight years Kahn has studied children young adults and parents in diverse geographical locations ranging from an economically impoverished black community in Houston to a remote village in the Brazilian Amazon In these studies Kahn seeks answers to the following questions How do people value nature and how do they reason morally about environmental degradation Do children have a deep connection to the natural world that gets severed by modern society Or do such connections emerge if at all later in life with increased cognitive and moral maturity How does culture affect environmental commitments and sensibilities Are there universal features in the human relationship with nature Kahn s empirical and theoretical findings draw on current work in psychology biology environmental behavior education policy and moral development This scholarly yet accessible book will be of value to practitioners in the social science and environmental fields as well as to informed generalists interested in environmental issues and children His Educational Theories Selected from Émile, Julie and Other Writings Jean-Jacques Rousseau, 1964 Jane Austen and the Arts Natasha Duquette, Elisabeth Lenckos, 2013-12-04 The essays collected in Jane Austen and the Arts Elegance Propriety and Harmony examine Austen s understanding of the arts her aesthetic philosophy and her role as artist Together they explore Austen s connections with Edmund Burke Adam Smith Johann Wolfgang von Goethe Madame de Sta l Joanna Baillie Jean Jacques Rousseau Mary Anne

Schimmelpenninck and other writers engaged in debates on the sensuous experience and the intellectual judgment of art Our contributors look at Austen s engagement with diverse art forms painting ballet drama poetry and music investigating our topic within historically grounded and theoretically nuanced essays They represent Austen as a writer thinker reflecting on the nature and practice of artistic creation and considering the social moral psychological and theological functions of art in her fiction We suggest that Austen knew modified and transformed the dominant aesthetic discourses of her era at times ironically to her own artistic ends As a result a new and compelling image of Austen emerges a portrait of a lady artist confidently promoting her own distinctly post enlightenment aesthetic system Charles Bonnet and the Order of the Known

L. Anderson,2012-12-06 Charles Bonnet began his career as a naturalist from an early age establishing a reputation as a careful observer It is for those youthful observations as well as for some suggestive speculations proposed relative to this field that he is best remembered in English speaking countries regarding the taxonomic demands of natural history he refurbished the idea of a chain of beings regarding the question of generation he marshaled evidence in support of preformation theory and regarding the analysis of the physiology of the nervous system he advanced a theory that individual nerve fibers receive and retain specific sensations Following his loss of eyesight in his mid twenties Bonnet entered a more reflective period turning to philosophy and pondering the nature of human understanding considerations he had formerly disdained but that now seemed a natural outgrowth of his reflections on nature This essay focuses on the philosophical and psychological works of the later period the period in which he wrote all his major books By giving these writings a broader exposure it has been one of my hopes that Bonnet s audience would also be broadened releasing him so to speak from the charge of historians of science so that he might find his way in general books on the Enlightenment from scattered footnotes into the texts themselves The Wandering Womb

Lana Thompson,2012-05-02 A provocative tour through religious medical and social history The Wandering Womb pinpoints the humorous outrageous and hair raising beliefs practices and longstanding falsehoods about women which have permeated human culture Illustrations **On Becoming Bilingual**

Patricia Baquedano-López,Paul B. Garrett,2022-12-28 On Becoming Bilingual Children s Experiences across Homes Schools and Communities provides a theoretical and methodological introduction to research on children s participation in and across a multiplicity of activities where they display complex linguistic and sociocultural knowledge From a perspective that engages intersections of language race and class the book reviews foundational and recent studies highlighting innovations trends and future directions for research The book offers a helpful set of resources including guiding questions at the start of each chapter links to online and bibliographic sources discussion questions and activities and a glossary of key terms This book is intended for scholars and students in language oriented fields of study who are interested in learning about how bilingual children engage with negotiate and transform their social worlds American Environmentalism

J. Michael Martinez,2013-06-20 Protecting the natural environment and promoting sustainability have become important objectives but

achieving such goals presents myriad challenges for even the most committed environmentalist American Environmentalism Philosophy History and Public Policy examines whether competing interests can be reconciled while developing consistent coherent effective public policy to regulate uses and protection of the natural environment without destroying the national economy It then reviews a range of possible solutions The book delves into key normative concepts that undergird American perspectives on nature by providing an overview of philosophical concepts found in the western intellectual tradition the presuppositions inherent in neoclassical economics and anthropocentric human centered and biocentric earth centered positions on sustainability It traces the evolution of attitudes about nature from the time of the Ancient Greeks through Europeans in the Middle Ages and the Renaissance the Enlightenment and the American Founders the nineteenth and twentieth centuries and up to the present Building on this foundation the author examines the political landscape as non governmental organizations NGOs industry leaders and government officials struggle to balance industrial development with environmental concerns Outrageous claims silly misrepresentations bogus arguments absurd contentions and overblown prophecies of impending calamities are bandied about by many parties on all sides of the debate industry spokespeople elected representatives unelected regulators concerned citizens and environmental NGOs alike In lieu of descending into this morass the author circumvents the silliness to explore the crucial issues through a more focused disciplined approach Rather than engage in acrimonious debate over minutiae as so often occurs in the context of green claims he recasts the issue in a way that provides a cohesive look at all sides This effort may be quixotic but how else to cut the Gordian knot

A Minor Revolution Adam Benforado, 2023-02-07 A revelatory investigation into how America is failing its children and an urgent manifesto on why helping them is the best way to improve all of our lives from the New York Times bestselling author of Unfair The New Science of Criminal Injustice Compelling an extremely sympathetic and worthy attempt to protect kids Benforado has written a book that reads like a manifesto His ideas are bold to the point and ambitious The Atlantic At the dawn of the twentieth century a bright new age for children appeared on the horizon with progress on ending child labor providing public education combating indigence promoting wellness and creating a juvenile justice system But a hundred years on the promised light has not arrived Today more than eleven million American children live in poverty and more than four million lack health insurance Each year we prosecute thousands of kids as adults while our schools crumble We deny young people any political power while we fail to act on the issues that matter most to them racism inequality and climate change Through unforgettable stories law professor Adam Benforado draws a vivid portrait of our neglect We are there when Ariel is placed in an orphanage after her parents are locked away for transporting marijuana when Harold first gazes in disbelief upon the immaculate lawn of an elite private school after a childhood of asphalt play yards when Wylie is hit with a paddle by his public school principal as punishment for taking a moment of silence to protest gun violence When Tyler runs for governor at age seventeen we are also there to witness the extraordinary capacities of young people Our disregard for

children's rights is not simply a moral problem it's also an economic and social one. The root cause of nearly every major challenge we face from crime to poor health to unemployment can be found in our mistreatment of kids. But in that sobering truth is also the key to changing our fate as a nation. Drawing on the latest research on the value of early intervention investment and empowerment, *A Minor Revolution* makes the urgent case for putting children first in our budgets and policies in how we develop products and enact laws and in our families and communities. Childhood is the window of opportunity for all of us.

The Image of Man George L. Mosse, 1998-10-08 What does it mean to be a man? What does it mean to be manly? How has our notion of masculinity changed over the years? In this book noted historian George L. Mosse provides the first historical account of the masculine stereotype in modern Western culture, tracing the evolution of the idea of manliness to reveal how it came to embody physical beauty, courage, moral restraint, and a strong will. This stereotype he finds originated in the tumultuous changes of the eighteenth century as Europe's dominant aristocrats grudgingly yielded to the rise of the professional, bureaucratic, and commercial middle classes. Mosse reveals how the new bourgeoisie, faced with a bewildering rapidly industrialized world, latched onto the knightly ideal of chivalry. He also shows how the rise of universal conscription created a soldierly man as an ideal type. In bringing his examination up to the present, Mosse studies the key historical roles of the so-called fairer sex, women, and unmanly men, Jews, and homosexuals in defining and maintaining the male stereotype and considers the possible erosion of that stereotype in our own time.

Yakar Le'Mordecai Mordecai Waxman, Tseviyah Ben-Yosef Ginor, 1998 *Yakar Le'Mordecai* commemorates forty years of Rabbi Waxman's service to Temple Israel of Great Neck. It was initiated by his grateful congregants and carried through by his colleagues and friends. It mirrors his interests in and contributions to Jewish scholarship and thought and is divided into four sections, each pertaining to an area in which Rabbi Waxman has been involved. Part I is a retrospective of Rabbi Waxman's career in the rabbinate and in Jewish scholarship. Part II on Jewish thought contains articles which reflect the honoree's broad knowledge of the topic from Biblical studies to contemporary theology. Part III deals with Jewish-Christian relations as well as the position of Jews in various parts of the world in their relations with the surrounding cultures, and Part IV with American Judaism. Along with the many other contributions, this volume contains articles by Rabbi Waxman's later father and wife and one by his son, Rabbi Jonathan Waxman.

Physical Education, Sport and Schooling John Evans, 2017-04-28 In Britain the physical education curriculum has been experiencing a period of unrest. For many teachers the practices of decades have become problematic features of their curriculum and teaching. This book, first published in 1986, explores the experiences of teachers and pupils in programmes of physical education from a sociological perspective. It explores a range of issues relating to the organisation and management of physical education departments, deviancy and dissent in sport, gender inequalities, and the concepts of community education and leisure education. This title will be of interest to students of sociology and education.

Radicalism P. McLaughlin, 2012-08-21 Confusion, controversy, and even fear surrounds the political phenomenon of

radicalism This book attempts to make conceptual and historical sense of this phenomenon both as a kind of practice and as a kind of thought before defending it in a traditional if unfashionable form a form that is historically progressive and politically humanistic *Education and Jobs* Gregory D. Squires, 1979-01-01 Monograph arguing that formal education has served primarily as an agency of social control reconciling social conflict so that dominant social classes maintain occupational structure and unequal opportunity in the USA traces educational development describes the conventional interpretation of American education democracy and provision of occupational qualification and relationships between skill requirements recruitment standards and educational level and considers impacts on economic disparity Bibliography pp 215 to 229

Sustainability in Developing Countries Susan Osireditse Keitumetse, Luc Hens, David Norris, 2020-10-08 This book illustrates an alternative approach to state of sustainability reporting by presenting cross sectoral and multi disciplinary discussions on sustainability issues in the context of a developing country Botswana The book volume illustrates how academic publishing can supplement African governments existing forms of reporting on sustainability by providing on ground detailed descriptions and experiences relating to achievement of the various sustainable development goals SDGs In addition this process involves increases and enhances diversity of stakeholders that report on sustainability Furthermore the approach resonates with the UN s recommendation to build local strategies for implementation of the 2030 agenda for sustainable development Conventional reporting on sustainability by most African countries is an exercise that is customarily the preserve of designated government ministries While this form of reporting provides a consistent platform for tracking sustainable development goals it can also benefit from juxtaposition with in depth descriptions and experiences provided by academic publishing Academia through publishing provides a framework for on ground situation analysis as well as in depth descriptions of African country s grass root experiences thus allowing for temporal tracking of sustainable development milestones As this volume illustrates experiences from the various contributors on this volume highlight different points of departure towards achieving the 2030 agenda Topics covered include biodiversity water management world heritage environment education tourism gender institutional approaches to achievement of SDGs as well as contribution of non governmental organisations NGO s among others
