sex roles they have consistently neglected the study of romantic love Lystra fills this gap by describing in vivid detail what it meant to fall in love in Victorian America Based on a vast array of love letters the book reveals the existence of a real openness even playfulness between male and female lovers which challenges and expands more traditional views of middle class private life in Victorian America Lystra refutes the common belief that Victorian men and women held passionlessness as an ideal in their romantic relationships Enabling us to enter the hidden world of Victorian lovers the letters they left behind offer genuine proof of the intensity of their most private interactions feelings behaviors and judgments Lystra discusses how Victorians anthropomorphized love letters treating them as actual visits from their lovers insisting on reading them in seclusion sometimes kissing them as Albert does with Violet s and even taking them to bed She also explores how courtship rituals which included the setting and passing of tests of love succeeded in building unique emotional bonds between lovers and how middle class views of romantic love which encouraged sharing knowledge and intimacy gave women more power in the home Through the medium of love letters Searching the Heart allows us to enter unnoticed the Victorian bedroom and parlor We will leave with a different view of middle class Victorian America

**Positive Emotional Power**  
Stanley Humphreys Ainsworth,1981      **The Source of My Strength** Charles F. Stanley,      *Gender, Emotion, and the Family* Leslie Brody,2009-07-01 Do women express their feelings more than men Popular stereotypes say they do but in this provocative book Leslie Brody breaks with conventional wisdom Integrating a wealth of perspectives and research biological sociocultural developmental her work explores the nature and extent of gender differences in emotional expression as well as the endlessly complex question of how such differences come about Nurture far more than nature emerges here as the stronger force in fashioning gender differences in emotional expression Brody shows that whether and how men and women express their feelings varies widely from situation to situation and from culture to culture and depends on a number of particular characteristics including age ethnicity cultural background power and status Especially pertinent is the organization of the family in which boys and girls elicit and absorb different emotional strategies Brody also examines the importance of gender roles whether in the family the peer group or the culture at large as men and women use various patterns of emotional expression to adapt to power and status imbalances Lucid and level headed Gender Emotion and the Family offers an unusually rich and nuanced picture of the great range of male and female emotional styles and the variety of the human character

*Components of emotional meaning* Johnny J. R. Fontaine,Klaus R. Scherer,Cristina Soriano,2013-08-01 Publications on emotion and the affective sciences in general have exploded in the last decade Numerous research teams and individual scholars from many different disciplines have published research papers or books about many different aspects of emotions and their role in behaviour and society However One aspect of emotional research that has been somewhat neglected is the way in which emotional terms translate into other languages When using terms like anger sadness fear disgust and joy for so called basic emotions as well as terms like shame guilt pride regret and contempt for

more complex emotions it is naturally assumed that the emotion terms used for research in the native language of the researchers and translated into English are completely equivalent in meaning. However, this is not generally the case. In many cases, there is no direct one-to-one relationship between an English term and a term in an alternative language. In fact, there can be significant differences in the way that these seemingly similar emotional terms can be applied across various languages with important implications for how we review and appraise this work. This book presents an extensive cross-cultural and cross-linguistic review of the meaning of emotion words adopting a novel methodological approach. Based on the Component Process Model, the authors developed a new instrument to assess the meaning of emotion terms. This instrument, the GRID questionnaire, consists of a grid of 24 emotion terms spanning the emotion domain and 142 emotion features that operationalize five emotion components: Appraisals, Bodily reactions, Expressions, Action tendencies, and Feelings. For the operationalization of these five emotion components, very different emotion models from the Western and the cultural comparative emotion literature were taken into account. Components of Emotional Meaning includes contributions from psychological, cultural comparative, and linguistic perspectives demonstrating how this new instrument can be used to empirically study very different research questions on the meaning of emotion terms. The implications of the results for major theoretical debates on emotion are also discussed. For all researchers in the affective sciences, this book is an important new reference work.

**A Sociology of Religious Emotion** Ole Riis, Linda Woodhead, 2010-06-24 This timely book aims to change the way we think about religion by putting emotion back onto the agenda. It challenges a tendency to over-emphasise rational aspects of religion and rehabilitates its embodied visceral and affective dimensions. Against the view that religious emotion is a purely private matter, it offers a new framework which shows how religious emotions arise in the varied interactions between human agents and religious communities, human agents and objects of devotion, and communities and sacred symbols. It presents parallels and contrasts between religious emotions in European and American history, in other cultures, and in contemporary western societies. By taking emotions seriously, *A Sociology of Religious Emotion* sheds new light on the power of religion to shape fundamental human orientations and motivations, hopes and fears, joys and sorrows, loves and hatreds.

Holst,2012-08 Aristotle is quoted as saying A man could not claim to know a subject unless he was capable of transmitting his knowledge to others and he regarded teaching as the proper manifestation of knowledge A person is a reflection of his or her learning experiences with others since birth Many feel trapped in a world where they have no control but feel others control them Feeling trapped and not in control is at the base of all negative life experiences that is continually reinforced in every new generation often in a more severe form Recognition and acceptance of this negative acculturation is the first step of rebuilding one s life to live positively and successfully in a negative world A life where others apply negative control tactics in rearing and educating others makes things worse over time Positive life skills can be learned where helping others to be free of another s control and in charge of their own destiny can be learned at any age Your life will change when you can imagine a world where bullying is replaced by helping others to be independent as you have become Jane Austen in Hollywood Linda Troost,Sayre Greenfield,2000-12-14 In 1995 and 1996 six film or television adaptations of Jane Austen s novels were produced an unprecedented number More amazing all were critical and or box office successes What accounts for this explosion of interest Much of the appeal of these films lies in our nostalgic desire at the end of the millennium for an age of greater politeness and sexual reticence Austen s ridicule of deceit and pretentiousness also appeals to our fin de si cle sensibilities The novels were changed however to enhance their appeal to a wide popular audience and the revisions reveal much about our own culture and its values These recent productions espouse explicitly twentieth century feminist notions and reshape the Austenian hero to make him conform to modern expectations Linda Troost and Sayre Greenfield present fourteen essays examining the phenomenon of Jane Austen as cultural icon providing thoughtful and sympathetic insights on the films through a variety of critical approaches The contributors debate whether these productions enhance or undercut the subtle feminism that Austen promoted in her novels From Persuasion to

Pride and Prejudice from the three Emmas including Clueless to Sense and Sensibility these films succeed because they flatter our intelligence and education And they have as much to tell us about ourselves as they do about the world of Jane Austen This second edition includes a new chapter on the recent film version of Mansfield Park      **Philosophy of Film Without Theory** Craig Fox, Britt Harrison, 2023-04-19 This book challenges the long standing presumption that serious philosophical engagement with film and television must be theoretical It demonstrates by example how philosophy of film and film studies can move beyond the methodological assumption that understands philosophical to mean theoretical In seventeen specially commissioned essays one in depth interview and one reprint leading philosophers and film scholars exploit the approaches arguments and insights of Ludwig Wittgenstein Stanley Cavell Iris Murdoch Augustine Berys Gaut No l Carroll and Ordinary Language Philosophy in exploring amongst others Gravity Lone Star The Handmaid s Tale Le notti di Cabiria Dunkirk L Ann e derni re Marienbad Visitors The Night it Rained Philadelphia Story Shoah Mary Magdalene Psycho Blue Jasmine Three Colours Red War Games and Histoire s du Cin ma In so doing this collection argues for the power of theory free philosophy and film studies as a way to expand our humanistic understanding      *Amphion Orator* Michael Taormina, 2021-02-15 This new approach to Malherbe s odes interweaves political cultural rhetorical and literary history to show how they constitute a unified sequence whose ambition is to forge a new national community in the aftermath of the Wars of Religion dislodging Malherbe from his moribund critical reception as a grammarian and technician and recovering the brilliance of a poetic genius whose political mythmaking stems from an impassioned patriotism
