The Ancient Emotion of Disgust Donald Lateiner, Dēmos G. Spatharas, 2017 The study of emotions and emotional displays has achieved a deserved prominence in recent classical scholarship The emotions of the classical world can be plumbed to provide a valuable heuristic tool Emotions can help us understand key issues of ancient ethics ideological assumptions and normative behaviors but more frequently than not classical scholars have turned their attention to social emotions requiring practical decisions and ethical judgments in public and private gatherings The emotion of disgust has been unwarrantedly neglected even though it figures saliently in many literary genres such as iambic poetry and comedy historiography and even tragedy and philosophy This collection of seventeen essays by fifteen authors features the emotion of disgust as one cutting edge of the study of Greek and Roman antiquity Individual contributions explore a wide range of topics These include the semantics of the emotion both in Greek and Latin literature its social uses as a means of marginalizing individuals or groups of individuals such as politicians judged deviant or witches its role in determining aesthetic judgments and its potentialities as an elicitor of aesthetic pleasure The papers also discuss the vocabulary and uses of disgust in life Galli actors witches homosexuals and in many literary genres ancient theater oratory satire poetry medicine historiography Hellenistic didactic and fable and the Roman novel The Introduction addresses key methodological issues concerning the nature of the emotion its cognitive structure and modern approaches to it It also outlines the differences between ancient and modern disgust and emphasizes the appropriateness of projective or second level disgust vilification as a means of marginalizing unwanted types of behavior and stigmatizing morally condemnable categories of individuals The volume is addressed first to scholars who work in the field of classics but since texts involving disgust also exhibit significant cultural variation the essays will attract the attention of scholars who work in a wide spectrum of disciplines including history social psychology philosophy anthropology comparative literature and cross cultural studies

Saving Face Stephen Pattison, 2016-04-01 Faces are all around us and fundamentally shape both everyday experience and our understanding of people To lose face is to be alienated and experience shame to be enfaced is to enjoy the fullness of life In theology as in many other disciplines faces as both physical phenomena and symbols have not received the critical appreciative attention

they deserve This pioneering book explores the nature of face and enfacement both human and divine Pattison discusses questions concerning what face is how important face is in human life and relationships and how we might understand face both as a physical phenomenon and as a series of socially inflected symbols and metaphors about the self and the body Examining what face means in terms of inclusion and exclusion in contemporary human society and how it is related to shame Pattison reveals what the experience of people who have difficulties with faces tell us about our society our understandings of and our reactions to face Exploring this ubiquitous yet ignored area of both contemporary human experience and of the Christian theological tradition Pattison explains how Christian theology understands face both human and divine and the insights might it offer to understanding face and enfacement Does God in any sense have a physically visible face What is the significance of having an enfaced or faceless God for Christian life and practice What does the vision of God mean now If we want to take face and defacing shame seriously and to get them properly into perspective we may need to change our theology thought and practice changing our ways of thinking about God and about theology

Emotions and Personhood Giovanni Stanghellini, René Rosfort, 2013-02-07 How does a person experience emotions What is the relationship between the experiential and biological dimensions of emotions How do emotions figure in a person's relation to the world and to other people How do emotions feature in human vulnerability to mental illness Do they play a significant role in the fragile balance between mental health and illness If emotions are in fact significant how are they relevant for treatment Emotions and personhood are important notions within the field of mental health care What they are and how they are related though is less evident This book provides a framework for understanding this relationship The authors argue for an account of emotions and personhood that attempts to understand human emotions from the combined approach of philosophy and psychopathology taking its models particularly from hermeneutical phenomenology and from dialectical psychopathology Within the book the authors develop a basic set of concepts for understanding what emotional experience means for a human person with the assumption that human emotional experience is fragile a fact which entails vulnerability to mental disturbance Drawing on research from psychiatry psychopathology philosophy and neuroscience the book will be valuable for both students and researchers in these disciplines and more broadly within the field of mental health

Emotional Worlds Andrew Beatty, 2019-02-07 Are emotions human universals Is the concept of emotion an

invention of Western tradition If people in other cultures live radically different emotional lives how can we ever understand them Using vivid often dramatic examples from around the world and in dialogue with current work in psychology and philosophy Andrew Beatty develops an anthropological perspective on the affective life showing how emotions colour experience and transform situations how in turn they are shaped by culture and history In stark contrast with accounts that depend on lab simulations interviews and documentary reconstruction he takes the reader into unfamiliar cultural worlds through a narrative approach to emotions in naturalistic settings showing how emotions tell a story and belong to larger stories Combining richly detailed reporting with a careful critique of alternative approaches he argues for an intimate grasp of local realities that restores the heartbeat to ethnography

Brookes,2019-05-11 We have all been hurt by someone in some cases very seriously And we have all inflicted pain on someone else even if it was unintended The consequences have often been devastating and continue to this day We find ourselves stuck in anger fear isolation disbelief bitterness self blame denial guilt or shame Our friends and family plead with us to move on and put the past behind us But it s never that simple There is no magic wand that can instantly sweep away this kind of pain So what can we do How can we find some peace Is it

possible to heal from what has happened Would some kind of punishment make a difference Do we need to forgive Would an apology help How can we find a way out of this agonising hurt and negativity Will it ever be possible to make things right Beyond Harm explores all of these questions and offers a way forward The first Part looks at what it means to be wronged and why it hurts so much It sets out an explanation for why we react to wrongdoing in the ways that we do so many of which only cause us more suffering and pain And it offers an alternative a kind of justice that can bring the healing and peace that we crave This is a response that honours our moral values and acknowledges our common humanity It is also evidence based it takes seriously how we actually think and feel about wrongdoing The second Part builds on the first by exploring what it would take for this alternative to become a reality It shows how it is possible to make things right by using a tried and tested practice called restorative justice and what is needed for this approach to be safe and effective
