*Empathy and the Practice of Medicine* Howard Marget Spiro,Mary G. McCrea Curnen,Enid Peschel,Deborah St. James,1993-01-01 The book which includes essays by physicians philosophers and a nurse is divided into three parts one deals with how empathy is weakened or lost during the course of medical education and suggests how to remedy this another describes the historical and philosophical origins of empathy and provides arguments for and against it and a third section offers compelling accounts of how physicians empathy for their patients has affected their own lives and the lives of those in their care We hear for example from a physician working in a hospice who relates the ways that the staff try to listen and respond to the needs of the dying a scientist who interviews candidates for medical school and tells how qualities of empathy are undervalued by selection committees a nurse who considers what nursing can teach physicians about empathy another physician who ponders whether the desire to be empathic can hinder the detachment necessary for objective care and several contributors who show how literature and art can help physicians to develop empathy **Empathy and Mental Health** Arthur J. Clark,2022-07-21 Empathy and Mental Health shows mental health professionals how to employ a deeper

understanding of subjective objective and interpersonal modalities of empathy in their practice Chapters are full of case studies and examples that demonstrate empathy's role in challenging and complex encounters and as each concept and process is introduced Dr Clark discusses strategies for responding empathically The book has a sound theoretical grounding that is informed by extensive material on empathy and empathic understanding from the counseling and psychotherapy literature and related fields of inquiry Drawing from psychodynamic existential humanistic cognitive behavioral and other contemporary orientations this text makes empathy immediately useful and understandable to students and practitioners

**The Practitioner's Path in Speech-Language Pathology** Wendy Paper-Bernstein, 2017-11-01 The Practitioner's Path in Speech Language Pathology The Art of School Based Practice bridges the gap between theory and practice evidence based practice and practice based evidence and the science and artistry of speech language pathology This book takes a critical look at areas related to wellness professional development and growth that can impact the personal self along with the professional self It examines each area through an overview of inter disciplinary research in addition to personal narratives illustrating key principles and strategies and offers the reader a professionally balanced perspective The first section of the book helps us understand the importance of building a foundation for our clinical path through a discussion about scientific and evidence based principles different types of knowledge systems and development of wisdom The second section of the book helps us understand the importance of supporting our foundation through an introduction to reflection counsel and care balance and harmony growth and detachment The third section of the book includes chapters that serve as pillars of practice organizational frameworks materials and activities measuring progress best practices and the importance of community The fourth and final section of the book highlights shared vision clinical expertise emotional intelligence leadership trends the scholarship of teaching and learning and research dissemination This book challenges us to consider our own perceptions about the explicit nature of professional practice and facilitates the development of four attitudes that can have a profound impact on both clinical success and professional satisfaction a scientific attitude a therapeutic attitude a professional attitude and a leadership attitude It contains a blend of clinical evidence and research practitioner views common sense philosophical stances and historical overviews The Practitioner's Path in Speech Language Pathology is designed for students and practitioners who are actively involved with the process of knowledge acquisition and targets issues we encounter along our path to becoming reflective practitioners as they relate to the excellence behind and scholarship within teaching and learning

*The Practitioner's Guide to Working with Families* Margaret Bell, Kate Wilson, 2017-03-14 This book offers a clear and coherent guide to working with families for practitioners and students in social work health counselling and related professions It brings together recent thinking on the historical and contemporary constructions of the family in such a way as to provide a helpful framework for practitioners working in a variety of settings in the field It offers up to date information on political legislative and theoretical frameworks and it reviews and illustrates a wide range of approaches and practice skills

for working with families with different problems in different contexts      *Empathy* Jean Decety, 2014-01-10 Recent work on empathy theory research and applications by scholars from disciplines ranging from neuroscience to psychoanalysis There are many reasons for scholars to investigate empathy Empathy plays a crucial role in human social interaction at all stages of life it is thought to help motivate positive social behavior inhibit aggression and provide the affective and motivational bases for moral development it is a necessary component of psychotherapy and patient physician interactions This volume covers a wide range of topics in empathy theory research and applications helping to integrate perspectives as varied as anthropology and neuroscience The contributors discuss the evolution of empathy within the mammalian brain and the development of empathy in infants and children the relationships among empathy social behavior compassion and altruism the neural underpinnings of empathy cognitive versus emotional empathy in clinical practice and the cost of empathy Taken together the contributions significantly broaden the interdisciplinary scope of empathy studies reporting on current knowledge of the evolutionary social developmental cognitive and neurobiological aspects of empathy and linking this capacity to human communication including in clinical practice and medical education      *Science and Inquiry in Social Work Practice* Ben Avis Orcutt, 1990      *The Virtuous Physician* James A. Marcum, 2012-01-02 Although modern medicine enjoys unprecedented success in providing excellent technical care many patients are dissatisfied with the poor quality of care or the unprofessional manner in which physicians sometimes deliver it Recently this patient dissatisfaction has led to quality of care and professionalism crises in medicine In this book the author proposes a notion of virtuous physician to address these crises He discusses the nature of the two crises and efforts by the medical profession to resolve them and then he briefly introduces the notion of virtuous physician and outlines its basic features Further virtue theory is discussed along with virtue ethics and virtue epistemology and specific virtues especially as they relate to medicine The author also explores the ontological priority of caring as the metaphysical virtue for grounding the notion of virtuous physician and two essential ontic virtues care and competence In addition to this he examines the transformation of competence into prudent wisdom and care into personal radical love to forge the compound virtue of prudent love which is sufficient for defining the virtuous physician Lastly two clinical case stories are reconstructed which illustrate the various virtues associated with medical practice and it is discussed how the notion of virtuous physician addresses the quality of care and professionalism crises      **Contemporary Clinical Practice with Asian Immigrants** Irene Chung, Tazuko Shibusawa, 2013-07-31 Many first and second generation Asian immigrants experience acculturation challenges to varying extents These challenges such as language barriers racial discrimination underemployment the loss of support networks and changes in family role and structure may exacerbate a myriad of mental health issues In addition their help seeking behaviour as shaped by a general adherence to a collectivistic worldview and indirect communication style often creates challenges for the practitioners who are trained under a Western practice modality Drawing on literature from English speaking countries with sizeable Asian immigrant populations such as

the United States Australia New Zealand Canada and the United Kingdom this text is designed especially for clinicians and students working with Asian immigrant populations It discusses the therapeutic process in psychotherapy and counselling with these clients exploring both key psychodynamic constructs and social systemic factors Building on contemporary relational theory which emphasizes the centrality of the helping relationship and sensitivity to the client s subjective realities the book demonstrates how western based concepts and skills can be broadened and applied in an Asiacentric context and can be therapeutic even in social service and case management service settings There are chapters on issues such as domestic violence intergenerational conflicts depression amongst elders and suicide discussing the prevalence and nature of the mental health issues and each containing case vignettes from various Asian ethnic groups to illustrate the application of relational approaches This book is an important cross cultural reference for practising social workers and counsellors as well as for social work students undertaking clinical practice courses

**The Clinical Practice of Educational Therapy** Maxine Ficksman, Jane Utley Adelizzi, 2013-05-13 The Clinical Practice of Educational Therapy is the first book to provide a comprehensive review of the interdisciplinary profession and practice of educational therapy as it exists today It describes the scope and practice of educational therapy from its European roots to its growing presence in the United States and provides case studies to illustrate the work of educational therapists Key Features Interdisciplinary Perspective Other books focus on either educational or therapeutic interventions but rarely discuss the blend and synergy of disciplines that are the hallmark of the profession Illustrative Cases The text draws heavily on case studies as a means of understanding the practice of educational therapy especially the relationship between therapist and client Expertise Chapter authors are either experienced educational therapists or allied professionals who have made scholarly contributions to the profession such as Dorothy Ungerleider Patricia Waters Roslyn Arnold and George McCloskey In addition to educational therapy students and practitioners this book is appropriate for those working in related fields including special education school psychology school counseling and social work in educational settings

**Online Counselling and Guidance Skills** Jane Evans, 2008-11-18 A very practical text that provides professionals new to this arena with a good introduction to what they can expect to encounter in online work The book contains numerous thought provoking examples and exercises for those contemplating work in virtual arenas Terry Hanley Lecturer in Counselling University of Manchester It s tempting to think that face to face experience translates straightforwardly to online work But it doesn t Jane Evans shows how many different aspects there are to counselling on line My advice would be don t attempt it until you have worked through this book Professor Michael Jacobs author of Psychodynamic Counselling in Action Counsellors and other professionals who provide emotional support and guidance are increasingly working online The difference between online and face to face interaction with clients is vast and practitioners need to equip themselves with specialist knowledge and skills to ensure that

they are being effective Online Counselling and Guidance Skills is the first book to deal with the practicalities of this mode of working It looks at how practitioners need to adapt their basic counselling skills to the online environment and guides them through the process of setting up defining and maintaining a working relationship with a client within professional ethical and legal boundaries Case studies and extracts from online sessions show how the skills are put into practice while practical exercises and points for further consideration help readers to develop their own knowledge and skills Until now books and articles have generally focused on the therapeutic work done by counsellors online However this book addresses people who use counselling skills in a wide range of contexts including counselling education mental health social care and careers guidance
