Neoliberalizing Spaces in the Philippines Arnisson Andre Ortega,2016-09-09 Amidst the recent global financial crisis and housing busts in various countries the Philippines booming housing industry has been heralded as Southeast Asia s hottest real estate hub and the saving grace of a supposedly resilient Philippine economy This growth has been fueled by demand from balikbayan returnee Overseas Filipinos and has facilitated the rise of gated suburban communities in Manila s sprawling peri urban fringe But as the Filipino dreams of successful balikbayans are built inside these new gated residential developments the lives of marginalized populations living in these spaces have been upended and thrown into turmoil as they face threats of expulsion Based on almost four years of research this book examines the tumultuous geographies of neoliberalization that link suburbanization transnational mobilities and accumulation by dispossession Through an accounting of real estate and new suburban landscapes it tells of a Filipino transnationalism that engenders a market based and privatized suburban political economy that reworks socio spatial relations and class dynamics In presenting the literal and discursive transformations of spaces in Manila s peri urban fringe the book details life inside new gated suburban communities and discusses the everyday geographies of privileged new property owners mainly comprised of balikbayan families and exposes the contradictions of gated suburban life from resistance to Home Owner Association rules to alienating feelings of loss It also reveals the darker side of the property boom by mapping the volatile spaces of the Philippines surplus populations comprised of the landless farmers informal settler residents and indigenous peoples To make way for gated

communities and other profitable developments in the peri urban region marginalized residents are systematically dispossessed and displaced while concomitantly offered relocation to isolated socialized housing projects the last frontier for real estate accumulation These compelling accounts illustrate how the territorial embeddedness of neoliberalization in the Philippines entails the consolidation of capital by political economic elites and privatization of residential space for an idealized transnational property clientele More than ever as the Philippines is being reshaped by diaspora and accumulation by dispossession the contemporary moment is a critical time to reflect on what it truly means to be a nation

Unveiling the Darkness: Bribery, Fraud, and Political Deceit Pasquale De Marco, 2025-03-22 In the annals of American corporate scandals the Wedtech affair stands as a stark reminder of the devastating consequences of greed political influence and unchecked power This book takes readers on a gripping journey through the intricate web of bribery fraud and political deceit that brought down a corporate giant and tarnished the reputation of the Reagan administration At the heart of the Wedtech scandal was a company that rose from obscurity to become a symbol of American ingenuity and entrepreneurial success However behind the facade of prosperity lay a hidden world of corruption and malfeasance Company executives aided by powerful politicians engaged in a systematic scheme to defraud the government and enrich themselves Bribes were paid deals were rigged and the truth was systematically obscured The story of Wedtech is not merely a tale of corporate greed it is a cautionary narrative about the erosion of ethical values and the devastating impact of unchecked power The scandal exposed a web of political patronage influence peddling and backroom deals that reached the highest levels of government Politicians blinded by ambition and avarice turned a blind eye to the rampant corruption unfolding before them

As the scandal unraveled it triggered a public outcry and a congressional investigation that laid bare the shocking extent of the fraud and deception The fall of Wedtech executives and the resignation of prominent politicians sent shockwaves through the nation shattering the trust between the American people and their elected officials The Wedtech scandal serves as a stark reminder that corruption is not a relic of the past it is a persistent threat that can undermine the very foundations of our democracy It underscores the importance of ethical leadership strong corporate governance and the unwavering commitment to transparency and accountability This book is a meticulously researched and gripping account of one of the most notorious corporate scandals in American history It is a must read for anyone interested in the intersection of politics business and ethics Delving into the depths of human greed and political ambition this book offers a cautionary tale that resonates with contemporary concerns about the corrosive effects of corruption on society If you like this book write a review
