## Empire Of Dust:

**An Empire of Dust** Lawrence Svobida, 1940      **Alberta Formed - Alberta Transformed** Alberta 2005 Centennial History Society, 2006-04-18 *Alberta Formed Alberta Transformed* is a two volume set spanning a remarkable 12 000 years of history and showcasing the work of 34 of Alberta's most respected scholars Volume 1 sets the stage from human beginnings in Alberta to the eve of Alberta's inauguration as a province in 1905 while Volume 2 takes readers through the twentieth century and up to the 2005 centennial      *Literature of Nature* Patrick D. Murphy, Terry Gifford, Katsunori Yamazato, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company      *U Dream, Inc.* Vlado Rahal Ph.D., 2023-01-04 Vlado Rahal Ph D began his search for the meaning of life early on asking himself questions like Who am I As time went on the need to find an answer took priority in his life As a teenager he felt that all the explanations he had been given were not sufficient to help him gain a contradiction free understanding of existence At age seventeen he began studying physics and mathematics believing back then that the most fundamental natural science should provide the answers he was seeking He thought that if he understood general relativity space time cosmology and the big bang and if he understood how the visible universe came into being and how it evolved then he might be able to arrive at a better understanding of how we came into existence how it all happened in the first place and why He went on to earn numerous degrees including a Ph D in theoretical physics and thought he found the answers he sought and he embraced atheism But when his atheist worldview could no longer be reconciled with what he was experiencing in life he was left once again searching for answers This book shares some of the insights he gleaned on his journey      [Transforming the Prairies](#) Shannon Stunden Bower, 2024-11-01 *Transforming the Prairies* proposes a new understanding of Canada's Prairie Farm Rehabilitation Administration PFRA complicating common views of the agency as a model of effective government environmental management Between 1935 and 2009 the PFRA promoted agricultural rehabilitation in and beyond the Canadian Prairies with mixed and equivocal results The promotion of strip farming as a soil conservation technique for example left crops susceptible to sawfly infestations The PFRA's involvement in irrigation development in Ghana increased the local population's vulnerability to various illnesses And PFRA infrastructure construction intended to serve the public good failed to account for the interests of affected Indigenous peoples The PFRA is revealed as being a high modernist state agency that produced varied environmental outcomes and that contributed to consolidating colonialism and racism This investigation affirms the importance of engaging historical perspectives to help ensure that contemporary environmental management efforts support more just and sustainable futures      [The Empire's of J. G. Ballard](#) David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world *The Empires of J G Ballard* is the first extensive study of Ballard's critical vision of nation and empire of the political geography of this planet Paddy

examines how Ballard's self-perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism. This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post-war transformation of older models of empire into new imperialisms of consumerism and globalization. Presenting analyses of Ballard's full body of work with its tales of reverse colonization, psychological imperialism, the savagery of civilization, estranged Englishmen abroad and at home, and multinational communities built on crime, *The Empires of J.G. Ballard* offers a fresh perspective on the fiction of J.G. Ballard. *The Empires of J.G. Ballard: An Imagined Geography* offers a sustained and highly convincing analysis of the imperial and post-imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings. To what extent can Ballard be considered an international writer? What happens to our understanding of his post-war science fictions when they are opened up to the language and logics of post-colonialism? And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity? Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature, history and politics. Jeanette Baxter, Anglia Ruskin University, Shanghai.

made my father Arriving in England after WW2 he was a person of the world who'd witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton. 1930s Shanghai, Paris of the East was a mix of international sophistication and violence, unfettered capitalism and acute poverty. American cars, martinis and Coca-Cola, a place marked by death and war. It had a profound influence on my father and his imagination. Dr Paddy's fascinating book explores my father's fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world. Fay Ballard, *Farm Implement and Machinery Review*, 1916

**Silent Partners** Alex Souchen, Matthew S. Wiseman, 2023-09-15. Canada's military industrial complex is deeply embedded in the fabric of the country. *Silent Partners* reveals its origins and influence. During the Cold War, Canada's military industrial and political partnerships developed behind the scenes and without much public scrutiny. *Silent Partners* explores Canada's history of leveraging military and defence expenditures to fund domestic industries, bolster employment, and support science and technology. Military and defence spending have affected Canada in myriad ways, from demography and geography to political economy and international relations, in uneven patterns of prosperity and decline. The contributions in this volume explore the environmental impacts of military activities and munitions production, the ethical issues of human experimentation and military testing, and the economic and political implications of procurement and arms exports. *Silent Partners* is an illuminating examination of Canada's military industrial complex from a historical perspective.

Contours of Change United States. Department of Agriculture, 1970      **Yearbook of Agriculture** United States.

Department of Agriculture, 1926      Dusty Zebra Clifford D. Simak, 2017-07-04. Tales of science fiction and adventure from the Hugo Award-winning author of *Way Station* and *City*. The long and prolific career of Clifford D. Simak cemented him as one of the formative voices of the science fiction and fantasy genre. The third writer to be named a Grand Master by the Science Fiction Writers of America, his literary legacy stands alongside those of Robert A. Heinlein and Ray Bradbury. This striking collection of nine tales showcases Simak's ability to take the everyday and turn it into something truly compelling, taking readers on a long journey in a very short time. In *Dusty Zebra*, Joe discovers a portal that allows him to exchange everyday objects with an entity he can neither see nor hear, and soon learns that one man's treasure may be another dimension's trash. In *Retrograde Evolution*, an interplanetary trading vessel tries to figure out how to deal with a remote society that has suddenly decided to become far less civilized. And in *Project Mastodon*, an unusual ambassador from an unheard-of country offers amazing opportunities in a place the modern world can never compete with. The past. Simak's mastery of the short form is on display in these and six other stories. Each story includes an introduction by David W. Wixon, literary executor of the Clifford D. Simak estate and editor of this ebook.      *Tales of Mantica* Brandon Rospond, Duncan Waugh, CL Werner, C.W. Conduff, Andrew McKinney, Robert E. Ten experienced authors give the reader an introduction to the setting and people involved in the wondrous world of Mantica.      **The Gospel of Mark and the Roman-Jewish War of 66-70 CE** Stephen Simon Kimondo, 2018-07-19. This book interprets Mark's gospel in light of the Roman-Jewish War of 66-70 CE. Locating the authorship of Mark's gospel in rural Galilee or southern Syria after

the fall of Jerusalem and the temple and after Vespasian's enthronement as the new emperor Kimondo argues that Mark's first hearers people who lived through and had knowledge of the important events of the war may have evaluated Mark's story of Jesus as a contrast to Roman imperial values He makes an intriguing case that Jesus' proclamation as the Messiah in the villages of Caesarea Philippi set up a deliberate contrast between Jesus's teaching and Vespasian's proclamation of himself as the world's divine ruler He suggests that Mark's hearers may have interpreted Jesus' liberative campaign in Galilee as a deliberate contrast to Vespasian's destructive military campaigns in the area Jesus's teachings about wealth power and status while on the way to Jerusalem may have been heard as contrasts to Roman imperial values hence the entire story of Jesus may have been interpreted an anti imperial narrative

**Dust Bowl** Donald Worster, 1982 In the mid 1930s North America's Great Plains faced one of the worst man made environmental disasters in world history Donald Worster's classic chronicle of the devastating years between 1929 and 1939 tells the story of the Dust Bowl in ecological as well as human terms Now twenty five years after his book helped to define the new field of environmental history Worster shares his more recent thoughts on the subject of the land and how humans interact with it In a new afterword he links the Dust Bowl to current political economic and ecological issues including the American livestock industry's exploitation of the Great Plains and the on going problem of desertification which has now become a global phenomenon He reflects on the state of the plains today and the threat of a new dustbowl He outlines some solutions that have been proposed such as the Buffalo Commons where deer antelope bison and elk would once more roam freely and suggests that we may yet witness a Great Plains where native flora and fauna flourish while applied ecologists show farmers how to raise food on land modeled after the natural prairies that once existed
