**Empire's New Clothes** Paul Andrew Passavant, Jodi Dean, 2004 First published in 2004 Routledge is an imprint of Taylor Francis an informa company *Transgression as a Mode of Resistance* Christina R. Foust, 2010-06-22 Since industrialization two major theoretical perspectives have accompanied the vibrant practice of social change The first hegemony emerged as a less deterministic route to revolution from Marxist theory and forms the common sense of social movement today Within hegemonic resistance rhetoric links issues ideas and identities to form a recognizable collective agent whose aim is to transform the status quo into its vision of the world The second major mode of resistance transgression grows from anarchist and autonomous resistance to capitalism Transgression attempts to free individuals uniqueness and creative power by deconstructing authority and explicating the body in resistance *Transgression as a Mode of Resistance Rethinking Social Movement in an Era of Corporate Globalization* provides the conceptual mapping for scholars students and practitioners to participate in the growing debate between these rich and powerful forces of social change Through a broad perspective on philosophy and history Christina R Foust demonstrates that hegemony and transgression are sometimes conflicting oftentimes inter related practices She responds to critics who believe that without a social change agent resistance appears baseless and naive without a representational economy to cohere and express common interests social movement is impossible Through alternative social relationships and political performances transgressive resisters may reinvent daily life

**Empire** Alejandro Colás, 2007-02-05 Presenting a historically informed conceptual introduction to the idea of empire this book draws on interdisciplinary debates and offers a survey of different imperial experiences across time and place **The Ashgate Research Companion to Modern Theory, Modern Power, World Politics** Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and

new resources for their critical interrogation      Transnational Canadas Kit Dobson, 2011-04-07 *Transnational Canadas* marks the first sustained inquiry into the relationship between globalization and Canadian literature written in English. Tracking developments in the literature and its study from the centennial period to the present, it shows how current work in transnational studies can provide new insights for researchers and students. Arguing first that the dichotomy of Canadian nationalism and globalization is no longer valid in today's economic climate, *Transnational Canadas* explores the legacy of leftist nationalism in Canadian literature. It examines the interventions of multicultural writing in the 1980s and 1990s, investigating the cultural politics of the period and how they increasingly became part of Canada's state structure. Under globalization, the book concludes, we need to understand new forms of subjectivity and mobility as sites for cultural politics and look beyond received notions of belonging and being. An original contribution to the study of Canadian literature, *Transnational Canadas* seeks to invigorate discussion by challenging students and researchers to understand the national and the global simultaneously, to look at the politics of identity beyond the rubric of multiculturalism, and to rethink the slippery notion of the political for the contemporary era.      *The Postcolonial and the Global* Revathi Krishnaswamy, John Charles Hawley, This interdisciplinary work brings the humanities and social sciences into dialogue by examining issues such as globalized capital, discourses of antiterrorism, and identity politics. Essayists from the fields of postcolonial studies and globalization theory address the ethical and pragmatic ramifications of opposing interpretations of these issues and, for the first time, seek common ground. Leaderless and self-organized, they were socially and ideologically heterogeneous, dismissing fixed agendas or ideologies. Still, the assembled multitudes that animated these mobilizations often claimed to speak in the name of the people and they aspired to empowered forms of egalitarian self-government in common. Similar features have marked collective resistances from the Zapatistas and the

Seattle protests onwards giving rise to theoretical and practical debates over the importance of these ideological and political forms By engaging with the controversy between the autonomous biopolitical multitude of Hardt and Negri and the arguments in favour of the hegemony of the people advanced by J Ranci re E Laclau C Mouffe and S Zizek the central aim of this book is to discuss these instances of collective mobilization to probe the innovative practices and ideas they have developed and to debate their potential to reinvigorate democracy whilst seeking something better than disaster capitalism

**The Vertical Imagination and the Crisis of Transatlantic Modernism** Paul Haacke, 2021-03-11 From the invention of skyscrapers and airplanes to the development of the nuclear bomb ideas about the modern increasingly revolved around vertiginous images of elevation and decline and new technologies of mobility and terror from above In *The Vertical Imagination and the Crisis of Transatlantic Modernism* Paul Haacke examines this turn by focusing on discourses of aspiration catastrophe and power in major works of European and American literature as well as film architecture and intellectual and cultural history This wide ranging and pointed study begins with canonical fiction by Franz Kafka Virginia Woolf James Joyce and John Dos Passos as well as poetry by Guillaume Apollinaire Hart Crane and Aim C saire before moving to critical reflections on the rise of New York City by architects and writers from Le Corbusier to Simone de Beauvoir the films of Alfred Hitchcock and theories of cinematic space and time and postwar novels by Kurt Vonnegut Thomas Pynchon and Leslie Marmon Silko among many other examples In tracing the rise and fall of modernist discourse over the course of the long twentieth century this book shows how visions of vertical ascension turned from established ideas about nature the body and religion to growing anxieties about aesthetic distinction technological advancement and American capitalism and empire It argues that spectacles of height and flight became symbols and icons of ambition as well as direct indexes of power and thus that the vertical transformation of modernity was both material and imagined taking place at the same time through the rapidly expanding built environment and shifting ideological constructions of high and low

**The Empire of Mind** Michael Strangelove, 2005-12-15 Where many critics see the Internet as an instrument of corporate hegemony Michael Strangelove sees something else an alternative space inhabited by communities dedicated to anarchic freedom culture jamming alternative journalism and resistance to authoritarian forms of consumer capitalism and globalization In *The Empire of Mind* Dr Strangelove the scholar Canadian Business referred to as the acknowledged dean of Internet entrepreneurs and Wired called the Canadian guru of Internet advertising presents the compelling argument that the Internet and new digital communication technology actually undermine the power of capital producing an alternative symbolic economy Strangelove contends that the Internet breaks with the capitalist logic of commodification and that while television produces a passive consumer audience Internet audiences are more active creative and subversive Writers activists and artists on the Internet undermine commercial media and its management of consumer behaviour a behaviour that is challenged by the Web s tendency toward the disintegration of intellectual property rights Case studies describe the invention of new meaning given

to cultural and consumer icons like Barbie and McDonald's and explore how novel modes of online news production alter the representation of the world as it is produced by the mainstream corporate press In the course of exploring new media The Empire of Mind also makes apparent that digital piracy will not be eliminated The Internet community effectively converts private property into public thereby presenting serious obstacles for the management of consumer behaviour and significantly eroding brand value Much to the dismay of the corporate sector online communities are disinterested in the ethics of private property In fact the entire philosophical framework on which capitalism is based is threatened by these alternative means of cultural production

History Made Conscious Geoff Eley, 2023-08-29 During the last fifty years the writing of history underwent two massive transformations First powered by Marxism and other materialist sociologies the great social history wave instated the value of social explanation Then responding to new theoretical debates the cultural turn upset many of those freshly earned certainties Each challenge was profoundly informed by politics from issues of class gender and race to those of identity empire and the postcolonial The resulting controversies brought historians radically changed possibilities expanding subject matters unfamiliar approaches greater openness to theory and other disciplines a new place in the public culture History Made Conscious offers snapshots of a discipline continuously rethinking its charge How might we understand the social and the cultural together How do we collaborate most fruitfully across disciplines If we take theory seriously how does that change what historians do How should we think differently about politics

**The Epic Film in World Culture** Robert Burgoyne, 2010-09-13 With the recent release of spectacular blockbuster films from *Gladiator* to *The Lord of the Rings* trilogy the epic has once again become a major form in contemporary cinema This new volume in the AFI Film Readers series explores the rebirth of the epic film genre in the contemporary period a period marked by heightened and conflicting appeals to national ethnic and religious belonging The original essays in this volume explore the tension between the evolving global context of film production and reception and the particular provenance of the epic as an expression of national mythology and aspirations challenging our understanding of epics produced in the present as well as our perception of epic films from the past The contributors will explore new critical approaches to contemporary as well as older epic films drawing on ideas from cultural studies historiography classics and film studies

**Evangelicals and Empire** Bruce Ellis Benson, Peter Goodwin Heltzel, 2008-10 Leading evangelical thinkers engage and are engaged by the most explosive and discussed theorists of empire in the first decade of the twenty first century Michael Hardt and Antonio Negri

*Law and Empire*, 2013-08-15 *Law and Empire* provides a comparative view of legal practices in Asia and Europe from Antiquity to the eighteenth century It relates the main principles of legal thinking in Chinese Islamic and European contexts to practices of lawmaking and adjudication In particular it shows how legal procedure and legal thinking could be used in strikingly different ways Rulers could use law effectively as an instrument of domination legal specialists built their identity livelihood and social status on their knowledge of law and non elites exploited the range of legal fora available to

them This volume shows the relevance of legal pluralism and the social relevance of litigation for premodern power structures

Captives of Sovereignty Jonathan Havercroft, 2011-08-18 A picture of sovereignty holds the study of politics captive Captives of Sovereignty looks at the historical origins of this picture of politics critiques its philosophical assumptions and offers a way to move contemporary critiques of sovereignty beyond their current impasse The first part of the book is diagnostic Why despite their best efforts to critique sovereignty do political scientists who are dissatisfied with the concept continue to reproduce the logic of sovereignty in their thinking Havercroft draws on the writings of Hobbes and Spinoza to argue that theories of sovereignty are produced and reproduced in response to skepticism The second part of the book draws on contemporary critiques of skeptical arguments by Wittgenstein and Cavell to argue that their alternative way of responding to skepticism avoids the need to invoke a sovereign as the final arbiter of all political disputes

*The Rule of Empires* Timothy Parsons, 2010-06-10 In *The Rule of Empires* Timothy Parsons gives a sweeping account of the evolution of empire from its origins in ancient Rome to its most recent twentieth century embodiment He explains what constitutes an empire and offers suggestions about what empires of the past can tell us about our own historical moment Parsons uses imperial examples that stretch from ancient Rome to Britain's new imperialism in Kenya to the Third Reich to parse the features common to all empires their evolutions and self justifying myths and the reasons for their inevitable decline Parsons argues that far from confirming some sort of Darwinian hierarchy of advanced and primitive societies conquests were simply the products of a temporary advantage in military technology wealth and political will Beneath the self justifying rhetoric of benevolent paternalism and cultural superiority lay economic exploitation and the desire for power Yet imperial ambitions still appear viable in the twenty first century Parsons shows because their defenders and detractors alike employ abstract and romanticized perspectives that fail to grasp the historical reality of subjugation Writing from the perspective of the common subject rather than that of the imperial conquerors Parsons offers a historically grounded cautionary tale rich with accounts of subjugated peoples throwing off the yoke of empire time and time again In providing an accurate picture of what it is like to live as a subject *The Rule of Empires* lays bare the rationalizations of imperial conquerors and their apologists and exposes the true limits of hard power
