**Human Security through the New Traditional Economy in the Arctic** Gorm Winther, Ívar Jónsson, 2024-12-31 The book creates an augmented knowledge about human security beyond the warfare concept in the Arctic It analyzes international political analysis on security issues and their spillovers to the Arctic societies The multi contributed book helps to conceptualize and create knowledge on democratic businesses as a human security issue Adopting a comparative approach it provides detailed analysis of democratic business in Iceland Greenland Arctic Canada and Alaska In a comparative economic systems analysis the aim of this book is to introduce the reader to the new traditional economy in an Arctic Context The readers will get an overview of different security approaches and approaches to promoting the new traditional economy s emphasis on Aborigine traditions for commonhood common or non ownership cooperation and local community The book is multidisciplinary and will be of interest to scholars and students in the fields of social sciences security studies human security international political economy international political science ecological science economics organization theory and sociology     Money on the Line Canadian Centre for Policy Alternatives, 2003 From the back cover The billions of dollars in Canadian pension funds belong to the workers for whom these funds were established The money in effect is their deferred wages but even though these vast sums now constitute the largest source of capital in the country it has only been in the past few decades that workers through their unions have started to play a role in how when and where their pension money is invested This informative and fact filled book examines the growing involvement of labour organizations in the management and more often the co management of pension funds It looks at the duties and rights of union trustees on pension boards at their fiduciary responsibility at the crucial issues of social and ethical investments and it also explains the success of progressive labour sponsored investment funds     The Real World of Employee Ownership John Logue, Jacquelyn Yates, 2018-09-05 Using data from an extensive study of employee owned companies in Ohio where employee ownership is a well developed trend this book offers a strong empirical portrait of firms with Employee Stock Ownership Plans ESOPs It describes how these plans work and places their emergence and change in a historical context John Logue and Jacquelyn Yates examine firms that have succeeded in employee ownership and those with failed plans Some companies they find are committed to the concept of employee ownership and others merely use ESOPs as a financing tool Detailed information resulting from multiple surveys allows the authors to draw well grounded conclusions regarding the question of why some employee owned firms outperform others The bottom line they find is that employee owned firms that do it all implementing features such as employee participation and communication about finances training and cultural change systematically outperform their conventional competitors They also have an advantage over firms that understand employee ownership incompletely if it all and yet claim to adopt its methods     China's Domestic Private Firms: Anne S. Tsui, Yanjie Bian, 2014-12-18 One of the most important outcomes of market reforms in China over the past 20 years has been

the emergence of a significant domestic private sector which now accounts for almost a third of China's GDP and is by far the country's most important source of employment growth. This book is the first in-depth analysis of the management and operation of these domestic private firms which are defined as companies or organizations created by PRC citizens including township enterprises and collectives. The book provides a comprehensive and multidisciplinary perspective on the factors important to the successful operation and growth of these firms. It begins with a review of the literature on the topic in three different disciplines: economics, sociology, and management, each followed by several chapters covering recent developments in these areas. Featuring contributions by distinguished scholars and China experts, the work concludes with an insightful chapter on the future of China's public sector in the global economy. George Elton Mayo John Cunningham Wood, Michael C. Wood, 2004 Resources in Education, 1990 *Economic Developments in India : Monthly Update, Volume -92 Analysis, Reports, Policy Documents* Editors : Raj Kapila & Uma Kapila, 2005 **Industrial Policy Beyond the Crisis** David Bailey, Helena Lenihan, Josep-Maria Arauzo-Carod, 2014-06-11 After years of official disrepute, industrial policy (IP) is back in vogue at regional, national, and international levels, driven by concerns over competitiveness, globalisation, de-industrialisation, unemployment, and the comparatively slow growth of the EU economy, especially in this post-recession phase. At the same time, IP has been seen as a catalyst for designing economic recovery strategies at regional, national, and international levels, as well as being a concerted strategy to develop new clean tech industries to tackle environmental challenges. If anything, the recent global recession and credit crunch have highlighted the fragility of some states and localities' economic development paths and the unbalanced nature of their economies in terms of an over-reliance on sectors such as retail, financial services, and construction to the detriment of manufacturing. This also suggests an accompanying need for greater economic diversity so as to avoid over-dependencies on certain sectors and a better balance of ownerships/forms. But what should be the shape of IP in the wake of the crisis, and how can IP rebalance economies, help support sustainable development, and catalyse new technologies and innovations whilst learning lessons from past experience and debate? This edited volume examines these questions through a wide range of diverse contributions from expert international authors. This book was originally published as a special issue of *Policy Studies*. **A Comparative Perspective of Women's Economic Empowerment** Meltem Ince Yenilmez, Onur Burak Celik, 2019-05-29 The need for the creation of an enabling political, legal, and economic environment for women within Turkey is rising. A growing concern is shown at the ethnic divisions and local discrimination against women which have spilled over into the labor market. This book lends a supporting voice to the economic and social empowerment of women globally, focusing on the real causes and the unpredictable nature of the ongoing conflicts surrounding the issue. The authors bring to the forefront problems of development within various regions and the implementation of projects which address the state of women inequality and risks that are inimical to their participation in the economy. Emphasis is laid on why women should be permitted access to the many opportunities in information technology and exchange partnership.

growth and networking in this digital era The oppressive policies of Turkey are scrutinized to unravel the dangers they pose to the corporate existence of women in the modern world Furthermore this book centers on the deliberation on regional politics and issues on gender and women s empowerment in modern Turkey whilst comparing with other countries The work sheds light on salient issues and possible remedies within target countries and the concerted efforts made to create a reliable structure to discuss gender conflicts Ample contributions from countries such as the US Germany Serbia South Africa and United Kingdom are pivotal to comparing and examining the main debates Addressing several global gender related examples as well as Turkey s national principles this book encourages full involvement of women and girls in deciding the fate of their country This book serves as the rallying point of an array of informative and mind expanding works of literature in regional studies gender studies migration economy and area studies in countries like Turkey USA Serbia UK and India Experts students and readers in the academic sphere may find this work educative and intellectually fulfilling **IEIS2019** Menggang Li,Martin Dresner,Runtong Zhang,Guowei Hua,Xiaopu Shang,2020-07-02 This book presents a range of recent advances concerning industrial restructuring strategies industrial organization industrial policy departmental economic research industrial competitiveness regional industrial structure national industrial economic security theory and empirical research Successfully combining theory and practice the book gathers the outcomes of the 6th International Conference on Industrial Economics System and Industrial Security Engineering which was held at the University of Maryland USA

Japanese Studies from Pre-History to 1990 Richard Perren,1992 Environment & Planning ,1981 *Co-operatives in a Post-Growth Era* Tom Webb,Sonja Novkovic,2014-10-09 For the past three decades neoclassical doctrine has dominated economic theory and policy The balance of power has shifted to protect private interests resulting in unprecedented damage to the environment and society with no solution in sight as more austerity and less government continues to be posited as the answer to the oncoming waves of crisis It doesn t have to be this way Featuring a remarkable roster of internationally renowned critical thinkers *Co operatives in a Post Growth Era* presents a feasible alternative for a more environmentally sustainable and equitable economic system specifically the co operative business model With more than 100 million people working in co operatives and more than a billion members around the world the time has never been better for co operatives everywhere to recognise their potential to change the economic landscape An essential book for students policymakers and concerned citizens looking for a practical way to change the current stagnant economic paradigm **Australian National**

**Bibliography: 1992** National Library of Australia,1988 *Comparative Human Resource Management* Michael J. Morley,Noreen Heraty,2021-06-29 Context is increasingly recognised as a critical explanatory variable in accounting for commonalities and differences in human resource management Giving expression to it in research models holds the prospect of enhancing theory development deepening our appreciation of embedded practices in diverse territories and opening up new lines of enquiry However contextualisation presents a significant research challenge and increasingly international

academic research networks that bring together scholars from different countries in the co production of knowledge represent a key approach to rising to this challenge This volume documents aspects of the development of one such network namely the Cranet Network on International Human Resource Management and presents a series of recent contributions from the network The chapters highlight inter alia the limits to convergence in human resource management as a result of contextual determinism the role of institutional actors markets and work regulation in accounting for variations in practices the contextual specificities and dynamics at play in transition economies along with key methodological challenges that arise when seeking to build cumulative comparative knowledge via network collaborations of this nature The chapters in this book were originally published as a special issue of International Studies of Management Organization

**Industrial Relations** Michael Poole, 2013-10-11 This comparative study of industrial relations provides an analysis of a wide range of phenomena with a view to uncovering the origins of national diversity It takes into account the notion of strategic choice set within a series of constraints of environment organizational and institutional conditions and power relationships The book Covers a wide range of examples from the UK USA France Germany Italy Sweden Eastern Europe Latin America India and Japan Includes a comprehensive analysis of management and employers associations labour and trades unions Examines the role of the state in comparative perspective

**Democratic Enterprise: Ethical business for the 21st century** Diarmuid McDonnell, 2012 The United Nations has declared 2012 to be the International Year of Co operatives in recognition of the impact that co operative enterprise has on more than three billion people across the globe Co operatives contribute to national and local economies in virtually every country by championing an ethical approach to business underpinned by internationally agreed values and principles Yet despite the wide ranging successes of co operatives in financial terms as well as in the development of sustainable communities the study of these democratic forms of enterprise remains surprisingly absent from the curricula of most university business schools around the world Designed primarily for undergraduate students Democratic Enterprise provides an introductory level analysis of democratic models of enterprise namely co operatives and employee owned businesses A supplement to any course that deals with these topics it also stands alone as a template for academics who wish to incorporate material on democratic models of enterprise into courses relating to economics business studies sustainable development enterprise and organizational theory and behavior

**Credit and Collateral** Vania Sena, 2007-12-10 Collateral generally defined as an asset used to provide security for a lender s loan is an important feature of credit contracts and all the available evidence suggests that its use is getting more pervasive This informative book builds upon recent research into this topic Sena analyses three case studies that revolve around the impact that financial constraints have on economic outcomes In the first case study the relationship between firms technical efficiency and increasing financial pressure is explored The author then goes on to show in the second case study that under specific circumstances increasing financial pressure and increasing product market competition can jointly have a positive

impact on firms technical efficiency while not being true for all types of firms In the third case she analyses the impact that finance constraints have on women s start ups Unique and revealing this is the first book to deal so extensively with the topic of collateral and as such is a valuable reference to postgraduates and professionals in the fields of macroeconomics monetary and business economics     Asian Nationalism in an Age of Globalization Roy Starrs,2013-10-23 Topics include Government Intervention and Economic Growth in East Asia Agricultural Nationalism in the Age of Globalization Japan s Dominance and Multi Racial Coalitions in Malaysia     **Reader's Guide to the Social Sciences** Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense
