En jupon piqué et robe d'indienne Michel Biehn, 1987 *Wild Frenchmen and Frenchified Indians* Sophie White, 2013-01-14 Based on a sweeping range of archival visual and material evidence Wild Frenchmen and Frenchified Indians examines perceptions of Indians in French colonial Louisiana and demonstrates that material culture especially dress was central to the elaboration of discourses about race At the heart of France s seventeenth century plans for colonizing New France was a formal policy Frenchification Intended to turn Indians into Catholic subjects of the king it also carried with it the belief that Indians could become French through religion language and culture This fluid and mutable conception of identity carried a risk while Indians had the potential to become French the French could themselves be transformed into Indians French officials had effectively admitted defeat of their policy by the time Louisiana became a province of New France in 1682 But it was here in Upper Louisiana that proponents of French Indian intermarriage finally claimed some success with Frenchification For supporters proof of the policy s success lay in the appearance and material possessions of Indian wives and daughters of Frenchmen Through a sophisticated interdisciplinary approach to the material sources Wild Frenchmen and Frenchified Indians offers a distinctive and original reading of the contours and chronology of racialization in early America While focused on Louisiana the methodological model offered in this innovative book shows that dress can take center stage in the investigation of colonial societies for the process of colonization was built on encounters mediated by appearance Fabricating Women Clare Haru Crowston, 2001-12-07 A study of the seamstresses of late 17th and 18th century France who developed a quintessentially feminine occupation that became a major factor in the urban economy
