Judicial institutionalization of integration processes Ricardo Caichiolo, 2016-09-07 The focus of this book is the judicial institutionalization of integration processes through the development of dispute settlement mechanisms more specifically in the Common Market of the South MERCOSUR to date the most important regional bloc in Latin America The bloc has been in existence since 1991 and has positioned itself as one of the potential regional blocs for trade and investment while becoming one of the important actors in the international community However its achievements have been tainted by the gaps and problems attached to the core foundation of the regional bloc MERCOSUR has been suffering or experiencing internal disputes and disunity due to its complex and low institutionalization a situation which can be seen as being paradoxical Its current Dispute Settlement Mechanism is subject to uncertainty and doubt since its own framework is also under internal and external criticism There has been a series of protocols made in order to tackle the problems of the DSM and to further fix the problems that hinder the cooperation as well as the productivity of MERCOSUR's intra organisation all guided by intergovernmental decision making As such this book seeks to tackle the concept of regionalism and the possible models which have been used or have influenced the establishment of MERCOSUR while discussing the different aspects and developments of each intra organisation This is done in order to evaluate the nature of the problem and future developments that could take place The book also focuses on the prevalence of politicization in MERCOSUR and the pre-eminence of Presidential Diplomacy over the path of regional integration which influence the DSM of MERCOSUR and possible developments that might occur in the near future

The Law of MERCOSUR Marcilio Toscano Franca Filho, Lucas Lixinski, María Belén Olmos Giupponi, 2010-10-29 The Law of MERCOSUR presents both an overview and in-depth analysis of one of the world's most important and increasingly influential economic organisations The book comprises both a series of first-hand analyses of MERCOSUR by experts from countries in the MERCOSUR bloc and also discussions from other parts of the world looking at MERCOSUR as global actor of ever increasing importance The book is divided into three main parts the first analyses the key institutional legal aspects of MERCOSUR looking at its history the general theory of economic integration and basic aspects relating to the functioning of

MERCOSUR the second examines specialised topics including the regulation of the environment human rights and the energy market in MERCOSUR and in the third part the editors offer a translation of core MERCOSUR instruments with the objective of furthering understanding of the economic bloc Original in its conception the book aims to fill a major gap in the English language literature by offering a comprehensive and in depth analysis of the Law of MERCOSUR and it is hoped that it will become essential reading for those practitioners and academics who are interested not only in MERCOSUR but in economic integration generally in international trade and in the regional aspects of the phenomenon of globalisation
