Compromiso gerencial en el éxito organizacional de la industria petroquímica Rilson Colmenares Guillén, Ricardo Portillo Urdaneta, Jesús Arocha Rangel, Martín Leal Guerra, Cuando supe que se estaba llevando a cabo una investigación para mejorar la forma en que trabajamos los gerentes especialmente en la industria petroquímica me causó emoción ver como dos colegas estaban siendo valientes al adentrarse en este apasionante mundo y entramado organizacional Por eso estoy encantado de escribir el prólogo de este libro Para aquellos de nosotros que llevamos a os en este mundo entre complejos petroquímicos e industriales recorriendo el país y charlando con gerentes clave de la industria hemos acumulado experiencia que nos gusta compartir especialmente con la nueva generación que se incorpora a la empresa Pero ya saben entre las responsabilidades y el poco tiempo no es tan fácil Siempre suelo recomendar programas de formación específicos y algunos libros que pueden ser útiles para quienes quieren avanzar en la industria Pero pocos libros abordan las necesidades reales de nuestro sector Algunos son muy técnicos y complicados de leer por su complejidad mientras que otros se centran demasiado en las habilidades blandas que son importantes pero también necesitamos reforzar las habilidades técnicas Es por eso que este libro es tan importante Aquí se fusiona la experiencia con la academia No es solo una recopilación de teorías abstractas sino un testimonio de aquellos que hemos enfrentado los retos de la industria petroquímica día tras día La gestión en este ámbito no es solo lidiar con lo técnico sino también con las dinámicas organizacionales que caracterizan a nuestro sector No es simplemente un conjunto de conceptos es el resultado del trabajo de autores que viven la realidad de la industria petroquímica Han liderado equipos sentido la vida de las instalaciones y han volcado esa experiencia en estas páginas más allá de lo académico con la esencia misma de la gestión en este sector tan vibrante Quiero felicitar a los autores por su dedicación en medio de tiempos

de cambio constante y evolución rápida Su contribución es inestimable y sin duda ilumina el camino para quienes quieren comprender y liderar en la industria petrolera En el corazón de este libro está el énfasis en el compromiso gerencial la clave para alcanzar el éxito en la industria petrolera Esto cobra vida cuando exploramos la conexión vital entre el compromiso de los líderes y el logro de metas en un entorno dinámico El éxito organizacional no es solo una meta es un proceso continuo que requiere el compromiso constante de los líderes convirtiéndose en el motor que impulsa la excelencia operativa la innovación y la adaptación a los desafíos que cambian rápidamente y de forma inesperada trayendo como consecuencia desequilibrios a las organizaciones si los mismos no se enfrentan con contundencia y decisión acertada buscando el bienestar colectivo En este contexto la aplicación práctica del compromiso gerencial es esencial para alcanzar el éxito organizacional Los líderes deben ser agentes de cambio inspirando a sus equipos y cultivando una cultura de compromiso que supere las adversidades En el ámbito nacional tomo como ejemplo a Venezuela donde el compromiso gerencial es la fuerza detrás del éxito en la industria petrolera En medio de las complejidades políticas económicas y sociales los gerentes son fundamentales para superar desafíos y guiar a sus equipos hacia el progreso Finalmente invito a todos los interesados en comprender y abrazar el compromiso gerencial para alcanzar el éxito en la industria petrolera a sumergirse en las páginas de este libro Aquí encontrarán un discurso claro sensible y práctico lejos de tecnicismos innecesarios A través de estas líneas deseo que encuentren no solo conocimiento sino también inspiración para enfrentar con determinación los desafíos del contexto gerencial en la industria petrolera
