Using Kosovo as a case study the book illuminates the interplay of some of the most controversial concepts in postcolonial times including humanitarian intervention peacebuilding nation state building and doing development in war torn states A special focus is on development professionals mandated to build peace and implement development projects in war torn or failed states The book seeks to uncover the complex nature of doing good for others especially when development efforts are serving the political and economic interests of donor states and when the social status attained by the expatriate development workers tends to improve upon migrating to and working in war torn states Representing Genocide Rebecca Jinks, 2016-06-02 This book explores the diverse ways in which Holocaust representations have influenced and structured how other genocides are understood and represented in the West Rebecca Jinks focuses in particular on the canonical 20th century cases of genocide Armenia Cambodia Bosnia and Rwanda Using literature film photography and memorialisation she demonstrates that we can only understand the Holocaust's status as a benchmark for other genocides if we look at the deeper structural resonances which subtly shape many representations of genocide Representing Genocide pursues five thematic areas in turn how genocides are recognised as such by western publics the representation of the origins and perpetrators of genocide how western witnesses represent genocide representations of the aftermath of genocide and western responses to genocide Throughout the book distinguishes between mainstream and other more nuanced and engaged representations of genocide It shows how these mainstream representations the majority largely replicate the representational framework of the Holocaust including the way in which mainstream Holocaust representations resist recognising the rationality instrumentality and normality of genocide preferring instead to present it as an aberrant exceptional event in human society By contrast the more engaged representations often but not always originating from those who experienced genocide tend to revolve around precisely genocide's ordinariness and the structures and situations common to human society which contribute to and become involved in the violence The New United Nations John Allphin Moore, Jr., Jerry Pubantz, 2017-03-16 With a fresh look at challenges to the UN in Syria Iran Russia and elsewhere the second edition of this successful text highlights new international trends toward global governance holistic democracy and human development and progress on peacebuilding and counterterrorism A comprehensive guide to the world body's institutions procedures policies specialized agencies historic personalities initiatives and involvement in world affairs The New United Nations is organized thematically blending both topical and chronological explanations making reference to current scholarly terms and theories New to this edition Fully updated chapters and a new Introduction including discussion of the Paris Climate Change Agreement Human Rights Council and Peacebuilding Commission New sections on Special Rapporteurs and Special Procedures the theory and practice of neoliberalism the UN's endorsement of the Responsibility to Protect and Contact Groups Unique special section on the student Model United Nations experience Coverage of the UN's fifteen year assessment of the Millennium Development Goals and the consequent approval of the Sustainable Development Goals and

**The Beast on the East River** Nathan Tabor,2006-10-29 A call to arms for Americans to assert and preserve our national sovereignty by stopping the globalist agenda of the United Nations Is the United Nations the benign force for good that so many proclaim Or is there a darker agenda at work behind the scenes Nathan Tabor reveals the sinister plan behind the glossy image of world cooperation painted by the UN and its defenders The Beast on the East River includes original research into key policy areas including population control education and the international criminal court And it offers practical steps that concerned American citizens can take before it s too late In his debut book rising conservative voice Nathan Tabor offers a frightening expos of the United Nations global power grab and its ruthless attempt to control US education law gun ownership taxation and reproductive rights We are already very nearly at the point of no return says Tabor and most Americans aren t even aware of the impending danger This book is a call to immediate action read its contents very carefully What you will discover may surprise and anger you His book provides a measured intellectual argument against allowing the corrupt collectivist internationalists of the UN and its many metastasized affiliates to undermine and eventually steal one of America s most precious possessions its sovereignty Henry Mark Holzer CBN The Christian Broadcasting Network

**Holding UNPOL to Account** Ai Kihara-Hunt,2017-03-06 Ai Kihara Hunt s Holding UNPOL to Account Individual Criminal Accountability of United Nations Police Personnel analyzes whether the mechanisms that address criminal accountability of United Nations police personnel serving in peace operations are effective and if there is a problem how it can be mitigated The volume reviews the obligations of States and the UN to investigate and prosecute criminal acts committed by UN police and examines the jurisdictional and immunity issues involved It concludes that these do not constitute legal barriers to accountability although immunity poses some problems in practice The principal problem appears to be the lack of political will to bring prosecutions as well as a lack of transparency which makes it difficult accurately to determine the scale of the problem
