Africa since Decolonization Martin Welz,2021-01-21 An introduction to African history and politics since decolonization emphasising the political economic and socio economic diversity of the continent

The Dynamics of Global Dominance David B. Abernethy,2000-01-01 For centuries Europeans ruled vast portions of the world as inhabitants of west European countries sailed to distant continents and took possession of territories whose societies and economies they set out to change How and why did these farflung empires form

persist and finally fall David Abernethy addresses these questions in this magisterial survey of the rise and decline of European overseas empires Abernethy identifies broad patterns across time and space interweaving them with fascinating details of cross cultural encounters He argues that relatively autonomous profit making religious and governmental institutions enabled west European countries to launch triple assaults on other societies Indigenous people also played a role in their eventual subjugation by inviting Europeans to intervene in their power struggles Abernethy finds that imperial decline was often the unanticipated result of wars among major powers Postwar crises over colonies unmet expectations empowered movements that eventually took territories as diverse as the thirteen British North American colonies Spain s South American possessions India the Dutch East Indies Vietnam and the Gold Coast to independence In advancing a theory of imperialism that includes European and non European actors and in analyzing economic social and cultural as well as political dimensions of empire Abernethy helps account for Europe s long occupation of global center stage He also sheds light on key features of today s postcolonial world and the legacies of empire concluding with an insightful approach to the moral evaluation of colonialism

Party Coalitions in Nigeria Akinola, Anthony A.,2014-07-19 This book is a comprehensive appraisal of the political history of Nigeria since colonisation with emphasis on political parties The author argues that party coalitions in Nigeria can be explained by the factors of heterogeneity as well as the political systems the country has experimented with He asserts the influence of the institution of the presidency in the current trend towards a two party system

Colonial Mentality in Africa Nkuzi Michael Nnam,2007-03-27 Intended for a broad audience Colonial Mentality in Africa explores the lingering effects of colonization in present day Africa Despite the independence of all African nations from their former colonizers mental slavery still persists This new work explores the social climate of Africa and the thriving colonial mentality The book explores issues such as patriarchy religion tradition and values law the influence of Islam and government

Administrative Traditions B. Guy Peters,2021-02-02 Contemporary public administration reflects its historical roots as well as contemporary ideas about how the public bureaucracy should be organized and function This book argues that there are administrative traditions that have their roots centuries ago but continue to influence administrative behaviour Further within Western Europe North America and the Antipodes there are four distinctive administrative traditions Anglo American Napoleonic Germanic and Scandinavian These are not the only traditions however and the book also explores administrative traditions in Central and Eastern Europe Latin America Asia and the Islamic world In addition the book contains a discussion of how administrative traditions of the colonial powers influenced contemporary administration in Africa and how they continue to interact with traditional forms of governance These discussions of tradition and persistence are also discussed in light of the numerous attempts to reform and change public administration Some administrative traditions have been more capable than others of resisting attempts at reform especially those associated with the New Public Management
