Emerging Conceptual Frameworks in Family Analysis Francis Ivan Nye, Felix M. Berardo, 1981 **Emerging Conceptual Frameworks in Family Analysis** Francis Ivan Nye, Felix M. Berardo, 1966 **Sourcebook of Family Theories and Methods** Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19

Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

Societal Stress and Law Larry D. Barnett, 2023-06-14 Societal Stress and Law draws attention to the social side effects of law by developing the sociological concept of society level stress a corollary of the concept of individual level stress in the biological sciences To encourage interest in societal stress the book looks at 1 instances of law adopted by American states that the U S Supreme Court held unconstitutional and 2 actions by American states with regard to a proposal to amend the federal Constitution The Court rulings and the proposed constitutional amendment were capable of producing societal stress because they were seen by a sizeable segment of the U S public as being incompatible with significant American traditions In original studies that apply logistic regression to state level statistical data the book identifies sociological variables that predict state differences in the adoption of this law and state differences in actions on the proposed constitutional amendment

Because these variables represent societal agents that affected whether a state experienced social stress from the rulings and proposal the book blends theory with empirical research and illustrates how each can support the other in law focused scholarship **Analysis and Evaluation of Conceptual Models of Nursing** Jacqueline Fawcett, 1984 **A Social Relations Analysis of Influence and Emotion Perceptions During Family Purchase Decision Making** Rachel Oakley Hsiung, 1996 *Sourcebook of Family Theory and Research* Vern L. Bengtson, 2005 Now available in paperback for classroom use This comprehensive text provides a rich source of perspectives on theorising about the family for scholars researchers and students Another of the book s strengths is the emphasis on multimethod approaches in family research The book covers an impressive range of topics and issues marital happiness adjustment of children in divorce marriages gay marriage sibling ties ethnic families of colour stepfamilies aggression culture work and family religion and social policy to name a few In summary this superb volume is highly recommended and amply reflects the many contemporary perspectives

on the family Philip Siebler Monash University Victoria Sponsored by the National Council on Family Relations the Sourcebook of Family Theory and Research is the reference work on theory and methods for family scholars and students around the world This volume provides a diverse eclectic and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research The Sourcebook reflects an interactive approach that focuses on the process of theory building and designing research thereby engaging readers in doing theory rather than simply reading about it An accompanying website offers additional participation and interaction in the process of doing theory and making science Editors Vern L Bengtson Alan C Acock Katherine R Allen Peggye Dilworth Anderson and David M Klein have brought together a prominent group of diverse contributors ranging in race and ethnicity age and seniority and gender and sexual orientation The Sourcebook begins with a section that sets the context for future family research The subsequent sections explore changing family patterns changing family interactions within and across generations and families and larger social forces A concluding section discusses issues of teaching family theories and research Key Features Focuses on the process rather than the outcomes of family theory and research methods Emphasizes the value of multi methods approaches in family research by integrating theory development with the development of research methods Differs from many other publications on family research by describing the development of new ideas rather than just summarizing existing findings The interactive Web site and the special feature boxes within the chapters engage readers with theory and methodology Boxed features include Case Studies Spotlights on Theory Spotlights on Methods and a Discussion and Extension sections Represents a Who s Who of family researchers with contributions from many of the best researchers in the family realm The Sourcebook will be an excellent addition to any academic library It is an authoritative reference for scholars and researchers in Human Development and Family Studies Sociology Social Work and Psychology In addition the Sourcebook can also be used in graduate courses on family theory and methodology *Family Theories* James M. White, David M. Klein, 2002-06-27 Praise for the First Edition This is an admirable text and sourcebook but also achieves the status of an intellectually challenging confrontation with the reader It is in many ways a model which many of us would be well advised to follow I wish I could have written it British Journal of Developmental Psychology This revision of a best seller remains the only single volume book to present family theory in a clear and approachable manner providing a thorough introduction to current theories about the family for both advanced undergraduate and beginning graduate students The authors incorporate a broad scope of work from different perspectives in surveying seven major theoretical frameworks developed by key social scientists to explain variation in family life This incisive New Edition examines the exchange symbolic interaction family developmental systems conflict feminist and ecological theoretical frameworks and presents a typology for analyzing and comparing the seven frameworks while providing direction for future theory development The International Child Welfare Review ,1981 Contemporary Nursing Knowledge Jacqueline Fawcett, Susan

Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes

There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p
