Wicaksana, Nabila Awalia Rahma, Sandhi Wiedyanoe, Sony Giovanni Mulyono, Satrio Bagaskara Gunadi Putra, 2025-06-25 The theme of the police especially in a country with multiethnic multicultural characteristics and geographical conditions like Indonesia is a theme that will never run out of discussion The numerous variables that are the focus of police activities in Indonesia make the perspective of policing very rich and offer an interesting point of view to be researched and discussed in written works including both popular and scientific papers based on research and literature studies However so far there is still little literature discussing this topic in English especially from those directly involved in the world of policing in Indonesia namely members of the Indonesian National Police For this reason this edited book is one of the efforts to discuss the rich perspective on Indonesian policing The articles in this book are written by police personnel who are currently pursuing or have completed a master s or doctoral degree abroad Some of the writings written in collaboration with high ranking officers of the Indonesian National Police offer an eagle eye view that is slightly different from the books on policing in Indonesia that have been published before This book is expected to spark positive discussions on several technical policing issues in Indonesia which can later serve as a valuable reference for further research on the management of public security order and law enforcement both in Indonesia and globally **UK Business Finance Directory 1990/91** J.
