Emerging Roles For Community College Leaders:

Emerging Roles for Community College Leaders Richard L. Alfred, 1984-01-01 This collection of essays describes changes in the environment of leadership for community colleges and considers methods for identifying and developing future leaders. The first section contains articles describing the current context for leadership including Maximizing Institutional Responsiveness to Changing Environmental Conditions by Richard L. Alfred, Management Challenges: Principles and Strategies for the 1980s by Richard C. Richardson Jr., and Meeting the Challenges with New Leadership Development Programs by Paul A. Elsner. The second section focuses on the provision of effective leadership in an era of transition, presenting Dimensions of Change Confronting Institutional Leaders by Robert H. McCabe, Leadership and Community Change by Joshua L. Smith, New Relationships with Government, Business, and Industry by John M. Terrey, and Leadership and Technological Innovation by Ronald W. Bush and W. Clark Ames. The final section addresses the theme of developing community college leaders for tomorrow in the essays Defining and Locating Effective Leaders by Margaret MacTavish, Tapping Neglected Leadership Sources by Judith S. Eaton, Developing Leaders through Graduate Education by Thomas W. Fryer Jr., and Building Leadership Expertise through On the Job Experience by R. Jan LeCroy. Finally, Jim Palmer reviews ERIC literature dealing with the community college presidency. AYC **Community College Leadership** Pamela L.

Eddy, 2023-07-03 Two-year colleges are facing major change. The majority will undergo a turnover in college presidencies in the next ten years at a time when they are being asked to be engines for economic growth, enable more students and a greater diversity of students to gain 21st-century qualifications, and provide a pathway to higher degrees, all with reduced state and local funding. Recognizing that future community college leaders at all levels will manage increasingly complex organizations and face very different challenges than their predecessors, this book provides a multidimensional model of leadership suited to these new demands and environments. The model addresses issues of leader cognition, race, and gender; the importance of culture; and the need for more collaborative modes of communication and decision making to frame and implement change. It recognizes that there is no longer any one way to lead and that the next generation of leaders will be more diverse, possess experience and qualifications from a wider variety of careers, and follow new pathways to their positions. Leaders in the future will possess a cultural competency that is fostered by being lifelong learners. Through over 75 individual interviews with leaders and campus members, Eddy is able to provide examples of the model's components in practice and to illuminate which experiences proved the most relevant for these leaders on their route to upper administration. She shows how her model intersects with the leadership competencies defined by the American Association of Community Colleges and proposes strategies for future leadership development. This book is intended for anyone considering a leadership position at any level in a community college, for college administrators and boards responsible for leadership development programs, and for individuals in corresponding organizations who conduct training programs for aspiring

leaders Likewise those employed at four year universities may find value in the model as a developmental tool

Community Colleges and Workforce Preparation in the 21st Century: Emerging Research and Opportunities

Smith, Dimitra J.,Lewis, Rhonda,Singleton, Leslie,2021-04-02 Community colleges are essential in preparing the 21st century workforce Research has indicated that there is a shortage of individuals prepared for skilled workforce opportunities such as plumbers electricians and many others In fact while college is essential in workforce development it is not the only route that can lead to a successful livelihood Developing a skill that transfers into an essential trade is a route less taken Community colleges are ideally situated to respond to the shortage of a prepared workforce by providing an array of programs that reach a wide range of individuals with talents that may not include a college degree Community Colleges and Workforce Preparation in the 21st Century Emerging Research and Opportunities is a comprehensive reference source that covers the essential role of community colleges in developing a skilled workforce via varying educational opportunities that include degree completion workforce development and skill enhancement Readers will benefit from the book s ability to advocate for the need for individuals with skillful trade options provide different areas to consider as trade options discuss the role of community colleges in preparing a workforce examine the challenges that can arise for individuals with a trade and present a global outlook on the workforce of the 21st century Covering topics that include career pathways and STEM programs the book is especially valuable for academic institutions that are looking to provide options for talent expansion Leadership and education scholars leadership practitioners within community college and university settings leaders within workforce development sectors researchers and students will also find this reference useful for developing a skilled and competent workforce *Higher Learning in America, 1980-2000* Arthur Levine,1993 The next decade promises to be a challenging one for colleges and universities This book explains why The essays provide an informative historical guide of the past decade while also looking into the future of higher education Christian Science Monitor Resources in Education ,2001-10 A *Practical Guide to Becoming a Community College President* Edward J.
