Emerson Centenary Essays:

Emerson Centenary Essays Joel Myerson, 1982 One hundred years after Ralph Waldo Emerson's death in Concord is an appropriate time to assess his life and writings The eleven essays here presented along with new documentary and manuscript material soon to be made available will provide a fresh impetus for subsequent studies of Emerson as man and writer The first four essays trace Emerson's development through the publication of his first series of Essays in 1841 Evelyn Barish describes Emerson's early illness and how his decision to deal with sickness influenced his philosophy Wesley T Mott shows the importance of the sermon Christ Crucified to Emerson's intellectual development Jerome Loving shows how Emerson's change in vocation and his change in philosophical outlook went hand in hand Glen M Johnson demonstrates how Emerson developed a sense of himself as a professional author The next three essays cover the period from 1841 to 1844 and include David Robinson's examination of The Method of Nature as marking a crucial point in Emerson's life Richard Lee Francis and David W Hill show Emerson seeking his persona in Essays Second Series and evaluate the significance of his eventual authorial voice The subsequent essays range widely Sanford E Marovitz surveys and evaluates Emerson's long time interest in Shakespeare Robert E Burkholder discusses the response of the press to English Traits Ronald A Sudol shows that Emerson's reaction to technology is embodied in the poem The Adirondacks and Merton M Sealts Jr concludes with a reminder that Emerson was in precept and in life a teacher

Emerson Centenary Essays Joel Myerson (Literary scholar, United States), 1982 Emerson's Essays Harold Bloom, 2006 Ralph Waldo Emerson 1803 1882 was the most influential American writer of the nineteenth century Poets such as Walt Whitman Emily Dickinson Robert Frost and Wallace Stevens descend from Emerson as do thinkers such as John Dewey and William James This volume of critical interpretations focuses on Emerson's Essays First Series 1841 and Essays Second Series 1844 which encompass some of his most important works History Self Reliance Circles The Poet and Experience among others These essays exemplify Emerson's distinctively rich prose and his radical affirmation of the strength of the individual The analyses and appreciations collected here place Emerson's essays in the context of literary and intellectual history grapple with the implications of his epigrams and tropes and link his shifts of perspective and tone to the changes in Emerson's life Together they illuminate the complexity and scope of the seminal works of America's most influential writer and thinker Book jacket

Centenary Edition, the Complete Works of Ralph Waldo Emerson: Essays. Second series Ralph Waldo Emerson, 1979 Emerson's Literary Philosophy Reza Hosseini, 2020-10-21 This book situates Ralph Waldo Emerson in the tradition of philosophy as spiritual exercise arguing that the defining feature of his literary philosophy is the conviction that there is an inherent link between moral persuasion and literary excellence Hosseini persuasively argues that the Emersonian project can be viewed as an extension of Socrates' call for a return to the beginning of philosophy to search for a way of revolutionizing our ways of seeing from within Examining Emerson's provocative style of writing Hosseini contends that his prose is shaped by a desire to bring

about psychagogia or influencing the soul through the power of words This book furthermore examines the evolving nature of Emerson's thoughts on scholarly action and its implications his religious temperament as an aesthetic experience of the world through wonder and the reasons for a resounding acknowledgment of despair in his essay Experience In the concluding chapter Hosseini explores the depth of Emerson's engagement with the classical Persian poets and argues that what we may call his literary humanism is informed by Persian Adab exemplified in the writings of Rumi Hafiz and Saadi Weaving together themes from Persian philosophy and Emersonian transcendentalism Hosseini establishes Emerson's way of seeing as refreshingly relevant showing that the questions he tackled in his writings are as pressing today as they were in his time

Prospects for the Study of American Literature Richard Kopley, 1997-08 What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain

Emerson's Pragmatic Vision David Jacobson, 2010-11-01 **New Essays on Walden** Robert F. Sayre, 1992-10-30 This review of Thoreau's classic contains a short biography of the author an account of the writing of Walden and a summary of other critical views

Essays Ralph Waldo Emerson, 1909 **Manhood and the American Renaissance** David Leverenz, 2019-06-30 In the view of David Leverenz such nineteenth century American male writers as Emerson Hawthorne Melville Thoreau and Whitman were influenced more profoundly by the popular model of the entrepreneurial man of force than they were by their literary precursors and contemporaries Drawing on the insights of feminist theory gender studies psychoanalytical criticism and social history Manhood and the American Renaissance demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth century America as they did for the women writers Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast patrician artisan and entrepreneurial He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle class ideology of competitive individualism The male writers of the American Renaissance patrician almost without exception in their backgrounds and self expectations were fascinated yet horrified by the aggressive materialism and the rivalry for dominance they witnessed in the undeferential new men In close readings of the works both of well known male literary figures and of then popular authors such as Richard Henry Dana Jr and Francis Parkman Leverenz discovers a repressed center of manhood beset by fears of humiliation and

masochistic fantasies He discerns different patterns in the works of Whitman with his artisan s background and Frederick Douglass who rose from artisan freedom to entrepreneurial power Emphasizing the interplay of class and gender Leverenz also considers how women viewed manhood He concludes that male writers portrayed manhood as a rivalry for dominance but contemporary female writers saw it as patriarchy Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe A bold and imaginative work Manhood and the American Renaissance will enlighten and inspire controversy among all students of American literature nineteenth century American history and the relation of gender and literature Transcendentalist Hermeneutics Richard A. Grusin,1991 American literary historians have viewed Ralph Waldo Emerson s resignation from the Unitarian ministry in 1832 in favor of a literary career as emblematic of a main current in American literature That current is directed toward the possession of a self that is independent and fundamentally opposed to the accoutrements of society and civilization and expresses a Transcendentalist antipathy toward all institutionalized forms of religious observance In the ongoing revision of American literary history this traditional reading of the supposed anti institutionalism of the Transcendentalists has been duly detailed and continually supported Richard A Grusin challenges both traditional and revisionist interpretations with detailed contextual studies of the hermeneutics of Ralph Waldo Emerson Henry David Thoreau and Theodore Parker Informed by the past two decades of critical theory Grusin examines the influence of the higher criticism of the Bible which focuses on authorship date place of origin circumstances of composition and the historical credibility of biblical writings on these writers The author argues that the Transcendentalist appeal to the authority of the self is not an appeal to a source of authority independent of institutions but to an authority fundamentally innate In Respect to Egotism Joel Porte,1991-07-26 This 1991 book examines nineteenth century literature focusing on the general question of the American Romantic ego *American Literature and Science* Robert Scholnick,2021-10-21 Literature and science are two disciplines are two disciplines often thought to be unrelated if not actually antagonistic But Robert J Scholnick points out that these areas of learning up through the beginning of the nineteenth century were understood as parts of a unitary endeavor By mid century they had diverged but literature and science have continued to interact conflict and illuminate each other In this innovative work twelve leaders in this emerging interdisciplinary field explore the long engagement of American writers with science and uncover science s conflicting meanings as a central dimension of the nation s conception of itself Reaching back to the Puritan poet minister physician Edward Taylor who wrote at the beginning of the scientific revolution and forward to Thomas Pynchon novelist of the cybernetic age this collection of original essays contains essential work on major writers including Franklin Jefferson Poe Emerson Thoreau Twain Hart Crane Dos Passos and Charles Olson Through its exploration of the ways that American writers have found in science and technology a vital imaginative stimulus even while resisting their destructive applications this book points towards a reconciliation and integration within culture An innovative look at a

neglected dimension of our literary tradition American Literature and Science stands as both a definition of the field and an invitation to others to continue and extend new modes of inquiry **Essays, First and Second Series [of Ralph Waldo Emerson]**. Ralph Waldo Emerson,1903 **Traversing the Democratic Borders of the Essay** Cristina Kirklighter,2012-02-01 Scholarship on the personal essay has focused on Western European and U S varieties of the form In *Traversing the Democratic Borders of the Essay* Cristina Kirklighter extends these boundaries by reading the Latin American and Latino a essayists Paulo Freire Victor Villanueva and Ruth Behar alongside such canonical figures as Montaigne Bacon Emerson and Thoreau In this fascinating journey into the commonalities and differences among these essayists Kirklighter focuses on various elements of the personal essay self reflexivity accessibility spontaneity and a rhetoric of sincerity in order to argue for a more democratic form of writing in academia one that would democratize the academy and promote nation building By using these elements in their teachings and writings Kirklighter argues educators can play a significant role in helping others who experience academic alienation achieve a better sense of belonging as they slowly dismantle the walls of the ivory tower Beyond the Classroom Merton M. Sealts,1996 These lucid essays though varied in subject have the commonality of an emphasis on teaching The first essay entitled Emerson as Teacher demonstrates how Emerson provoked and inspired and educated his students and his students students **The Postcolonial and Imperial Experience in American Transcendentalism** M. Paryz,2012-01-30 Analyses literary representations of the American experience in selected works of Ralph Waldo Emerson Henry David Thoreau and Walt Whitman Reveals the ambivalence that underlay the cultural and political development of the United States as a former colony **Mr. Emerson's Revolution** Jean McClure Mudge,2015-09-11 This volume traces the life thought and work of Ralph Waldo Emerson a giant of American intellectual history whose transforming ideas greatly strengthened the two leading reform issues of his day abolition and women s rights A broad and deep yet cautious revolutionary he spoke about a spectrum of inner and outer realities personal philosophical theological and cultural all of which gave his mid career turn to political and social issues their immediate and lasting power This multi authored study frankly explores Emerson s private prejudices against blacks and women while he also publicly championed their causes Such a juxtaposition freshly charts the evolution of Emerson s slow but steady application of his early neo idealism to emancipating blacks and freeing women from social bondage His shift from philosopher to active reformer had lasting effects not only in America but also abroad In the U S Emerson influenced such diverse figures as Thoreau Whitman Dickinson and William James and in Europe Mickiewicz Wilde Kipling Nietzsche and Camus as well as many leading followers in India and Japan The book includes over 170 illustrations among them eight custom made maps of Emerson s haunts and wide ranging lecture itineraries as well as a new four part chronology of his life placed alongside both national and international events as well as major inventions Mr Emerson s Revolution provides essential reading for students and teachers of American intellectual history the abolitionist and women s rights movement and for anyone

interested in the nineteenth century roots of these seismic social changes

The Commerce of Vision Peter John Brownlee, 2018-08-14 When Ralph Waldo Emerson wrote in 1837 that Our Age is Ocular he offered a succinct assessment of antebellum America's cultural commercial and physiological preoccupation with sight In the early nineteenth century the American city's visual culture was manifest in pamphlets newspapers painting exhibitions and spectacular entertainments businesses promoted their wares to consumers on the move with broadsides posters and signboards and advances in ophthalmological sciences linked the mechanics of vision to the physiological functions of the human body Within this crowded visual field sight circulated as a metaphor as a physiological process and as a commercial commodity Out of the intersection of these various discourses and practices emerged an entirely new understanding of vision The Commerce of Vision integrates cultural history art history and material culture studies to explore how vision was understood and experienced in the first half of the nineteenth century Peter John Brownlee examines a wide selection of objects and practices that demonstrate the contemporary preoccupation with ocular culture and accurate vision from the birth of ophthalmic surgery to the business of opticians from the typography used by urban sign painters and job printers to the explosion of daguerreotypes and other visual forms and from the novels of Edgar Allan Poe and Herman Melville to the genre paintings of Richard Caton Woodville and Francis Edmonds In response to this expanding visual culture antebellum Americans cultivated new perceptual practices habits and aptitudes At the same time however new visual experiences became quickly integrated with the machinery of commodity production and highlighted the physical shortcomings of sight as well as nascent ethical shortcomings of a surface based culture Through its theoretically acute and extensively researched analysis The Commerce of Vision synthesizes the broad culturing of vision in antebellum America

The Good Body William M. Etter, 2010-01-08 The Good Body Normalizing Visions in Nineteenth Century American Literature and Culture 1836-1867 examines literary and cultural representations of so called normal and abnormal bodies in the antebellum and Civil War era United States and the ways in which these representations operated as a means of justifying critiquing and problematizing prominent concerns of the period the relationship between the health of American citizens and national progress Western expansion debates over slavery the threatened dissolution of the Union in the Civil War and the legitimization of the post war reunified nation Considering a wide range of sources classic works of non fiction fiction and poetry health reform textbooks proslavery documents photographs of Civil War veterans and Civil War medical records of the federal government this study demonstrates that American literature of this period typically imagined real and fictional bodies as healthy aesthetically pleasing and symbolically coherent in relation to other bodies imagined as deviating from these norms to preserve existing political and social orders but also at times to challenge the hegemonic power of US institutions In addition to the literary material considered central in this book are critical approaches to history and disability studies which illuminate the construction of physical normality and contribute to recent scholarly attempts to assess the significance of physical
