Emile Durkheim Contributions To Lannee Sociologique

Roger Cotterrell

Emile Durkheim Contributions To Lannee Sociologique:

Contributions to L'Année Sociologique Emile Durkheim, 2008-06-30 These reviews notices and introductory sections by a major figure in intellectual history represent more than a decade of effort to define and clarify a new form of scientific investigation Together they offer a suggestive new picture of Emile Durkheim as Scholarch of the French School and master of a whole school of social thought For fifteen years Emile Durkheim worked on the journal L Annee Sociologique selecting editing writing and shaping the goals and methods of the French School of sociology Now Durkheim's own contributions to L Annee are available in English Classified and explained by Durkheim scholar Yash Nandan this useful collection clarifies the role of L Annee Sociologique in the development of scientific sociology the position of L Annee in the body of Durkheim's own work and the development of Durkheim's ideas the importance and function of Durkheim's categories of sociological data Durkheim's view of contemporaries including Simmel Westermarck Tarde Glotz and Steinmetz the exchange of ideas between historians and the L Annee group and the reasons for L Annee's reputation as a unique publication in the history of sociology Professor Nandan has organized this material according to Durkheim's own classification system with major sections on the concepts and methodologies of general juridic and moral sociology criminal sociology and the statistics on morals Subdivisions treat issues in law suicide social political and domestic organization juridic and moral systems the social contexts of crime the sociology of knowledge political sociology social history and historical sociology Émile Durkheim. Contributions to L'Année Sociologique Émile Durkheim, 1980 Classical Sociological Theory Bert N. Adams, R. A. Sydie, 2002-01-29 A concise yet surprisingly comprehensive theory text given the range of ideas historical context and theorists discussed Unlike other books of the type Classical Sociological Theory focuses on how the pivotal theories contributed not only to the development of the field but also to the evolution of ideas concerning social life Émile **Durkheim's Contributions to Sociological Theory** Charles Elmer Gehlke, 1915 Emile Durkheim's Contributions to Sociological Theory Charles Elmer Gehlke, 1915 Emile Durkheim on the Family Mary Ann Lamanna, 2001-10-24 This valuable source for a systematic and comprehensive understanding of Durkheim's ideas on the family constitutes a major addition to the literature on the family social theory women s studies and family law Highly recommended for upper division undergraduates and above CHOICE Emile Durkheim on the Family is intended to bring attention to this classical sociologist s work on the family Durkheim's writings in this area are little known but the family was nevertheless one of his primary interests the subject of an intended book that was never written Durkheim's ideas on the family appear only in scattered sources and a number of those sources have not been translated into English Durkheim's Sociology of the family has not heretofore been presented and analyzed holistically The purpose of Lamanna's book is to bring together Durkheim's ideas on the family from diverse sources and to present his family sociology systematically and comprehensively Quotations from Durkheim's writing or speaking enrich the analysis Durkheim's work on the family is situated in its historical context and

comparisons are drawn to present day sociology of the family is situated in its historical context and comparisons are drawn to present day sociology of the family and family issues Chapter topics include Durkheim's life and times His evolutionary theory of the family Methodologies for studying the family The changing relationship of kin Conjugal family and the state The interior of the family Family policy Gender Sexuality An examination of Durkheim's work on the family reveals its close connections to his wee known books and theories Emile Durkheim on the Family should interest audiences in sociology of the family social theory family science European intellectual history women s studies legal history and those generally interested in family studies and or nineteenth and early twentieth century Europe Emile Durkheim Prof Kenneth Thompson, 2003-10-04 This book examines Durkheim's considerable achievements and situates them in their social and intellectual contexts with a concise account of the major elements of Durkheim's sociology The book includes a critical commentary on the four main studies which exemplify Durkheim's contribution to sociology The Division of Labour in Society Suicide The Rules of Sociological Method and The Elementary Forms of Religious Life The Social Thought of Emile Durkheim Alexander Riley, 2014-02-04 This new volume of the SAGE Social Thinkers series provides a concise introduction to the work life and influences of mile Durkheim one of the informal holy trinity of sociology's founding thinkers along with Weber and Marx The author shows that Durkheim's perspective is arguably the most properly sociological of the three He thought through the nature of society culture and the complex relationship of the individual to the collective in a manner more concentrated and thorough than any of his contemporaries during the period when sociology was emerging as a Modernity and the Jews in Western Social Thought Chad Alen Goldberg, 2017-05-22 In the late nineteenth discipline and early twentieth centuries prominent social thinkers in France Germany and the United States sought to understand the modern world taking shape around them Although they worked in different national traditions and emphasized different features of modern society they repeatedly invoked Jews as a touchstone for defining modernity and national identity in a context of rapid social change In Modernity and the Jews in Western Social Thought Chad Alan Goldberg brings us a major new study of Western social thought through the lens of Jews and Judaism In France where antisemites decried the French Revolution as the Jewish Revolution mile Durkheim challenged depictions of Jews as agents of revolutionary subversion or counterrevolutionary reaction When German thinkers such as Karl Marx Georg Simmel Werner Sombart and Max Weber debated the relationship of the Jews to modern industrial capitalism they reproduced in secularized form cultural assumptions derived from Christian theology In the United States William Thomas Robert Park and their students conceived the modern city and its new modes of social organization in part by reference to the Jewish immigrants concentrating there In all three countries social thinkers invoked real or purported differences between Jews and gentiles to elucidate key dualisms of modern social thought The Jews thus became an intermediary through which social thinkers discerned in a roundabout fashion the nature problems and trajectory of their own wider societies Goldberg rounds out his fascinating study

by proposing a novel explanation for why Jews were such an important cultural reference point He suggests a rethinking of previous scholarship on Orientalism Occidentalism and European perceptions of America arguing that history extends into the present with the Jews and now the Jewish state continuing to serve as an intermediary for self reflection in the twenty On Durkheim's Rules of Sociological Method (Routledge Revivals) Mike Gane, 2010-11 This radical appraisal of Durkheim's method first published in 1988 argues that fundamental errors have been made in interpreting Durkheim Mike Gane argues that to understand The Rules it is necessary also to understand the context of the French society in which the book was written He explores the cultural and philosophical debates which raged in France during the period when Durkheim prepared the book and establishes the real and unsuspected complexity of Durkheim's position its formal complexity its epistemological complexity and its historical complexity The Cambridge Companion to Durkheim Jeffrey C. Alexander, Philip Smith, 2005-05-26 An authoritative and comprehensive collection of essays redefining the relevance of Durkheim to the human sciences in the twenty first century Sociological Theory Bert N. Adams, R. A. Sydie, 2001-01-30 Providing a concise and comprehensive introduction to both classical and contemporary social thought this volume makes social theory and social theorists accessible and meaningful Emile Durkheim's Contributions to the Sociology of Formal Organizations David Edward Greenwald,1970 Durkheim's Philosophy of Science and the Sociology of Knowledge Warren Schmaus, 1994-08-15 This text demonstrates the link between philosophy of science and scientific practice Durkheim's sociology is examined as more than a collection of general observations about society since the constructed theory of the meanings and causes of social life is incorporated **Disturbing the Nest** David Popenoe, 2020-10-14 Disturbing the Nest assesses the future of the family as an institution through an historical and comparative analysis of the nature causes and social implications of family change in advanced western societies such as the United States New Zealand and Switzerland by focusing on the one society in which family decline is found to be the greatest Sweden The founding of the modern Swedish welfare state was based in large part on the belief that it was necessary for the state to intervene in society in order to improve the situation of the family Of great concern was the low birthrate which was seen as a threat to the very survival of Swedes as a national population group The Social Democrats pioneered welfare measures that aimed to strengthen the family to alleviate its worst trials and tribulations and to make possible harmonious living With the Social Democrats remaining in power continuously until 1976 a period of almost forty five years Sweden went on to implement governmental family policies that are among the most comprehensive and expensive in the world In view of this major policy goal of family improvement the actual situation of the Swedish family today presents a genuine irony some have claimed that Swedish welfare state policies have had consequences that are the opposite of those originally intended Comparing contemporary Swedish family patterns with those of other advanced nations one finds a very high family dissolution rate probably the highest in the Western world and a high percentage of single parent female headed families

Even marriage seems to have fallen increasingly out of favor with Sweden having the lowest marriage rate and latest age of first marriage and the highest rate of children born out of wedlock The early pronatalist aspirations of the Swedish government have been spectacularly unsuccessful as Sweden continues to have one of the world s lowest birthrates and The Philosophy of Money Georg Simmel, 2004-08-02 I have lost interest in all that I have smallest average family sizes written prior to The Philosophy of Money This one is really my book the others appear to me colourless and seem as if they could have been written by anyone else Georg Simmel to Heinrich Rickert 1904 In The Philosophy of Money Simmel provides us with a remarkably wide ranging discussion of the social psychological and philosophical aspects of the money economy full of brilliant insights into the forms that social relationships take He analyzes the relationships of money to exchange the human personality the position of women individual freedom and many other areas of human existence Later he provides us with an account of the consequences of the modern money economy and the division of labour which examines the processes of alienation and reification in work urban life and elsewhere Perhaps more than any of his other sociological works The Philosophy of Money gives us an example of his comprehensive analysis of the interrelationships between the most diverse and seemingly connected social phenomena This revised edition of the translation by Tom Bottomore and David Frisby includes a new Preface by Davi *Émile Durkheim* Roger Cotterrell, 2017-03-02 This volume focuses on three closely connected aspects of mile Durkheim's work his sociology of justice his sociology of morality and his political sociology These areas of his thought are the most relevant and practical today in considering fundamental problems of contemporary societies and they provide many of the richest and most important insights of his social theory. Yet they are also relatively neglected and this volume collects together the most incisive recent periodical commentary on them Within the justice morality politics triangle Durkheim examines moral pluralism and the possibility of identifying a unifying value system for complex societies the nature and conditions of democracy the relations of the citizen the state and corporate groups criteria of justice and of effective economic regulation and modern individualism with its associated ideas of human dignity and human rights This tightly integrated volume presents Durkheim's thought in an unusual and revealing light showing him as a key social and political thinker for the twenty first century Nature: From nature to natures: contestation and reconstruction David Inglis, John Bone, Rhoda Wilkie, 2005 Many influential stances within the social sciences regard nature in one of two ways either as none of their concern which is with the social and cultural aspects of human existence or as wholly a social and cultural fabrication But there is also another strand of social scientific thinking that seeks to understand the interplay between social and cultural factors on one side and natural factors on the other These volumes contain the main contributions that have been made within each of these streams of thought The selections illustrate to the reader the complexity of the various positions within these streams and the strengths and limitations of each perspective A new introduction places these articles in their historical and intellectual context and the volumes are completed with an extensive

index and chronological table of contents
The Oxford Handbook of Émile Durkheim Hans Joas, Andreas Pettenkofer, 2024 mile Durkheim remains one of the most controversial and one of the most deeply misunderstood classics of social theory The Oxford Handbook of mile Durkheim takes stock of the different recent debates on Durkheimian sociology and makes them accessible to a wide audience spanning various disciplines this includes crucial debates that due to language barriers are not easily accessible for an English reading public In doing so this volume is an important resource for all scholars and students looking to understand Durkheimian sociology
The Barbarian Temperament Stejpan Mestrovic, 2013-07-23 This scintillating book by one of the most interesting young sociologists currently working in the USA is a provocative and timely contribution to the debate on civilization modernity and postmodernity The author argues that modernity never jettisoned barbarism Instead barbarism was repackaged in modern and postmodern traditions and cultures
