Lévi-Strauss Emmanuelle Loyer, 2019-01-18 Academic writer figure of melancholy aesthete Claude Lévi Strauss 1908 2009 not only transformed his academic discipline he also profoundly changed the way that we view ourselves and the world around us In this award winning biography historian Emmanuelle Loyer recounts Lévi Strauss's childhood in an assimilated Jewish household his promising student years as well as his first forays into political and intellectual movements As a young professor Lévi Strauss left Paris in 1935 for São Paulo to teach sociology His rugged expeditions into the Brazilian hinterland where he discovered the Amerindian Other made him into an anthropologist The racial laws of the Vichy regime would force him to leave France yet again this time for the USA in 1941 where he became Professor Claude Lévi Strauss to avoid confusion with the jeans manufacturer Lévi Strauss's return to France after the war ushered in the period during which he produced his greatest works several decades of intense labour in which he reinvented anthropology establishing it as a discipline that offered a new view on the world In 1955 *Tristes Tropiques* offered indisputable proof of this the world over During those years Lévi Strauss became something of a French national monument as well as a celebrity intellectual of global renown But he always claimed his perspective was a view from afar enabling him to deliver incisive and subversive diagnoses of our waning modernity Loyer's outstanding biography tells the story of a true intellectual adventurer whose unforgettable voice invites us to rethink questions of the human and the meaning of progress She portrays Lévi Strauss less as a modern than as our own great and disquieted contemporary *L'exploitation, l'exploitation Cinéma, and Latin America* Victoria Ruétalo, Dolores Tierney, 2009-05-07 Exploring the much neglected area of Latin American exploitation cinema this anthology challenges established continental and national histories and canons which often exclude exploitation cinema due to its perceived low cultural status It argues that Latin American exploitation cinema makes an important aesthetic and social contribution to the larger body of Latin American cinema often competing with Hollywood and more mainstream national cinemas in terms of popularity TV Guide Film & Video Companion, 2004 Digital Libraries and Crowdsourcing Mathieu Andro, 2018-03-13 Instead of outsourcing tasks to providers using labor intensive countries libraries around the world increasingly appeal to the crowds of Internet users making their relationship with users more collaborative These internet users can be volunteers or paid work consciously unconsciously or in the form of games They can provide the workforce skills knowledge or financial resources that libraries need in order to achieve unimaginable goals **Cinema of Exploration** James Leo Cahill, Luca Caminati, 2020-12-29 Drawing together 18 contributions from leading international scholars this book conceptualizes the history and theory of cinema's century long relationship to modes of exploration in its many forms from colonialist expeditions to decolonial radical cinemas to the perceptual voyage of the senses made possible by the cinematic apparatus This is the first anthology dedicated to analysing cinema's relationship to exploration from a global decolonial and ecological perspective Featuring leading scholars working with pathbreaking interdisciplinary methodologies drawing on insights from science and technology studies postcolonial theory indigenous ways of knowing and

film theory and history it theorizes not only cinema's implication in imperial conquest but also its cutting edge role in empirical expansion and experiments in sensual and critical perception The collected essays consider filmmaking in cross cultural contexts and films made in or about peoples in South America Asia Africa Indigenous North America as well as polar outer space and underwater exploration with famous figures such as Jacques Yves Cousteau alongside amateur and scientific filmmakers The essays in this collection are ideal for a broad range of scholars graduate students and advanced undergraduate students in cinema and media studies cultural studies and cognate fields *The Rhetoricity of Philosophy*

Blake D. Scott, 2024-08-02 This book aims to recast the way that philosophers understand rhetoric Rather than follow most philosophers in conceiving rhetoric as a specific way of speaking or writing it shows that rhetoric is better understood as a dimension of all human discourse and action what the author calls rhetoricity This book provides the first philosophical treatment of rhetoricity It is motivated by two ongoing developments The first is the debate between Alain Badiou and Barbara Cassin about philosophy's relation to rhetoric Both Badiou and Cassin are critical of rhetoric albeit for different reasons Second there has been a growing resurgence of interest in rhetoric considering the recent rise in authoritarian politics as well as new forms of propaganda driven by persuasive technologies This book identifies the common target of Badiou's and Cassin's otherwise incompatible critiques rhetoric's conception of audience It offers a fresh take on the new rhetoric project of Chaim Perelman and Lucie Olbrechts Tyteca putting their work into conversation with the Badiou Cassin debate The book then turns to the hermeneutic philosophy of Paul Ricoeur in search of an expanded conception of audience It shows that Ricoeur's hermeneutic philosophy allows us to extend Perelman and Olbrechts Tyteca's psychological notion of audience to texts themselves and to argue that human beings have a rhetorical capacity to reflect on audiences in search of what is potentially persuasive *The Rhetoricity of Philosophy* will be of interest to scholars and advanced students working in contemporary European philosophy rhetoric argumentation studies and social theory [Encyclopedia of French Film](#)
