by criminal sentences This book thus raises the question for theoretical sentencing scholarship whether the prevailing judiciary centred understanding of sentencing should be rethought

**Sentencing and the Legitimacy of Trial Justice** Ralph Henham, 2013-03-01 This book discusses the under researched relationship between sentencing and the legitimacy of punishment It argues that there is an increasing gap between what is perceived as legitimate punishment and the sentencing decisions of the criminal courts Drawing on a wide variety of empirical research evidence the book explores how sentencing could be developed within a more socially inclusive framework for the delivery of trial justice In the international context such developments are directly relevant to the future role of the International Criminal Court especially its ability to deliver more coherent and inclusive trial outcomes that contribute to social reconstruction Similarly in the national context these issues have a vital role to play in helping to re position trial justice as a credible cornerstone of criminal justice governance where social diversity persists In so doing the book should help policy makers in appreciating the likely implications for criminal trials of mainstreaming restorative forms of justice **Sentencing and the Legitimacy of Trial Justice** firmly ties the issue of legitimacy to the relevant context for delivering justice It suggests a need to develop the tools and methods for achieving this and offers some novel solutions to this complex problem This book will be a valuable resource for graduate students academics practitioners and policy makers in the field of criminal justice as well as scholars interested in socio legal and cross disciplinary approaches to the analysis of criminal process and sentencing and the development of theory and comparative methodology in this area

**Sentence Discounts and the Criminal Process** Ralph J Henham, 2017-09-20 This title was first published in 2001 This volume presents the results of an empirical investigation into the operation of sentence discounts for guilty pleas in the Crown Court It focuses primarily on the nature of judicial compliance with the S48

Criminal Justice and Public Order Act 1994 and those variables in sentence decision making which impact on this process It also examines the relative use made of sentence discounts and the nature and relevance of court of appeal guidance In doing so it raises important theoretical issues relating to sentencing research and addresses the implications for sentencing policy and practice With empirical research on the operation of the sentencing process being comparatively rare the book should make an important contribution to the existing literature *Sentencing and Society* Cyrus Tata,Neil Hutton,2017-03-02 Combining the latest work of leading sentencing and punishment scholars from twelve different countries this major new international volume answers key questions in the study of sentencing and society It presents not only a rigorous examination of the latest legal and empirical research from around the world but also reveals the workings of sentencing within society and as a social practice Traditionally work in the field of sentencing has been dominated by legal and philosophical approaches Distinctively this volume provides a more sociological approach to sentencing so allowing previously unanswered questions to be addressed and new questions to be opened This extensive collection is drawn from around one third of the papers presented at the First International Conference on Sentencing and Society Almost without exception the chapters have been revised cross referenced and updated The overall themes and findings of the international volume are set out by the opening Introduction and the closing Reflections chapters Research findings on particular penal policy questions are balanced with an analysis of fundamental conceptual issues making this international volume essential reading for sentencing and punishment scholars criminal justice policy makers and graduate students *Correctional Ethics* John Kleinig,2017-07-05 *Correctional Ethics* gathers the most prominent contributions to this burgeoning field ranging from the philosophy of punishment through to ethical appraisals of incarceration the professional responsibilities of prison personnel and formative work in restorative justice In addition it provides an annotated research agenda to help shape the development of a comprehensive correctional ethic For those working in correctional ethics this collection provides an essential resource Emmins on Sentencing Martin Wasik,1998 Based on *A Practical Approach to Sentencing* by the late Christopher Emmins this book provides a guide to the types of sentence which are now available to the courts It explains the powers of sentencing which can be used and how they are likely to be exercised in practice Criminal Law Jonathan Herring,2016 Jonathan Herring s unique and bestselling approach of separating out the doctrinal and theoretical aspects of the law alongside expertly selected extracts makes this book enduringly popular with students and teachers **European Criminal Procedures** Mireille Delmas-Marty,J. Amenge Okoth,2014-05-13 This book looks at the relevance of conspiracy in international criminal

law It establishes that conspiracy was introduced into international criminal law for purposes of prevention and to combat the collective nature of participation in commission of international crimes Its use as a tool of accountability has however been affected by conflicting conceptual perceptions of conspiracy from common law and civil law countries This conflict is displayed in the decisions on conspiracy by the international criminal tribunals and finally culminates into the exclusion of punishment of conspiracy in the Rome Statute It is questionable whether this latest development on the law of conspiracy was a prudent decision While the function of conspiracy as a mode of liability is satisfactorily covered by the modes of participation in the Rome Statute its function as a purely inchoate crime used to punish incomplete crimes is missing This book creates a case for inclusion in the Rome Statute punishment of conspiracies involving international crimes that do not extend beyond the conceptual stage to reinforce the Statute s purpose of prevention The conspiracy concept proposed is one that reflects the characteristics acceptable under both common law and civil law systems
