

EMOTIONAL DEVELOPMENT

Emotional development refers to a person's improving ability to recognize, regulate, and express their feelings.

THEORIES

- **Attachment Theory:** Explores how students overcome their attachment to their parents and replace it with self-efficacy, self-confidence, and ability to self-regulate emotions.
- **Psychosocial Theory:** people emotionally develop through a series of stages in life. In each stage, we have a fundamental crisis to overcome.

EXAMPLES

- **Emerging ability to name feelings (7 to 24 months):** Toddlers develop the ability to name feelings like happy, sad, and scared.
- **Declining egocentrism (5 years and up):** Children will slowly move out of egocentric thinking from about age 5 and start to develop perspective-taking and empathy for others' viewpoints.

The SAGE Encyclopedia of Intellectual and Developmental Disorders Ellen Braaten,2018-01-29 This encyclopedia provides an inter disciplinary approach discussing the sociocultural viewpoints policy implications educational applications and ethical issues involved in a wide range of disorders and interventions The Development of Emotional Intelligence Nadja Reissland,2013-02-28 How do children learn about the expression and meaning of emotions both happy and sad This

book answers questions regarding the foundation of emotional intelligence and examines how children become emotionally literate as they are socialised into their family environment from birth to 2 years of age These early stages are vitally important in teaching children to understand themselves and others as well as how to relate to people and how to adapt to and cope with their immediate surroundings In order to examine the development of emotional intelligence the author presents an overview of the literature on the subject and in the second part of the book presents a case study in which the concepts introduced in the first part of the book are revisited Based on daily tape recorded conversations between a baby and her father the data demonstrate how over a two year period the child learns to express and understand emotions within social interactions This capacity to reason with emotions is examined through four areas perceiving emotion integrating emotion understanding emotion and managing emotion The Development of Emotional Intelligence adds a new perspective to the theoretical debate on emotions and how they develop It will be of great interest to psychologists and any professionals dealing with families It will also be helpful reading for parents

Teaching Assistant's Handbook Louise Burnham, 2003 This practical handbook contains information for candidates on the NVQ Teaching Assistants course or practitioners working alongside classroom teachers It explores all the aspects of establishing relationships with children supporting learning activities and managing behaviour

Emotion and Adaptation Richard S. Lazarus, 1991 This work provides a complete theory of the emotional processes explaining how different emotions are elicited and expressed and how the emotional range of individuals develops over their lifetime The author's approach puts emotion in a central role as a complex patterned organic reaction to both daily events and long term efforts on the part of the individual to survive flourish and achieve In his view emotions cannot be divorced from other functions whether biological social or cognitive and express the intimate personal meaning of what individuals experience As coping and adapting processes they are seen as part of the on going effort to monitor changes stimuli and stresses arising from the environment
