Violent Emotions Suzanne M. Retzinger, 1991-06-28 In *Violent Emotions* Retzinger explores the role of hidden alienation and shame as the source of repetitious cycles of conflict Theories and research from large scale conflict marital disputes and communication processes are reviewed and provide a background for a new integrative theory developed by the author In testing her theory of prolonged conflict Retzinger utilizes complex verbal and nonverbal coding schemes identifies specific emotions within the context of marital disputes and points out recurring patterns preceding the escalation of an argument She provides exemplars of how this theory works through an intensive analysis of conflict exchange in four case studies and uses vivid descriptions to illustrate important points about communication in intimate relationships *Violent Emotions* provides much needed data that will be useful for preventive and predictive measures in early marital problems and insight into the dynamics of family and other violence It is an excellent volume for students and professionals in the fields of victimology psychology interpersonal communication gender studies and family studies Suzanne Retzinger has done such a fine job of presenting her theory and research I suspect that many researchers teachers and therapists will turn to the vivid descriptions and transcripts the author provides to illustrate important points about communication in intimate relationships from the Preface by Mary Anne Fitzpatrick University of Wisconsin Madison use the Fitzpatrick quote for communication catalogs she is the president of ICA Dr Retzinger's book is good news for both researchers and practitioners It opens up a

whole new field of emotions for understanding the sources of hidden conflict Psychotherapists counselors and mediators will find it particularly helpful since the book shows in concrete detail how to detect and change underground conflicts A gold mine of new ideas and techniques Thomas J Scheff University of California Santa Barbara It is a splendid work that goes to the heart of the possibilities for a world where conflict is dealt with more constructively and less violently The integration of case study and theory is masterful Dr John Braithwaite The Australian National University Australia The author focuses on the crucial importance of shame in human bonding and the underlying dynamics of escalating conflict The problem of escalating conflict and its relationship to unity is the foundation of this book Family Violence Sexual Assault Bulletin The author is well read and integrates with ease perspectives of conflict communication and bonding theories Researchers and practitioners concerned with marital and family interaction will be interested in this interdisciplinary approach to emotion Choice A very impressive portrayal of the moment by moment flow of emotional meaning in disputes Retzinger s case studies add flesh and blood to the interactional skeleton of conflict and successfully reveal the subtle dynamics of marital quarrels that escape other methodologies Retzinger s analysis of the dynamics of marital conflict make a lot of sense both in the abstract and in concrete application Her findings are important and provocative The book has the sensitivity and clarity that will make it useful reading for professionals or for bridge level and graduate classes Contemporary Sociology Retzinger offers the researcher in the field of family violence a potentially powerful explanatory tool to investigate why conflict is consistently found to be patterned in a specific sequence for each couple Retzinger also offers the clinician concrete suggestions for interrupting the pattern and for guiding fighting couples to healthier interaction I highly recommend this book to all working in the field of family violence The American Journal of Family Therapy Retzinger s book makes a great contribution to the field of sociological practice by offering information and making direct suggestions that can be translated readily into intervention tactics especially for the counseling sociologist The book should appeal to a wide range of professionals especially marital therapists Journal of Marriage and the Family Dr Retzinger s landmark contribution is a major breakthrough for the clinician Using sophisticated research methodology applied to the assessment of marital interaction she convincingly demonstrates the relationship of hostility and rage to antecedent shame however subtle or unacknowledged that shame might be The central insights to this book place in the therapist s hands the capacity both to recognize and to resolve a major impediment in the treatment of marital tension the escalation of marital conflict resulting from shame rage spirals Melvin R Lansky UCLA Medical School

Charmine E. J. Härtel, Wilfred J. Zerbe, Neal M. Ashkanasy, 2015-07-08 The rapidly growing recognition of the importance of emotions in understanding all aspects of organizational life is facilitating the development of focused areas of scholarship This volume addresses new ways of looking at emotions within organizational frameworks Daring to Feel Jody Santos, 2009-12-22 Thou shall remain objective is the number one newsroom commandment but lately cracks have begun to

appear in the news media's objective facade American journalists have been pushed to the emotional brink with such recent tragedies and September 11th and Virginia Tech Like social scientists reporters are expected to be immune to and even aloof from the pain and suffering they chronicle *Daring to Feel Violence the News Media and Their Emotions* challenges this journalistic mandate particularly as it pertains to the emotional topic of violence Interviewing journalists who have covered some of the worst tragedies in our nation's history Jody Santos shows what happens when the news media dare to feel No longer detached observers they are free to see violence in all of its emotional complexity In allowing themselves to experience the rage helplessness and fear of those who have survived violence these reporters tell deeper more moving stories stories that hopefully will have a profound effect on the way society views and confronts devastating problems such as child abuse and school massacres *Daring to Feel* is not a call to scrap objectivity but an attempt to rebalance journalism's hierarchical relationship between thinking and feeling rather Santos creates an insightful new dialogue about the value of emotionally engaged reporting

Destructive Emotions Daniel Goleman,2004-03-30 Why do seemingly rational intelligent people commit acts of cruelty and violence What are the root causes of destructive behavior How can we control the emotions that drive these impulses Can we learn to live at peace with ourselves and others Imagine sitting with the Dalai Lama in his private meeting room with a small group of world class scientists and philosophers The talk is lively and fascinating as these leading minds grapple with age old questions of compelling contemporary urgency Daniel Goleman the internationally bestselling author of Emotional Intelligence provides the illuminating commentary and reports on the breakthrough research this historic gathering inspired Destructive Emotions Buddhist philosophy tells us that all personal unhappiness and interpersonal conflict lie in the three poisons craving anger and delusion It also provides antidotes of astonishing psychological sophistication which are now being confirmed by modern neuroscience With new high tech devices scientists can peer inside the brain centers that calm the inner storms of rage and fear They also can demonstrate that awareness training strategies such as meditation strengthen emotional stability and greatly enhance our positive moods The distinguished panel members report these recent findings and debate an exhilarating range of other topics What role do

destructive emotions play in human evolution Are they hardwired in our bodies Are they universal or does culture determine how we feel How can we nurture the compassion that is also our birthright We learn how practices that reduce negativity have also been shown to bolster the immune system Here too is an enlightened proposal for a school based program of social and emotional learning that can help our children increase self awareness manage their anger and become more empathetic Throughout these provocative ideas are brought to life by the play of personalities by the Dalai Lama s probing questions and by his surprising sense of humor Although there are no easy answers the dialogues which are part of a series sponsored by the Mind and Life Institute chart an ultimately hopeful course They are sure to spark discussion among educators religious and political leaders parents and all people who seek peace for themselves and the world The Mind and Life Institute sponsors cross cultural dialogues that bring together the Dalai Lama and other Buddhist scholars with Western scientists and philosophers Mind and Life VIII on which this book is based took place in Dharamsala India in March 2000 **Foundations**
