Empire Settings A Novel:

Empire Settings David Schmahmann, 2010-06-01 An expatriate South African goes home to find the black woman he loved and left behind in this engaging Poignant and altogether promising debut Publishers Weekly Danny Divin is a young white man in South Africa who enters into an illicit romance with a mixed race schoolgirl the daughter of a black domestic servant When social constraints force Danny to end the romance he travels to America with the hope of starting a new life There he meets Tesseba a curious and trusting artist who takes him in and marries him to save him from deportation The two build a life together but Danny continues to be plagued by a growing sense of loss Twenty years later Danny returns to a new South Africa in the hope of saving a family fortune and finding the girl he has never forgotten Unexpected even unforgettable An artful battle against cultural and historical amnesia The Washington Post Schmahmann is adept at blending the personal and the political and his story manages memorably to evoke his country's terrible past even as it portrays the tragic difficulties of its present struggles The San Francisco Chronicle Teaches us volumes about hello and goodbye holding on and letting go The Christian Science Monitor All of Schmahmann's characters long for a past that can no longer exist a longing he elucidates with bittersweet grace The Baltimore Sun A South African Gone with the Wind Library Journal Brings characters family tensions and racial complexities alive in just a line or two Seattle Times It bristles with tension and suspense and is remarkably authentic Desmond M Tutu Archbishop Emeritus Nobel Laureate [African Settings in Contemporary American Novels](#) Dave Kuhne, 1999-05-30 Africa has long captured the Western imagination as a land shrouded in danger and mystery British and American novels written before World War II established popular conventions and stereotypes about Africa that have been increasingly challenged by contemporary American novels set in Africa Kuhne's book overviews the ways in which Africa has been employed as a powerful setting for American novels written since World War II Kuhne argues that contemporary American novels with African settings are largely didactic that these novels convey specific lessons about Africa and Africans and that they compare African and American cultures in order to evaluate and critique the two worlds The book begins by summarizing the conventions and themes Westerners have traditionally associated with Africa and by detailing how British and American authors from Aphra Behn to Ernest Hemingway depicted Africa before World War II It then looks at contemporary American novels set in invented African nations novels that typically suggest that the problems that trouble actual African nations are the result of colonialism A separate chapter then examines the African novels of African Americans which generally aim to correct the historical record refute stereotypes and detail the horrors of the slave trade The volume also looks at genre fiction set in Africa while a final chapter discusses postcolonial novels with African settings

The Empire's of J. G. Ballard David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world The Empires of J G Ballard is the first extensive study of Ballard's critical vision of

nation and empire of the political geography of this planet Paddy examines how Ballard's self-perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post-war transformation of older models of empire into new imperialisms of consumerism and globalization Presenting analyses of Ballard's full body of work with its tales of reverse colonization psychological imperialism the savagery of civilization estranged Englishmen abroad and at home and multinational communities built on crime The Empires of J G Ballard offers a fresh perspective on the fiction of J G Ballard The Empires of J G Ballard An Imagined Geography offers a sustained and highly convincing analysis of the imperial and post-imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings To what extent can Ballard be considered an international writer What happens to our understanding of his post-war science fictions when they are opened up to the language and logics of post-colonialism And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature history and politics Jeanette Baxter Anglia Ruskin University Shanghai made my father Arriving in England after WW2 he was a person of the world who'd witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton 1930s Shanghai Paris of the East was a mix of international sophistication and violence unfettered capitalism and acute poverty American cars martinis and Coca Cola a place marked by death and war It had a profound influence on my father and his imagination Dr Paddy's fascinating book explores my father's fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world Fay Ballard *Novel Cultivations* Elizabeth Hope Chang, 2019-03-25 Shortlisted for the Best Book Prize from the British Society of Literature and Science Nineteenth century English nature was a place of experimentation exoticism and transgression as site and emblem of the global exchanges of the British Empire Popular attitudes toward the transplantation of exotic species botanical and human to Victorian greenhouses and cities found anxious expression in a number of fanciful genre texts including mysteries science fiction and horror stories Situated in a mid-Victorian moment of frenetic plant collecting from the far reaches of the British empire *Novel Cultivations* recognizes plants as vital and sentient subjects that serve often more so than people as actors and narrative engines in the nineteenth century novel Conceptions of native and natural were decoupled by the revelation that nature was globally sourced a disruption displayed in the plots of gardens as in those of novels Elizabeth Chang examines here the agency asserted by plants with shrewd readings of a range of fictional works from monstrous rhododendrons in Daphne du Maurier's *Rebecca* and Mexican prickly pears in Olive Schreiner's *Story of an African Farm* to Algernon Blackwood's hair-raising *The Man Whom the Trees Loved* and other obscure ecogothic tales This provocative contribution to

ecocriticism shows plants as buttonholes between fiction and reality registering changes of form and content in both realms

Utopian Geographies and the Early English Novel Jason H. Pearl, 2014-10-01 Historians of the Enlightenment have studied the period's substantial advances in world cartography as well as the decline of utopia imagined in geographic

terms Literary critics meanwhile have assessed the emerging novel's realism and in particular the genre's awareness of the wider world beyond Europe Jason Pearl unites these lines of inquiry in *Utopian Geographies and the Early English Novel* arguing that prose fiction from 1660 to 1740 helped demystify blank spaces on the map and make utopia available anywhere This literature incorporated debunked and reformulated utopian conceptions of geography Reports of ideal societies have always prompted skepticism and it is now common to imagine them in the future rather than on some undiscovered island or continent At precisely the time when novels began turning from the fabulous settings of romance to the actual locations described in contemporaneous travel accounts a number of writers nevertheless tried to preserve and reconfigure utopia by giving it new coordinates and parameters Margaret Cavendish Aphra Behn Daniel Defoe Jonathan Swift and others told of adventurous voyages and extraordinary worlds They engaged critically and creatively with the idea of utopia If these writers ultimately concede that utopian geographies were nowhere to be found they also reimagine the essential ideals as new forms of interiority and sociability that could be brought back to England Questions about geography and utopia drove many of the formal innovations of the early novel As this book shows what resulted were new ways of representing both world geography and utopian possibility
