highlighting the diverse ways freedpeople defined and created freedom through quotidian acts of survival and occasional uprisings Lightfoot complicates conceptions of freedom and the general narrative that landlessness was the primary constraint for newly emancipated slaves in the Caribbean

**Lucky Valley** Catherine Hall, 2024-02-22 Why does Edward Long's History of Jamaica matter Written in 1774 Long's History that most civilised of documents attempted to define White and Black as essentially different and unequal Long deployed natural history and social theory carefully mapping the island and drawing on poetry and engravings in his efforts to establish a clear and fixed racialized hierarchy His White family sat at the heart of Jamaican planter society and the West India trade in sugar which provided the economic bedrock of this eighteenth century system of racial capitalism Catherine Hall tells the story behind the History of a slave owning family that prospered across generations together with the destruction of such possibilities for enslaved people She unpicks the many contradictions in Long's thinking exposing the insidious myths and stereotypes that have poisoned social relations over generations and allowed reconfigured forms of racial difference and racial capitalism to live on in contemporary societies

**Hirelings** Jennifer Hull Dorsey, 2011-04-15 In *Hirelings* Jennifer Dorsey recreates the social and economic milieu of Maryland's Eastern Shore at a time when black slavery and black freedom existed side by side She follows a generation of manumitted African Americans and their freeborn children and grandchildren through the process of inventing new identities associations and communities in the early nineteenth century Free Africans and their descendants had lived in Maryland since the seventeenth century but before the American Revolution they were always few in number

and lacking in economic resources or political leverage By contrast manumitted and freeborn African Americans in the early republic refashioned the Eastern Shore s economy and society earning their livings as wage laborers while establishing thriving African American communities As free workers in a slave society these African Americans contested the legitimacy of the slave system even while they remained dependent laborers They limited white planters authority over their time and labor by reuniting their families in autonomous households settling into free black neighborhoods negotiating labor contracts that suited the needs of their households and worshipping in the African Methodist Episcopal Church Some moved to the cities but many others migrated between employers as a strategy for meeting their needs and thwarting employers control They demonstrated that independent and free African American communities could thrive on their own terms In all of these actions the free black workers of the Eastern Shore played a pivotal role in ongoing debates about the merits of a free labor system
