The Empire of Reason Henry Steele Commager, 1977 **The Empire Of Reason** Henry Steele Commager, 1978 **A Companion to American Literature and Culture** Paul Lauter, 2020-09-21 This expansive Companion offers a set of fresh perspectives on the wealth of texts produced in and around what is now the United States Highlights the diverse voices that constitute American literature embracing oral traditions slave narratives regional writing literature of the environment and more Demonstrates that American literature was multicultural before Europeans arrived on the continent and even more so thereafter Offers three distinct paradigms for thinking about American literature focusing on genealogies of American literary study writers and issues and contemporary theories and practices Enables students and researchers to generate richer more varied and more comprehensive readings of American literature **Jefferson and the Iconography of Romanticism** M. Kelsall, 1999-05-17 Jefferson and the Iconography of Romanticism is the first full length study to examine how Jefferson in the process of inventing the USA as the first new nation of the Romantic era sought to find an appropriate imagery to represent the people their homeland and the cultural ideal to which they should aspire It examines in detail the role of his villa at Monticello in embodying the national ideal shows how those ideals emerged and how they were subsequently challenged by the reinterpretation of Jefferson's iconography **American Exceptionalism** Volker Depkat, 2021-11-15 The idea that America is exceptional whether because of its founding creed natural abundance or Protestant origins has been the subject of fierce debate going back to the founding Rather than argue for one side or the other Volker Depkat explores the diverse ways in which Americans have described their country as exceptional Describing how narratives of exceptionalism have never been a purely American affair Depkat shows how for example European African and Asian immigrants projected their own dreams and nightmares onto the American screen contributing to the intellectual construction of America In fact the different groups living in America have described American exceptionalism in such differing terms that there hardly ever was a shared understanding as to what these exceptional experiences were and how to interpret them What has unified the disparate exceptionalist narratives Depkat explains is their insistence on America's universalist and future oriented way of life In engaging and lucid prose Depkat offers general readers and students of American history an invaluable lens through which they can evaluate for themselves the merits of the many ways in which Americans have understood their country as exceptional **Cosmos & Hearth** Yi-fu Tuan, 1996 In a volume that represents the culmination of his life's work in considering the relationship between culture and landscape Tuan argues that cosmos and hearth are two scales that anchor what it means to be fully and happily human Hearth is our house and neighborhood family and kinfolk habit and custom Cosmos by contrast is the larger reality world civilization and humankind Tuan addresses the extraordinary revival of interest in the hearth in recent decades examining both the positive and negative effects of this renewed concern Among the beneficent outcomes has been a revival of ethnic culture and sense of place Negative

repercussions abound however manifested as an upsurge in superstition excessive pride in ancestry and custom and a constricted worldview that when taken together can inflame local passions leading at times to violent conflict from riots in U S cities to wars in the Balkans In *Cosmos and Hearth* Tuan takes the position that we need to embrace both the sublime and the humble drawing what is valuable from each Illustrating the importance of both cosmos and hearth with examples from his country of birth China and from his home of the past forty years the United States Tuan proposes a revised conception of culture the cosmopolitan hearth that has the coziness but not the narrowness and bigotry of the traditional hearth Tuan encourages not only being thoroughly grounded in one s own culture but also the embracing of curiosity about the world Optimistic and deeply human *Cosmos and Hearth* lays out a path to being at home in the cosmos

The Struggle for Power in Colonial America, 1607-1776 William R. Nester, 2017-10-11 America s colonial era began and ended dramatically with the founding of the first enduring settlement at Jamestown on May 14 1607 and the Declaration of Independence in Philadelphia on July 4 1776 During those 169 years conflicts were endemic and often overlapping among the colonists between the colonists and the original inhabitants between the colonists and other imperial European peoples and between the colonists and the mother country As conflicts were endemic so too were struggles for power This study reveals the reasons for stages and results of these conflicts The dynamic driving this history are two inseparable transformations as English subjects morphed into American citizens and the core American cultural values morphed from communitarianism and theocracy into individualism and humanism These developments in turn were shaped by the changing ways that the colonists governed made money waged war worshipped thought wrote and loved Extraordinary individuals led that metamorphosis explorers like John Smith and Daniel Boone visionaries like John Winthrop and Thomas Jefferson entrepreneurs like William Phips and John Hancock dissidents like Rogers Williams and Anne Hutchinson warriors like Miles Standish and Benjamin Church free spirits like Thomas Morton and William Byrd and creative writers like Anne Bradstreet and Robert Rogers Then there was that quintessential man of America s Enlightenment Benjamin Franklin And finally George Washington who more than anyone was responsible for winning American independence when and how it happened

American Dark Age contends that life in early and antebellum America for Black people resembles what Keidrick Roy calls racial feudalism a race based system of social stratification in the U S that operates as an extension of medieval ideas and customs Accordingly this project does not read Thomas Jefferson and his Declaration of Independence against the backdrop of the European and American Enlightenment traditions as virtually all modern scholars have done Instead it seeks to understand Jefferson as a product of the same feudal frameworks he claimed to supersede Jefferson s attachment to feudalism is most evident in his approbation of two new aristocracies during the Age of Enlightenment 1 the aristocracy of the mind which he calls a natural aristocracy and 2 the aristocracy of the skin what abolitionist Frederick Douglass later dubs with emphasis skin aristocracy After tracing the lineaments of racial feudalism Roy shows how four African Americans James McCune Smith William Wells Brown Francis Harper and Harriet Jacobs present distinctive but interconnected visions for overcoming its effects in the mid nineteenth

century by upending the antecedent feudal architecture of American liberalism a broad tradition whose unifying strands otherwise emphasize individual liberties egalitarianism moral universalism and meliorism the belief in the possibility for social and political progress Ultimately Roy argues McCune Smith Wells Brown Harper and Jacobs maintained a spirit of cautious optimism against the retrogressive forces of plantation slavery in the South and what McCune Smith calls caste slavery in the North Their quest to destroy racial feudalism and reformulate American liberalism established the conditions for initiating new ways of being American Financing Public Schools Kern Alexander, Richard G.
