Empire Or Independence A Study In The Fa:

Longman Companion to the Formation of the European Empires, 1488-1920 Muriel E. Chamberlain, 2014-06-11
The European empires as they existed from the Age of Discovery until after the First World War shaped the modern world So great has been their political economic and cultural influence that to fully understand contemporary history and events it is essential to have an understanding of the imperial past This book is an impressive achievement It brings together in one comprehensive volume all the essential facts and figures relating to the process of empire building by the European powers It complements the Longman Companion to European Decolonisation in the Twentieth Century by the same author together they help to explain why different empires had different philosophies dissolved in different ways and left different legacies

Empires of the Senses Andrew J. Rotter, 2019-06-21 When encountering unfamiliar environments in India and the Philippines the British and the Americans wrote extensively about the first taste of mango and meat spiced with cumin the smell of excrement and coconut oil the feel of humidity and rough cloth against skin the sound of bells and insects and the appearance of dark skinned natives and lepers So too did the colonial subjects they encountered perceive the agents of empire through their senses and their skins Empire of course involved economics geopolitics violence a desire for order and greatness a craving for excitement and adventure It also involved an encounter between authorities and subjects an everyday process of social interaction political negotiation policing schooling and healing While these all concerned what people thought about each other perceptions of others as Andrew Rotter shows were also formed through seeing hearing touching smelling and tasting In this book Rotter offers a sensory history of the British in India from the formal imposition of their rule to its end 1857 1947 and the Americans in the Philippines from annexation to independence 1898 1946 The British and the Americans saw themselves as the civilizers of what they judged backward societies and they believed that a vital part of the civilizing process was to properly prioritize the senses and to ensure them against offense or affront Societies that looked shabby were noisy and smelly felt wrong and consumed unwholesome food in unmannerly ways were unfit for self government It was the duty of allegedly more sensorily advanced Anglo Americans to educate them before formally withdrawing their power Indians and Filipinos had different ideas of what constituted sensory civilization and to some extent resisted imperial efforts to impose their own versions What eventually emerged were compromises between these nations sensory regimes A fascinating and original comparative work Empires of the Senses offers new perspectives on imperial history *University of Wisconsin Studies in the Social Sciences and History* University of Wisconsin, 1928 *University of Wisconsin Studies in the Social Sciences and History*, 1928 *The SAGE Encyclopedia of Filipina/x/o American Studies*
Kevin Leo Yabut Nadal, Allyson Tintiangco-Cubales, E.J.R. David, 2022-09-13 Filipino Americans are one of the three largest Asian American groups in the United States and the second largest immigrant population in the country Yet within the field of Asian American Studies Filipino American history and culture have received comparatively less attention than have other

ethnic groups Over the past twenty years however Filipino American scholars across various disciplines have published numerous books and research articles as a way of addressing their unique concerns and experiences as an ethnic group The SAGE Encyclopedia of Filipina x o American Studies the first on the topic of Filipino American Studies offers a comprehensive survey of an emerging field focusing on the Filipino diaspora in the United States as well as highlighting issues facing immigrant groups in general It covers a broad range of topics and disciplines including activism and education arts and humanities health history and historical figures immigration psychology regional trends and sociology and social issues

Vaughn,Robert A. Olwell,2019-11-28 Examining the pivotal period between the end of the Seven Years War and the dawn of the American Revolution Envisioning Empire reinterprets the development of the British Empire in the 18th century With exceptional geographical scope this book provides new ways of understanding the actors and events in many imperial arenas including West Africa North America the Caribbean and South Asia While 1763 has long been seen as marking a turning point in British and British colonial history Envisioning Empire treats this epochal year and the decade that followed as constituting a discrete moment in Imperial history that is significant in its own right Exploring the programs and plans that sought to incorporate the vast new territories and millions of new subjects into the British state and imperial system it demonstrates how the period between the end of the Seven Years War and the beginning of the American Revolution was one of contested ideas about the future of British overseas expansion By examining these competing imperial visions and designs from the perspective of Britain s new subjects as well as from that of British ministers Envisioning Empire both illuminates and complicates the boundaries that have been drawn between the first and second British empires and reveals how the Empire was being conceived discussed and debated during an era of rapid transformation **The Struggle for Sea Power: A Naval History of the American Revolution** Sam Willis,2016-02-15 A fascinating naval perspective on one of the greatest

of all historical conundrums How did thirteen isolated colonies which in 1775 began a war with Britain without a navy or an army win their independence from the greatest naval and military power on earth The American Revolution involved a naval war of immense scope and variety including no fewer than twenty two navies fighting on five oceans to say nothing of rivers and lakes In no other war were so many large scale fleet battles fought one of which was the most strategically significant naval battle in all of British French and American history Simultaneous naval campaigns were fought in the English Channel the North and Mid Atlantic the Mediterranean off South Africa in the Indian Ocean the Caribbean the Pacific the North Sea and of course off the eastern seaboard of America Not until the Second World War would any nation actively fight in so many different theaters In The Struggle for Sea Power Sam Willis traces every key military event in the path to American independence from a naval perspective and he also brings this important viewpoint to bear on economic political and social developments that were fundamental to the success of the Revolution In doing so Willis offers valuable new insights into American British French Spanish Dutch and Russian history This unique account of the American Revolution gives us a new understanding of the influence of sea power upon history of the American path to independence and of the rise and fall of the British Empire

Burston dec'd, Cyril Green, E Nicholas, A Dickinson, D Thompson, 2021-12-24 First published in 1972 Handbook for History Teachers is intended to be a general and comprehensive work of reference for teachers of history in primary and secondary schools of all kinds The book covers all aspects of teaching history among them are the use of sources world history art and history principles of constructing a syllabus and the psychological aspects of history teaching The bibliographical sections are arranged on three parts school textbooks a section on audio visual aids and finally books for the teacher and possibly for the sixth form It thoroughly investigates and critiques the various methods employed in teaching history within classrooms and suggests alternatives wherever applicable Diligently curated by the Standing Sub Committee in History University of London Institute of Education the book still holds immense value in the understanding of pedagogy

Crucible of Power Howard Jones, 2009-03-16 *Crucible of Power* A History of American Foreign Relations to 1913 presents a straightforward balanced and comprehensive history of American international relations from the American Revolution to 1913 Howard Jones demonstrates the complexities of the decision making process that led to the rise and decline of the United States relative to the ascent of other nations in world power status Howard Jones focuses on the personalities security interests and expansionist tendencies behind the formulation and implementation of U S foreign policy and highlights the intimate relationship between foreign and domestic policy This updated edition includes revisions and additions aimed at making the book more attractive to students teachers and general readers *Law and Social Justice in Higher Education* Crystal Renée Chambers, 2016-11-25 The latest volume in the Core Concepts in Higher Education series explores the complexity of law in higher education and both the limits and opportunities of how law can promote inclusivity and access on campus Through a historical and legal framework this volume discusses undergraduate students histories of inclusion and struggles for social justice in higher education by race sex social class disability and sexual orientation Bridging research theory and practice *Law and Social Justice in Higher Education* encourages future and current higher education and student affairs practitioners to consider how they can collaborate to further a just society Special features Discussion of case law illustrates the reach and limits of law and where higher education professionals can continue to push for social justice Accessible to non lawyers chapters highlight key legal terms and key concepts to guide readers at the beginning of each chapter End of chapter questions provide prompts for discussion and encourage student interactivity **Football and the Boundaries of History** Brenda Elsey, Stanislaw G. Pugliese, 2017-03-16 The essays in this volume use football to create a dialogue between history and other disciplines including art criticism philosophy and political science The study of football provides fertile ground for interdisciplinary initiatives and this volume explores the disciplinary boundaries that are shifting

beneath our feet Traditional disciplines in the humanities and social sciences have come to embrace diverse research methodologies and the increased scholarly attention to football over the past decade reflects both the startling popularity of the sport and the trends in historical scholarship that have been termed the cultural interpretive or linguistic turns This volume includes work on gender sexuality and ethnicity which have challenged disciplinary fault lines **An Introductory Dictionary of Theology and Religious Studies** Orlando O. Espín,James B. Nickoloff,2007 Spanning the gamut from Aaron to Zwingli this dictionary includes nearly 3 000 entries written by about sixty authors all of whom are specialists in their various theological and religious disciplines The editors have designed the dictionary especially to aid the introductory level student with instant access to definitions of terms likely to be encountered in but not to substitute for classroom presentations or reading assignments Publisher Great Events from History: Unknown-1830 Frank Northen Magill,1975
