Singapore Kevin Blackburn,ZongLun Wu,2019-05-09 Decolonizing the History Curriculum in Malaysia and Singapore is a unique study in the history of education because it examines decolonization in terms of how it changed the subject of history in the school curriculum of two colonized countries Malaysia and Singapore Blackburn and Wu s book analyzes the transition of the subject of history from colonial education to postcolonial education from the history syllabus upholding the colonial order to the period after independence when the history syllabus became a tool for nation building Malaysia and Singapore are excellent case studies of this process because they once shared a common imperial curriculum in the English language schools that was gradually decolonized to form the basis of the early history syllabuses of the new nation states they were briefly one nation state in the early to mid 1960s The colonial English language history syllabus was decolonized into a national curriculum that was translated for the Chinese Malay and Tamil schools of Malaysia and Singapore By analyzing the causes and consequences of the dramatic changes made to the teaching of history in the schools of Malaya and Singapore as Britain ended her empire in Southeast Asia Blackburn and Wu offer fascinating insights into educational reform the effects of decolonization on curricula and the history of Malaysian and Singaporean education The Christian Movement in the

Japanese Empire ,1915 **Empire lost** Elisabeth Mudimbe-Boyi,2009-03-16 Despite the loss of the French Empire France and its former colonies are still bound by a common historical past With the new global promotion of la Francophonie the relation between the various constituencies of the French speaking regions of the world is reexamined and debated in this book through the conversation between scholars dealing with diverse texts and contexts that present the colonial contact and its imprint The book illustrates how in France and in its other worlds that contact its repercussions and its memory are lived and expressed today in a variety of textual representations The historical contact between France and its other worlds has

given birth to new kinds of cross cultural expressions in the arts in literature and in aesthetics establishing interrelations and generating appropriations from both sides of the Hexagon frontier highlighting the fluidity and the permeability of its cultural borders The book subtext tells that the frontier between France and its other worlds is no more an unshakable geographical political and cultural limit but rather a line that has become mobile fluctuating and permeable and across which currents ideas sensitivities and creativity are expressed bearing testimony to vitality and diversity but also to a cross fertilization of cultures and societies re crossing or meeting at that line Seen from this latter perspective the book comes also as an interrogation of the inclusiveness or exclusiveness of the words francophone and Francophonie and at an academic level a mutual exclusion of French and Francophone Studies

Letters from Paulos, a Leader in Wisdom, to His Pupils in Korinthos, 1920 Churchill's Empire Richard Toye, 2010-08-03 This superb unsettling new history examines how the

man who stood for freedom in WWII staunchly promoted Imperialism across the globe Johan Hari The New York Times Book Review A charmer and a bully Winston Churchill was driven by a belief that the English were a superior race whose goals went beyond individual interests to offer an enduring good to the entire world No better example exists than Churchill's resolve to stand alone against a more powerful Hitler in 1940 while the world's democracies fell to their knees But there is also the Churchill who frequently inveighed against human rights nationalism and constitutional progress the imperialist who could celebrate racism and believed India was unsuited to democracy Drawing on newly released documents and an uncanny ability to separate the facts from the overblown reputation by mid career Churchill had become a global brand Richard Toye provides the first comprehensive analysis of Churchill's relationship with the empire Instead of branding Churchill as a simple hero or villain of history Toye demonstrates how the statesman evolved over time He challenges the reader to understand Churchill's need to reconcile the demands of conscience with those of political conformity

An Illustrated Description of the Russian Empire Robert Sears, 1855 *Financing an Empire* Ira Brown Cross, 1927 Contains histories of banks and brief biographies of prominent bankers Ireland and Empire in the Late Nineteenth Century Fergal

O'Leary, 2023 This book examines the place of imperialism in the cultural political and economic life of late nineteenth century Irish society It highlights the tensions which arose because Ireland was at the same time both a colonial subject of Britain yet also shared aspects of the imperial culture which was being formed during this period It considers how Empire seeped into everyday Irish life explores how Irish men and Irish women were intimately bound up with British expansionism with imperial achievements and setbacks enthusiastically covered in many national and local newspapers and discusses how Irish politicians and students vehemently debated imperial matters in public It addresses key questions including What were the similarities and differences with Britain's imperial experience Was there a general awareness and understanding of the implications of British overseas expansion How was Ireland's ambiguous role in Britain's imperial enterprise perceived did the Irish regard themselves as empire makers opponents of British national chauvinism or occupying a more neutral role

Overall the book provides a nuanced analysis of the impact of the British Empire in Ireland demonstrating how the Empire was central to Ireland's late nineteenth century historical experience for nationalists and unionists alike [Empire's Proxy](#) Meg Wesling, 2011-04-11 Part of the American Literatures Initiative Series In the late nineteenth century American teachers descended on the Philippines which had been newly purchased by the U S at the end of the Spanish American War Motivated by President McKinley's project of benevolent assimilation they established a school system that centered on English language and American literature to advance the superiority of the Anglo Saxon tradition which was held up as justification for the U S's civilizing mission and offered as a promise of moral uplift and political advancement Meanwhile on American soil the field of American literature was just being developed and fundamentally though invisibly defined by this new extraterritorial expansion Drawing on a wealth of material including historical records governmental documents from the War Department and the Bureau of Insular Affairs curriculum guides memoirs of American teachers in the Philippines and 19th century literature Meg Wesling not only links empire with education but also demonstrates that the rearticulation of American literary studies through the imperial occupation in the Philippines served to actually define and strengthen the field Empire's Proxy boldly argues that the practical and ideological work of colonial dominance figured into the emergence of the field of American literature and that the consolidation of a canon of American literature was intertwined with the administrative and intellectual tasks of colonial management [Vienna and the Fall of the Habsburg Empire](#) Maureen Healy, 2004-05-27 Publisher Description **The New Teacher's and Pupils' Cyclopaedia**, 1909 [Questions Designed for the Use of Pupils Engaged in the Study of Lyman's Chart of Universal History](#) Azel Storrs Lyman, 1845 **Pennsylvania, the Building of an Empire** Pennsylvania. Louisiana Purchase Exposition Commission, 1904 [Educational Systems of the Chief Colonies of the British Empire ...](#) Great Britain. Board of Education, 1901 [Education for Empire](#) Clif Stratton, 2016-01-26 Education for Empire examines how American public schools created and placed children on multiple and uneven paths to good citizenship These paths offered varying kinds of subordination and degrees of exclusion closely tied to race national origin and US imperial ambitions Public school administrators teachers and textbook authors grappled with how to promote and share in the potential benefits of commercial and territorial expansion and in both territories and states how to apply colonial forms of governance to the young populations they professed to prepare for varying future citizenships The book brings together subjects in American history usually treated separately in particular the formation and expansion of public schools and empire building both at home and abroad Temporally framed by the 1882 Chinese Exclusion and 1924 National Origins Acts two pivotal immigration laws deeply entangled in and telling of US quests for empire case studies in California Hawaii Georgia New York the Southwest and Puerto Rico reveal that marginalized people contested resisted and blazed alternative paths to citizenship in effect destabilizing the boundaries that white nationalists including many public school officials in the United States and other self described white men's countries worked so hard to create and maintain

Provided by publisher The Education Gazette of the Province of the Cape of Good Hope Cape of Good Hope (South Africa). Education Department, 1918 Planting Empire, Cultivating Subjects Lynn Hollen Lees, 2017-12-21 Planting Empire Cultivating Subjects examines the stories of ordinary people to explore the internal workings of colonial rule Chinese Indians and Malays learned about being British through the plantations towns schools and newspapers of a modernizing colony Yet they got mixed messages from the harsh racial hierarchies of sugar and rubber estates and cosmopolitan urban societies Empire meant mobility fluidity and hybridity as well as the enactment of racial privilege and rigid ethnic differences Using sources ranging from administrative files court transcripts and oral interviews to periodicals and material culture Professor Lees explores the nature and development of colonial governance and the ways in which Malayan residents experienced British rule in towns and plantations This is an innovative study demonstrating how empire brought with it both oppression and economic opportunity shedding new light on the shifting nature of colonial subjecthood and identity as well as the memory and afterlife of empire
