**'A compelling read, one of the most interesting books
I have read in a long while ... you will never think
of language in the same way again' Guardian**

Empires Of The Word

Camilla Rothe

Empires Of The Word:

Empires of the Word Nicholas Ostler, 2005 Taking in a broad sweep of history Ostler will examine the reasons for the dominance of a particular language at a particular time and look at the cultural importance of linguistic variety **Empires of the Word** Nicholas Ostler, 2009 *Empires of the Word* Nicholas Ostler, 2006 An offbeat natural history of language takes readers from the educational and cultural innovators of Sumeria to the resilience of Chinese to the global spread of English in a volume that offers linguistic perspectives on numerous past and present civilizations Empire & the Word Philip Wheaton, Duane Shank, 1988 **Universal History from the Beginning of the Word to the Empire of Charlemagne** Jacques Benigne Bossuet, 1821 Empires and Colonies Jonathan Hart, 2014-02-06 Empires and Colonies provides a thoroughgoing and lively exploration of the expansion of the seaborne empires of western Europe from the fifteenth century and how that process of expansion affected the world including its successor the United States Whilst providing special attention to Europe the book is careful to highlight the ambivalence and contradiction of that expansion The book also illuminates connections between empires and colonies as a theme in history concentrating on culture while also discussing the rich social economic and political dimensions of the story Furthermore Empires and Colonies recognizes that whilst a study of the expansion of Europe is an important part of world history it is not a history of the world per se The focus on culture is used to assert that areas and peoples that lack great economic power at any given time also deserve attention These alternative voices of slaves indigenous peoples and critics of empire and colonization are an important and compelling element of the book Empires and Colonies will be essential reading not only for students of imperial history but also for anyone interested in the makings of our modern world **The Politics of Aristocratic Empires** John H. Kautsky, 2017-09-29 The Politics of Aristocratic Empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is descriptive and treats each empire as unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large

scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order

Language Empires in Comparative Perspective Christel Stolz, 2015-03-10 The notion of empire is associated with economic and political mechanisms of dominance For the last decades however there has been a lively debate concerning the question whether this concept can be transferred to the field of linguistics specifically to research on situations of language spread on the one hand and concomitant marginalization of minority languages on the other The authors who contributed to this volume concur as to the applicability of the notion of empire to language related issues They address the processes potential merits and drawbacks of language spread as well as the marginalization of minority languages language endangerment and revitalization contact induced language change the emergence of mixed languages and identity issues An emphasis is on the dominance of non Western languages such as Arabic Chinese and particularly Russian The studies demonstrate that the emergence spread and decline of language empires is a promising area of research particularly from a comparative perspective

The West and the Word Steffen Wöll, 2020-10-12 Western expansion in North America has mainly been described as either a linear sequence energized by nineteenth century nation building processes at a moving frontier or as the practice of settler colonialism and its exploitation of resources and displacement of nonwhite peoples This book suggests that shifting the focus from this binary pattern towards spatial imaginations and spatialization processes a new theoretical framework developed at SFB 1199 provides novel insights into the placemaking dynamics of the American West It brings to light a discursive diversity that often contradicts unidirectional interpretive patterns It becomes clear that while some discourses solidified into spatial metanarratives like the character shaping clash of civilizations at the frontier or manifest destiny alternative spatial imaginations exist juxtaposed to or obfuscated by canonical interpretations Making use of a variety of sources including works of literature poetry newspapers paintings and speeches to access spatialization processes on several sociocultural scales the book presents a careful exploration of the parameters that informed the creation affirmation and subversion of spatial imagination of the American West throughout the nineteenth century from the perspective of American Studies

On the Edge of Empires Rocco Palermo, 2019-02-12 On the Edge of Empires explores the mixed culture of North Mesopotamia in the Roman period This volatile region at the eastern edge of the Roman world became during the imperial period the theater of confrontation for multiple political entities Rome Parthia Sasanian Persia Roman presence is only recognizable through military installations forts barracks military camps yet these fascinating lands tell a story of frontier people and soldiers of trade despite war and daily life between the Empires This volume combines archaeological and historical literary and environmental evidence in order to explore this important borderland between east and west On the Edge of Empires is a valuable addition to researchers engaged in the historical and archaeological reconstruction of the frontier areas of the Roman Empire and a fascinating study for students and scholars of the Romans and their neighbours

borderlands in antiquity and the history and archaeology of empires Visions of Empire Krishan Kumar,2019-08-06 In this extraordinary volume Krishan Kumar provides us with a brilliant tour of some of history s most important empires demonstrating the critical importance of imperial ideas and ideologies for understanding their modalities of rule and the conflicts that beset them In doing so he interrogates the contested terrain between nationalism and empire and the legacies that empires leave behind Mark R Beissinger Princeton University This is an excellent book with original insights into the history of empires and the discourses and rhetoric of their rulers and defenders Kumar s writing is lively and free of jargon and his research is prodigious He manages to bring clarity and perspective to a complex subject Ronald Grigor Suny author of *They Can Live in the Desert but Nowhere Else A History of the Armenian Genocide* A masterly piece of work Anthony Pagden author of *The Burdens of Empire 1539 to the Present* **The Contemporary Review** ,1924 **The British Empire** John Pierson Bulkeley,1923 **The Indian Constitution, Containing the Fully Annotated Law of the New Constitution in British India, as Embodied in the Consolidated Government of India Act, 1915-1919, the Elections Rules, Indian Elections Offences and Enquiries Act, (1920), Indian & Provincial Legislative Rules, Etc., and All Relevant Documents Relating to the Indian Constitutional Reforms of 1919** Panchanandas Mukherji,1920 *The Growth of the Empire* Arthur Wilberforce Jose,1897 The Empire Review ,1923 Empire D. C. B. Lieven,2002-01-01 Focusing on the Tsarist and Soviet empires of Russia Lieven reveals the nature and meaning of all empires throughout history He examines factors that mold the shape of the empires including geography and culture and compares the Russian empires with other imperial states from ancient China and Rome to the present day United States Illustrations “The” *Fortnightly Review* ,1889 The First of Empires William St. Chad Boscawen,1906 *The First of Empires* W. St. Chad Boscawen,1903
