Employment Policies And Programmes In Central And Eastern Europe:

Employment Policies and Programmes in Central and Eastern Europe Martin Godfrey, Peter J. Richards, 1997 This volume contains country studies on Bulgaria the Czech Republic Hungary Poland Romania Slovakia Slovenia and the Ukraine and examines government responsibilities in relation to employment ways of improving the labor market and the financing of employment services and unemployment benefits

Youth Entrepreneurship and Local Development in Central and Eastern Europe Bruno Dallago, 2017-11-30 This book analyses the opportunities and barriers for youth entrepreneurship amid systemic change in Central and Eastern Europe The authors cover different aspects of youth entrepreneurship and its contribution to the debate on youth unemployment in transition economies The book discusses the wide spread over optimism regarding youth entrepreneurship self employment and its impact on economic innovation and job creation resulting from a disregard of critical contextual features and the characteristics of young entrepreneurs themselves The authors give due acknowledgment of the importance of both factors and so fully understand the impediments to youth entrepreneurship especially in a transition context Furthermore they seek to assess the opportunities and constraints of promotion policies in transition economies Most importantly the book provides the first empirical contribution to youth entrepreneurship in Central and Eastern Europe by offering a representative number of case studies The book will be invaluable reading for scholars and students of transition and developing countries particularly those with an interest in entrepreneurship

Digital Labour Markets in Central and Eastern European Countries Beata Woźniak-Jęchorek, Kamilla Marchewka-Bartkowiak, 2023-01-19 This book examines the impact of the COVID 19 pandemic on changing labour markets and accelerating digitalisation of the workplace in Central and Eastern Europe It provides an innovative and enriching take on the work experience from the pandemic times and discusses the challenges of ongoing changes in labour markets and workplaces in a way that is not covered by the extant literature The impact of the COVID 19 pandemic and digitalisation on labour market outcomes is analysed throughout 12 chapters by 34 labour market experts from various CEE countries Most chapters are based on empirical methods yet are presented in an easy to follow way to make the book also accessible for a non scientific audience The volume addresses the three key goals to better understand the impact of the COVID 19 pandemic on the adoption of workplace digitalisation in the selected labour markets in CEE countries and the potential trade offs facing those who do and do not have access to this benefit to complement the labour market research by incorporating the outputs of changing demand for skills to contribute new insight into policies and regulations that govern the future of work The book argues that the recent COVID 19 pandemic was a sombre reminder of the relevance and necessity of digital technology for a variety of sectors and market activities It concludes that to downside the risks of vanishing jobs as well as to minimise the threats and maximise the opportunities of digitalisation in CEE countries labour market partners need to consider an effective governance tool in terms of inclusive access to the digital environment re

skilling and balanced regulations of the more problematic facets of digital work The book will be of interest to postgraduate researchers and academics in the fields of labour economics regional economics and macroeconomics Additionally due to the broader policy implications of the topic the book will appeal to policymakers and experts interested in labour economics The Introduction Chapters 4 and 12 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Transition, Recession and Labour Supply Paolo Verme, 2020-11-25 This title was first published in 2001 Exploring the relationship between the recession and labour supply in Kazakhstan during the 1990s this volume develops an innovative new model of the transitional process in the context of the CIS It departs from conventional economic models explaining the process of transition transferring the focus of attention from labour demand to labour supply with a view to clarifying how the transitional recession has affected households and in turn how these changes modified the supply of labour Paolo Verme examines how the dynamic of the reallocation of labour between state and private enterprises has been drastically altered by the growth of self employment and also takes a much needed look at the contribution of other factors offering an original explanation of this most important economic phenomenon

The Aftermath of 'Real Existing Socialism' in Eastern Europe Anne Lorentzen, Marianne Rostgaard, 2016-07-27 This selection of studies discusses potentials and barriers to social and industrial change in Central and Eastern Europe It is argued that levers of change in today's international setting primarily must be found within the countries themselves The main themes addressed in the book are firstly the formation of new social classes and institutions regulating social and economic life Secondly the reshaping of intra firm as well as inter firm relations and thirdly links between firms and public authorities including R D institutions

Labour Relations in Development Alex Fernández Jilberto, Marieke Riethof, 2002-08-22 This timely and well written collection explores the impact of economic reforms in developing and transitional economies across the world In a first of its kind this book examines such issues as in depth cross regional analysis of the pressures for global integration labour costs and their determinants crucial factors in the success of economic development

Employment and Training Policies in Central and Eastern Europe, 2007

Trade Union Strategies in Central and Eastern Europe Dimitrina Dimitrova, Jacques Vilroix, 2005 This publication contains eight essays which explore the changing role of trade unions in ex communist countries during the 15 years of transition from a planned to a market economy It is intended to provide a mechanism to stimulate debate and discussion amongst trade unions in the region as to how they can improve representation of members examine structures and strengthen their influence in public policy It seeks to provide a framework for the process of union strategic planning and also to help guide ILO technical work in this area

Women and Austerity Maria Karamessini, Jill Rubery, 2013-09-11 Austerity has become the new principle for public policy in Europe and the US as the financial crisis of 2008 has been converted into a public debt crisis However current austerity measures risk losing past progress towards gender equality by

undermining important employment and social welfare protections and putting gender equality policy onto the back burner This volume constitutes the first attempt to identify how the economic crisis and the subsequent austerity policies are affecting women in Europe and the US tracing the consequences for gender equality in employment and welfare systems in nine case studies from countries facing the most severe adjustment problems The contributions adopt a common framework to analyse women in recession which takes into account changes in women s position and current austerity conditions The findings demonstrate that in the immediate aftermath of the financial crisis employment gaps between women and men declined but due only to a deterioration in men s employment position rather than any improvements for women Tables are set to be turned by the austerity policies which are already having a more negative impact on demand for female labour and on access to services which support working mothers Women are nevertheless reinforcing their commitment to paid work even at this time of increasing demands on their unpaid domestic labour Future prospects are bleak Current policy is reinforcing the same failed mechanisms that caused the crisis in the first place and is stalling or even reversing the long term growth in social investment in support for care This book makes the case for gender equality to be placed at the centre of any progressive plan for a route out of the crisis Social Costs of Transformation to a Market Economy in Post-Socialist Countries J. Adam,1999-08-18 This book deals primarily with social costs of transformation to a market economy in Poland the Czech Republic and Hungary The transformation provisions have negatively affected the well being of the population They brought about unemployment a phenomenon which did not exist in the previous communist system increased income inequities reduced social programmes and expanded poverty All these phenomena are examined in this book In addition the book discusses the strategy of transformation privatisation and the economic performance of the three countries

Globalization, Uncertainty and Women's Careers Hans-Peter Blossfeld,Heather Hofmeister,2006-06-27 Globalization Uncertainty and Women s Careers assesses the effects of globalization on the life courses of women in thirteen countries across Europe and America in the second half of the 20th century The book represents the first ever longitudinal analysis of micro level data from these OECD countries focusing exclusively on women s relationship to the labor market in a globalizing world The contributors thoroughly examine women s employment entries exits and job mobility and present evidence of women s increased labor market attachment and reduced employment quality in most of the countries studied They also systematically consider the life course changes influenced by larger transformations in society and in doing so explicitly link the phenomena of globalization to individual women s lives in Europe and North America **Social and Economic Development in Central and Eastern Europe** Grzegorz Gorzelak,2019-08-13 The integration of post socialist Central and Eastern Europe into the EU is one of the success stories of European development The region has seen significant economic convergence dramatic changes in socio economic indicators and improvements in the natural environment However some challenges remain such as political divergence public governance issues and population demographics This book identifies

and analyses the key post 1990 developments across the New Member States at the sub national and national levels with frequent country level and regional comparisons Careful attention is paid to drawing out commonalities in development trajectories while appreciating each country s unique context Drawing on the academic literature and illuminating empirical material the broad range of topics discussed in the book paints a detailed picture of both change and stability in Central and Eastern Europe It will be valuable reading for advanced students researchers and policymakers in regional studies European studies human geography political economy and transition economics

Globalization and the Future of the Welfare State Miguel Glatzer,Dietrich Rueschemeyer,2010-11-23 In the last quarter of the twentieth century the global political economy has undergone a profound transformation Democracy has swept the globe and both rich and developing nations must compete in an increasingly integrated world economy How are social welfare policies being affected by this wave of economic globalization Leading researchers explore the complex question in this new comparative study Shifting their focus from the more commonly studied established welfare states of northwestern Europe the authors of Globalization and the Future of the Welfare State examine policy development in the middle income countries of southern and eastern Europe Latin America Russia and East Asia Previous investigations into the effects of globalization on welfare states have generally come to one of two conclusions The first is that a global economy undermines existing welfare states and obstructs new developments in social policy as generous provisions place a burden on a nation s resources and its ability to compete in the international marketplace In contrast the second builds on the finding that economic openness is positively correlated with greater social spending which suggests that globalization and welfare states can be mutually reinforcing Here the authors find that globalization and the success of the welfare state are by no means as incompatible as the first view implies The developing countries analyzed in Globalization and the Future of the Welfare State demonstrate that although there is great variability across countries and regions domestic political processes and institutions play key roles in managing the disruptions wrought by globalization

The Routledge Handbook to Regional Development in Central and Eastern Europe Gábor Lux,Gyula Horváth,2017-07-06 Twenty five years into transformation Central and Eastern European regions have undergone substantial socio economic restructuring integrating into European and global networks and producing new patterns of regional differentiation and development Yet post socialist modernisation has not been without its contradictions manifesting in increasing social and territorial inequalities Recent studies also suggest there are apparent limits to post socialist growth models accompanying a new set of challenges within an increasingly uncertain world Aiming to deliver a new synthesis of regional development issues at the crossroads between post socialism and post transition this book identifies the main driving forces of spatial restructuring in Central and Eastern Europe and charts the different regional development paths which take shape against the backdrop of post crisis Europe A comparative approach is used to highlight common development challenges and the underlying patterns of socio economic differentiation alike The issues investigated

within the Handbook extend to a discussion of the varied economic consequences of transition the social structures and institutional systems which underpin development processes and the broadly understood sustainability of Central and Eastern Europe's current development model This book will be of interest to academics and policymakers working in the fields of regional studies economic geography development studies and policy Activities of the ILO 1996-97 International Labour Office,1998 **Skills for Improved Productivity, Employment Growth and Development** ,2008 Examines how within a decent work perspective countries can develop their skills base so as to increase both the quantity and the productivity of labour employed in the economy **Ilc 77 - Record of Proceedings** , **Women Workers** International Labour Office,1995 Produced from the LABORDOC database lists 953 English language publications technical reports working papers and other documents produced at ILO headquarters or in ILO field offices or prepared in connection with ILO programmes **When Markets Fail** Ethan B. Kapstein,Branko Milanovic,2002-11-14 The sweeping political and economic changes of the past decade including the spread of democracy pro market policies and economic globalization have dramatically increased the demand in developing countries for social programs such as unemployment compensation pensions and income supplements for the poor When Markets Fail examines how emerging market economies in Eastern Europe Latin America North Africa and the Middle East are shaping their social policies in response to these changes The contributors leading scholars of development and social policy use detailed case studies to examine whether the emerging economies are likely to move toward European style welfare systems characterized by high unemployment benefits and large entitlements or if they will opt for more austere stripped down welfare regimes They find that much will depend on how well emerging economies perform economically but that the political forces ideological preferences and historical backgrounds of each country will also play a decisive role In his chapter on Central and Eastern Europe Peter Lindert focuses on how aging populations and the fall of communism have fostered increased need for social assistance in the region In contrast Nancy Birdsall and Stephen Haggard highlight the positive role of democratization and Western style social programs in promoting East Asian social policies Zafiris Tzannatos and Iqbal Kaur argue that governments in North Africa and the Middle East must foster both human capital formation and competition in the market for social services if they are to meet the growing need for services When Markets Fail presents some evidence that a global convergence in social policies may be taking place as Europe slowly makes its welfare provisions less generous the emerging market economies will be under increasing demographic and political pressure to make their social welfare systems more comprehensive The book also examines the vital role that organizations such as the World Bank the International Monetary Fund and the Asian Development Bank can play in fostering effective social services in developing economies Economic globalization and political liberalization have produced many economic winners around the world but these forces have created losers as well When Markets Fail addresses the problem of how governments in developing countries have responded to the plight of those losers through

social policy The success of these policies however remains sharply contested as is their role in helping to achieve meaningful poverty reduction When Markets Fail is essential reading for anyone interested in economic liberalization and its consequences for the developing world **European Social Policy** Padraig Flynn, 1998-04 Contents achievements of the community social dimension what sort of a society do Europeans want is there a route back to full employment a new role for the welfare state issues of social justice women s rights the opportunities the changing nature of production possible responses to the challenges priority issues common to the Member States main policy objectives at European level reinforcing the social dialogue health matters economic international aspects Illustrated
