**Consensus and Compromise** Yvonne Scruggs-Leftwich,2006-02-23 Based on the experiences of the author Yvonne

Scruggs Leftwich who was the executive director of the first National Urban Policy process and historical archives this book analyzes the actions of President Carter HUD Secretary Patricia Roberts Harris other Cabinet members *Fire Prevention Program Planning in a Social Action Perspective* , **Community Planning for Health, Education, and Welfare** United States. Department of Health, Education, and Welfare. Library,1967 *The Public Realm* Lyn H. Lofland,2017-07-12 This book is about the public realm defined as a particular kind of social territory that is found almost exclusively in large settlements This particular form of social psychological space comes into being whenever a piece of actual physical space is dominated by relationships between and among persons who are strangers to one another as often occurs in urban bars buses plazas parks coffee houses streets and so forth More specifically the book is about the social life that occurs in such social psychological spaces the normative patterns and principles that shape it the relationships that characterize it the aesthetic and interactional pleasures that enliven it and the forces anti urbanism privatism post war planning and architecture that threaten it The data upon which the book s analysis is based are diverse direct observation interviews contemporary photographs historic etchings prints and photographs and historical maps histories of specific urban public spaces or spatial types and the relevant scholarly literature from sociology environmental psychology geography history anthropology and architecture and urban planning and design Its central argument is that while the existing body of accomplished work in the social sciences can be reinterpreted to make it relevant to an understanding of the public realm this quintessential feature of city life deserves much more u it deserves to be the object of direct scholarly interest in its own right Choice noted that The author s writing style is unusually accessible and the often fascinating narrative is generously supported by well chosen photos *The Last Half-Century* Morris Janowitz,1978 The Last Half Century represents the culmination of a lifetime of scholarship by Morris Janowitz In this comprehensive and systematic analysis of the major trends in American society during the past fifty years he probes the weakening of popular party affiliations and the increased inability of elected representatives to rule Centering his work on the crucial concept of social control Janowitz orders and assesses a vast amount of empirical research to clarify the failure of basic social institutions to resolve our chronic conflicts For Janowitz social control denotes a society s capacity to regulate itself within a moral framework that transcends simple self interest He poses urgent questions Why has social control been so drastically weakened in our advanced industrial society And what strategies can we use to strengthen it again The explanation rests in part on the changes in social structure which make it more and more complicated for citizens to calculate their political self interest At the same time complex economic and defense problems also strain an already overburdened legislative system making effective responsive political rule increasingly difficult Janowitz concludes by assessing the response of the social sciences to the pressing problem of social control and asserts that new forms of citizen participation in the government must be found *Cities on the Margin, on the Margin of Cities* Philippe Laplace,Eric Tabuteau,2003 **Blacks in Topeka Kansas, 1865-1915** Thomas C.

Cox,1999-03-01 Tracing the development of a black community in the trans Mississippi West Blacks in Topeka Kansas 1865 1915 is a thorough insightful examination of an area of black history that has received at best scant attention Thomas C Cox probes in this study the political social and economic standing of blacks and the growth of black institutions in the Topeka area from early settlement during the territorial period through the rise of an urban Topeka in the late nineteenth and early twentieth centuries Pivotal In the development of the black community was the Great Exodus of the 1870s the massive migration of southern blacks that brought the community new leaders businessmen and skilled laborers and provided the impetus for establishment of institutions and elaborate social structures Assessing the impact of the Exodus on social stratification and on the destruction of power Cox closely examines the establishment of political and social clubs the founding of churches the rise of the black press including the influential Colored Citizen and Plaindealer and the emergence of such community leaders a John Wright William Eagle son and James Guy The racial discrimination that permeated Topeka and intensified in the wake of the Great Exodus soon brought about organized protest by the black community to advance the causes of reform and social progress As this movement grew in strength it became a powerful bond that overcame divisions within black Topeka and gave rise to a cohesive community grounded in strong local institutions through which blacks could challenge city state and national attitudes and events In the case of Topeka which in many ways was exceptional discrimination helped to create a significant degree of self determination With relevance to American social history in general Thomas Cox s Blacks in Topeka Kansas 1865 1915 fully utilizes the methods and materials of social history including census analysis and group biography to conclusively demonstrate the significance of Topeka in the history of race relations and the growth of black political and nonpolitical institutions

**The New Regional Economies** William R. Barnes,Larry C. Ledebur,1998 The politics and economics of the United States are wedded in the political economy of the nation state and the nationalist economic policies This nationalist paradigm is however showing the following signs of fatigue the role of the nation state is diminishing as the economy globalizes US national accounting systems are less effective technology forces change trading blocs are emerging there is less control of exchange rates regional economies are restructuring and competitive environments are changing This book proposes that political jurisdictions are not economies but polities and explores the complex and important economic implications of this thesis
