Berardo, 1966 **Sourcebook of Family Theories and Methods** Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19

Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

Societal Stress and Law Larry D. Barnett, 2023-06-14 Societal Stress and Law draws attention to the social side effects of law by developing the sociological concept of society level stress a corollary of the concept of individual level stress in the biological sciences To encourage interest in societal stress the book looks at 1 instances of law adopted by American states that the U S Supreme Court held unconstitutional and 2 actions by American states with regard to a proposal to amend the federal Constitution The Court rulings and the proposed constitutional amendment were capable of producing societal stress because they were seen by a sizeable segment of the U S public as being incompatible with significant American traditions In original studies that apply logistic regression to state level statistical data the book identifies sociological variables that predict state differences in the adoption of this law and state differences in actions on the proposed constitutional amendment

Because these variables represent societal agents that affected whether a state experienced social stress from the rulings and proposal the book blends theory with empirical research and illustrates how each can support the other in law focused scholarship **Analysis and Evaluation of Conceptual Models of Nursing** Jacqueline Fawcett, 1984 **A Social Relations Analysis of Influence and Emotion Perceptions During Family Purchase Decision Making** Rachel Oakley Hsiung, 1996 *Sourcebook of Family Theory and Research* Vern L. There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p
