transform and professionalize the practice of journalism in their own terms By analyzing the contentious narratives of gender and class these women crafted as well as their conflicting efforts to maintain their stature in the printing and public worlds it reveals the ongoing negotiations involved within their disputes over inclusion and democracy in a country still finding its way to equality peace and stability between the 1940s and 1960s This book challenges oversimplified portrayals of struggles for power that either glorify or vilify these historical processes by erasing the complexity of the political and social actors involved in them It stresses the importance of women but not to the expense of a balanced critique of their historical reality actions and endeavors This is a history of paradoxical political manifestations and a redefinition of power struggles as multidirectional intersectional non monolithic historical processes from the viewpoint of women **Reports of the**
