Domenico, 2001-12-30 Through most of their history Italians have identified more with their own locales than with what is now known as Italy This comprehensive reference allows readers to view the land as its denizens have for centuries regionally Domenico superbly surveys the regional and provincial characteristics and culture of the 20 regions including economy cuisine history recent politics and arts This is the only single general reference volume in English on Italy's regions and will be highly in demand by teachers students of Italian language and culture and travelers Italy's enormous contributions to western civilization continue to make it a cultural and economic powerhouse and a top tourist destination The Regions of Italy succinctly conveys the formidable richness of the whole through its parts with a user friendly format that makes it easy to glean the important information on the area of interest A chronology glossary and wide selection of photos accompany the text *Emilia-Romagna Rough Guides Snapshot Italy (includes Bologna, Modena, Parma, Ravenna, Rimini and Ferrara)* Martin Dunford, 2013-05-16 The Rough Guide Snapshot to Emilia Romagna is the ultimate travel guide to this charming relatively little visited region in the north of Italy It guides you through the area with reliable information and comprehensive coverage of all the sights and attractions from dining out in Bologna's wonderful restaurants and marvelling at the vivid mosaics at Ravenna to enjoying the pumping nightlife in Italy at Rimini and exploring majestic Rocca Viscontea castle Detailed maps and up to date listings pinpoint the best cafés restaurants hotels shops bars and nightlife ensuring you have the most memorable trip possible whether passing through staying for the weekend or longer Also included is the Basics section from The Rough Guide to Italy with all the practical information you need for travelling in and around the country including transport food drink costs health and festivals Also published as part of The Rough Guide to Italy Full coverage Bologna Modena Reggio Emilia Parma Castell Arquato Faenza Brisighella Ferrara Po Delta Ravenna Rimini San Marino Equivalent printed page extent 78 pages *The Regions and European Integration* European University Institute, 1990 The acceleration of European integration in the drive to create a single European market by the end of 1992

has focused increasing attention on the impact that the single market will have on the functioning of regional governments and strategies in promoting economic development **The Future of the Red-legged Partridge** Fabián Casas, Jesús T.

García, 2022-09-01 There has been a recent upsurge of red legged partridge research in most countries where the species is distributed but no comprehensive review of that fresh and relevant multidisciplinary and international knowledge is available In fact this is probably the first scientific book on this important species apart from Dick Potts excellent works on British introduced population or ONCFS s Office Nationale de la Chasse et le Faune Sauvage France older technical reports This is in strong contrast with a plethora of literature in hunting magazines or non academic books not often precise realistic or well informed Thus the book fills a great bibliography gap that could have important social impact The common thread of the book is the prominent role a species like this may play for research from basic physiological or ecological knowledge to socio economics of hunting and the rural world The general framework of the book I1 is the important role that hunting and game management may play in both rural economies and biodiversity conservation with the partridge as flag species and also in identifying the dark drift that industrial incorrectly deployed management or hunting vision may have on both sustainability of resources and nature conservation at large The final aim of the book is identifying the best future scenario both for partridge hunters and managers as well as the general public

**Fathers and Godfathers** Guido Alfani, 2016-04-19 In medieval Europe baptism did not merely represent a solemn and public recognition of the natural birth of a child but was regarded as a second spiritual birth within a social group often different from the child s blood relations a spiritual family composed of godfathers and godmothers By analyzing the changing theological and social nature of spiritual kinship and godparenthood between 1450 and 1650 this book explores how these medieval concepts were developed and utilised by the Catholic Church in an era of reform and challenge It demonstrates how such ties continued to be of major social importance throughout the sixteenth and seventeenth centuries but were often used in ways not always coherent with their original religious meaning and which could have unexpected social consequences In particular the book analyzes in detail the phase of transition from the traditional model of godparenthood which allowed for multiple godparents to the new couple model one godfather and one godmother imposed by Tridentine law Drawing upon a large database of archival data taken from parish books of baptisms and marriages pastoral visitations diocesan statutes synods and provincial councils it is shown how attempts were made to resist or to compromise with the Church thus providing a better understanding of the often contested meaning given to godparenthood by early modern society Whilst the Church was ultimately successful in imposing its will the book concludes that this was to have unexpected results that were to eventually weaken the role of godparents Rather than persuading parents to choose real spiritual tutors to act as godparents the choice of godparents became increasingly influenced with social status so that godparenthood began to resemble a pure clientele system something it had never been before Through this long term exploration of Catholic spiritual kinship much is revealed not only about godparenthood but

about the wider social and religious networks Comparison with Protestant reactions to the same issues provides further insight into the importance of this subject to early modern European society

**Perspectives on International, State and Local Economics** Gerald V. Liu, 2006 If all politics are local then all economics are also international regional and local Globalisation for all its mystery and so called inevitability has its foundations and bloodlines in urban and regional economics The economic impacts of poverty housing transportation education and crime are included This book includes within its scope multiplier and impact analysis input output models growth theory migration urban and regional labour markets urban and regional public policy regional devolution small firms policy and foreign direct investment OECD Public Governance Reviews Developing an Integrated Approach to Green Infrastructure in Italy OECD, 2023-05-10 This report provides an overview of green infrastructure planning and the use of nature based solutions in Italy It identifies key challenges and trade offs and provides recommendations to promote their uptake across the different levels of government

Vollenweider, R. Marchetti, R. Viviani, 2016-04-06 Eutrophication in the transitional marine coastal waters has increased dramatically in many parts of the world and this evolution has shifted attention to the anthropogenic factor The problem has become the theme of many conferences and workshops as well as being given priority in international organizations This volume has been brought about by the desire to assess both our scientific understanding as well as the means and technologies available to combat the problem of marine coastal eutrophication It discusses the results of research

and surveillance programmes carried out in the last decades confronting these results with experience gained elsewhere and reviewing current proposals of what can be done about the problem This volume will be invaluable to environmental scientists and marine ecologists as well as to those who wish to resolve the many large scale environmental problems specifically marine eutrophication and marine pollution in general

**The Quest for Environmental Regulatory Integration in the European Union** Eberhard Bohne, 2006-01-01 It is a commonplace that pollution knows no borders and that environmental law must allow for cross border implementation The European Union specifies this principle in EC directives on integrated pollution prevention and control IPPC on environmental impact assessment EIA and on the control of major accident hazards involving dangerous substances Seveso II This is the first book to investigate from both empirical and normative perspectives the effectiveness of these directives at the national level It provides by far the most extensive comparative analysis and evaluation of the industrial permitting and inspections EIA and major accident prevention in the EU Offering an in depth study of the transposition and implementation of EC environmental directives in eight EU member states Denmark France Germany Italy the Netherlands Spain Sweden and the United Kingdom the author who has played a significant role in the formulation of environmental legislation and regulation at both the national German and EU levels and provides a stable base for an assessment of the benefits and costs of the integrated approach to environmental protection Among the factors considered are the following key features of national constitutional administrative and judicial systems which provide the framework for environmental regulations and their implementation in the eight countries under study procedures and substantive requirements transposing the IPPC EIA and Seveso II directives into national laws and evaluation of national deficiencies and the extent of muddling through The empirical part of Dr Bohne's analysis draws on 138 expert interviews with public and private actors a survey of 178 public authorities and document analyses of selected industrial permits and environmental impact statements His comparative analysis of procedural organizational and substantive integration makes it possible to identify and compare national accomplishments in regulatory integration and offers new insights into the effectiveness and limits of EC law The study concludes with a discussion of the implications of the findings for European governance and better regulation after the enlargement of the EU This thoroughly researched rigorous and insightful study will be of great interest and value to policymakers regulators business people environmental NGOs consultants and lawyers as well as to students of environmental policies and European governance

**Wine in the Old World** Silvia Gatti, Eric Giraud-Héraud, Samir Mili, 2003 The ^ABiologist's Imagination William Hoffman, Leo Furcht, 2014-05-01 An analysis of past models of bioscientific innovation as well as a forward looking argument for how the biosciences can continue to grow and develop Provides a survey of the current state of innovation in the bioscientific community The Economics of Happiness Mark Anielski, 2007-06-01 We all know that money can't buy you love or happiness but we have been living our lives as though the accumulation of wealth is the key to our dreams Why in spite of

increasing economic prosperity over the past 50 years are many conditions of well being in decline and rates of happiness largely unchanged since the 1950s Why do our measures of economic progress not reflect the values that make us happy supportive relationships meaningful work a healthy environment and our spiritual well being Economist Mark Anielski developed a new and practical economic model called Genuine Wealth to measure the real determinants of well being and help redefine progress The Economics of Happiness shows How economics capitalism accounting and banking which dominate our consciousness can be reoriented towards the pursuit of genuine happiness How to rediscover the original meaning of the language of economics How to measure the five capitals of Genuine Wealth human social natural built and financial How nations governments communities and businesses are using the Genuine Wealth model to build a new economy of well being How you and your family can apply the Genuine Wealth model in your lives Anielski s road map towards this vision of flourishing economies of well being will resonate with individuals communities and governments interested in issues of sustainability and quality of life
