## **Empathic Teaching:**

*Teaching with Empathy* Lisa Westman, 2021-08-27 What does it mean to teach with empathy Whether it s planning and delivering instruction or just interacting with others throughout the day every action you take is an opportunity to demonstrate empathy toward your students your colleagues and yourself I m already empathetic to my students and their stories you may be thinking But a teacher s actions even unintentional and especially uninformed can be implicitly shaming compounding any disconnect students may already feel and undermining your efforts to create a safe and positive classroom environment Rather than try to identify who needs empathy start with the premise that all learners deserve empathy because it is a prerequisite for learning and growth In *Teaching with Empathy* Lisa Westman explores three types of empathy affective cognitive and behavioral and clarifies how they intertwine with curriculum learning environment equity practices instruction and assessment and grading and reporting Through her own experience as an instructional coach Westman shares tips and tools real world classroom examples powerful stories and even a bit of herself as she guides you to a better understanding of yourself and others Ultimately you ll learn what s possible when you let compassion and acceptance inform all aspects of your daily practice

*Empathic Teaching* Jeffrey Berman, 2004 During the past decade Jeffrey Berman has published widely on the pedagogy of personal writing In *Diaries to an English Professor* 1994 he explored the ways in which undergraduate students can use psychoanalytic diaries to deal with conflicted issues in their lives *Surviving Literary Suicide* 1999 investigated how graduate students respond to novels and poems that portray and sometimes glorify self inflicted death And in *Risky Writing* 2002 Berman considered the ways teachers can encourage college students to write safely on a wide range of subjects often deemed too personal or too dangerous for the classroom from grieving the loss of a friend to confronting sexual abuse on understanding the other can transform the experience of learning Berman begins with a discussion of several well known stories and films featuring literature instructors who exert a formative influence on their students including *Good bye Mr Chips* *The Blackboard Jungle* *Up the Down Staircase* and *Dead Poets Society* He then goes on to examine the pedagogical importance of empathy trauma and forgiveness in helping students cope with the ordinary and extraordinary challenges of everyday life powerful insightful authentic essays about lived experience that reveal both intellectual and emotional growth In the book s final chapter Berman considers the risks and benefits of empathic teaching demonstrating how teachers can play a therapeutic role in the classroom without being therapists Teachers who are regarded as trusting supportive and dependable he argues become attachment figures influencing students to be more sensitive to and connected with their classmates lives Or as Berman succinctly puts it empathic teaching leads to empathic learning an education for life

**Professional Ethics Education: Studies in Compassionate Empathy** Bruce Maxwell, 2008-04-01 1 1 Practical Ethics Education at an Impasse Why is some practical ethics training a requirement

of nearly all programmes in higher education The short answer is that it is thought to be conducive to ethical decision making and ethical behaviour In recent years the received idea that competency in moral reasoning implies moral responsibility on the ground has been the subject of critical attention Today researchers in moral education widely regard moral reasoning as but one among at least four dimensions of moral development alongside moral motivation moral character and moral sensitivity Rest 1986 Reflecting these changes educationalists in the diverse fields of medicine education business and applied ethics can now be found openly questioning how to take practical ethics education beyond the development of skills in moral reasoning Frequently topping the list of suggested improvements is to provide support for empathic capacities of response This work gives this proposal the systematic attention that it deserves Contemporary applied ethics and by extension practical and professional ethics education can be considered an offshoot of the broad philosophical doctrine of moral realism Moral realism takes many forms but in broad outline it is an established meta ethical position that emerged as a seemingly attractive alternative to another family of established philosophical positions that sometimes goes under the name of expressivism

**Being Human in STEM** Sarah L. Bunnell,Sheila S. Jaswal,Megan B. Lyster,2023-07-03 For all STEM faculty chairs administrators and faculty developers who work to support students learning and thriving in STEM especially those students who have felt unwelcome and unsupported in their past STEM experiences this book offers sustainable strategies that are now being widely adopted to create inclusive environments in undergraduate STEM classes and programs Further this book presents a framework for partnering with students to collaboratively envision how STEM can be a space that fosters a sense of belonging for and promotes the success of all individuals in STEM This book presents the Being Human in STEM Initiative or HSTEM as a model for challenging the assumptions we make and how we communicate to students about who belongs and who can thrive in STEM This work arose out of a time of conflict at Amherst College A four day sit in protesting in support of the Black Lives Matter movement and bringing attention to related experiences of exclusion and marginalization that minoritized students experienced on campus What emerged from that conflict has been transformative for the college its students and for its faculty and staff In this book the authors share how the HSTEM course came into being offer a course overview readings and resources for developing an HSTEM course at your own institution provide recommendations for evaluating the multi level impact of inclusive change initiatives and profile models of how the HSTEM course has been adapted at colleges and universities across the country In addition to providing a road map for

developing your own HSTEM course the authors articulate ways that you can make any course or institutional structure more inclusive through active listening and validation and through reflective practice and partnership to progressively make incremental and sustainable changes in STEM education Through listening and reflecting the model facilitates uncovering the disconnects that can impede inclusivity in our classrooms and laboratories While the authors offer a proven process and model for change originally motivated by the urgent need to respond to students demands they recognize that larger institutional culture shifts require the identification and commitment to common values a shared sense of purpose in the work of change and the provision of agency and resources to individuals tasked with making change happen How might we shift institutional STEM culture The HSTEM model provides one solution By reflecting on our own lived experiences and identities engaging with the literature on the factors that enhance and limit full inclusion in STEM and partnering with students to identify actionable ways to bring about sustainable change in our scientific communities we can all work towards creating a more inclusive and human STEM ecosystem Each chapter opens with a set of guiding reflective questions to help you connect these ideas frameworks and strategies to your own teaching and institutional context While each chapter builds on the previous ideas and frameworks the book can also be used as a resource to identify a just in time strategy to address particular questions you may have about making your teaching more inclusive The appendices offer an array of Facilitator Guides each of which outlines a student endorsed exercise based on the pedagogical literature that can foster a sense of belonging and inclusion in your classrooms and laboratory spaces

*Critical Empathy as Teacher Education Reform* Thomas A. Lucey, Kathleen S. Cooter, 2024-08-01 This book considers teacher training in social studies and finds it lacking a sense of genuine critical empathy a sense of shared humanity Current teacher education generally defines critical thinking as processes which examine topics in greater complexity but does not prepare candidates to study confront and challenge existing social structures Often in response to state mandates teacher education programs rate and interpret candidate quality based on their conformance with standards and defined outcomes There is a lack of tolerance for alternative views that may substantially challenge the often oppressive hierarchical system of authority in our world This volume which includes contributions from social studies educators in the U S Canada and Australia offers the thinking and practice of teacher education scholars who embrace the idea and practices of empathy in the social studies classroom Defined as the ability to understand and share the feelings of another direct emphasis on empathy represents a vehicle for developing a sense of mutual understanding and questioning of economic and social systems Developing teacher candidates who comprehend and experience the feelings of diverse education stakeholders provides opportunities for harmonious teaching and learning environments situated in the lives of learners
