Tracy, 2002-11-14 Table of contents *Warfare and Military Organizations: Oxford Bibliographies Online Research Guide* Oxford University Press, 2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com **The Encyclopedia of War, 5 Volume Set** Gordon Martel, 2012-01-17 This ground breaking 5 volume reference is a comprehensive print and electronic resource covering the history of warfare from ancient times to the present day across the entire globe Arranged in A Z format the Encyclopedia provides an overview of the most important events people and terms associated with warfare from the Punic Wars to the Mongol conquest of China and the War on Terror from the Ottoman Sultan Suleiman the Magnificent to the Soviet Military Commander Georgi Konstantinovich Zhukov and from the crossbow to chemical warfare Individual entries range from 1 000 to 6 000 words with the longer essay style contributions giving a detailed analysis of key developments and ideas Drawing on an experienced and internationally diverse editorial board the Encyclopedia is the first to offer readers at all levels an extensive reference work based on the best and most recent scholarly research The online platform further provides interactive cross referencing links and powerful searching and browsing capabilities within the work and across Wiley Blackwell s comprehensive online reference collection Learn more at www.encyclopediaofwar.com Selected by Choice as a 2013 Outstanding Academic Title Recipient of a 2012 PROSE Award honorable mention **The Geographies of War** Jeremy Black, 2023-05-04 A global history of the geography of war from antiquity to modern and contemporary conflict illustrated and brought to life by histories of inter state war geopolitical rivalry hot and cold war and terrorism Geography is a basic element in all stages of war including preparation planning onset of conflict waging wars assessment of results post conflict negotiations analysis and preparation for future conflict Geography is the vital element in strategy and tactics and in the spatial context on land water and space It is central to all historical activities from human and animal transport to wind power coal seam oil jet propulsion atomic weaponry and the threat of cyber conflict This is essentially a modern geography and not only physical but political social economic cultural and human with emphasis on personal experience And technical

mapping is included the author's particular expertise and accessible to specialist and general readers A global history of the geographies of war in the context of great power geopolitics to local conflicts *The Rise of Pseudo-historical Fiction*

Horacio Chiong Rivero, 2004 Fray Antonio de Guevara 1482-1545 the most prolific writer of pseudo historical prose in sixteenth century Spain was named official chronicler by Emperor Charles V in 1526 Despite his title Guevara never wrote a conventional history A master of fictional semblance Guevara self-fashioned his own literary personae or masks among them those of friar bishop chronicler courtier imperial counselor and court buffoon In his pseudo historical prose Guevara resoundingly uses the voices of both the novelist and the court buffoon entertaining the reader with humor wit satire and irony Artistically manipulating both classical and contemporary history Guevara innovatively creates a vast and labyrinthine web in which history and fiction form an inseparable hybrid a pseudo historical narrative that heralds the essay and the modern novel **Luther, Conflict, and Christendom** Christopher Ocker, 2018-08-30 Martin Luther was the subject of a religious controversy that never really came to an end The Reformation was a controversy about him

War and the Cultural Turn Jeremy Black, 2013-05-08 In this stimulating new text renowned military historian Jeremy Black unpacks the concept of culture as a descriptive and analytical approach to the history of warfare Black takes the reader through the limits and prospects of culture as a tool for analyzing war while also demonstrating the necessity of maintaining the context of alternative analytical matrices such as technology Black sets out his unique approach to culture and warfare without making his paradigm into a straightjacket He goes on to demonstrate the flexibility of his argument through a series of case studies which include the contexts of rationale Gloire strategy early modern Britain's organizations the modern West and ideologies the Cold War These case studies drive home the point at the core of the book culture is not a bumper sticker it is a survival mechanism Culture is not immutable it is adaptable Wide ranging international and always provocative *War and the Cultural Turn* will be required reading for all students of military history and security studies **The Court as a Stage** Steven J.

Gunn, A. Janse, 2006 European and English courtly culture and history reappraised through the prism of the court as theatre In the past half century court history has lost the air of frivolity that once relegated it to the margins of serious historical study and has rightfully taken a central part in the study of European states and societies in the age of personal monarchy Yet it has been approached from so many different angles and appropriated to so many different models that it can be hard to put all our new understandings together to achieve a proper perspective on the functions of the court as a whole This collection of essays uses the idea of the court as a stage for social and political interaction to re-integrate different styles of court history focusing on courts in England and the Low Countries from the age of Richard II and Albert of Bavaria to that of Elizabeth I and Philip II Themes studied include the relationship between court politics and cultural change the social and political functions of court office holding the military judicial and propagandist roles of the court the economic relationships between courts and cities and the wider social and political significance of court rituals and traditions *The Oxford*

Handbook of the Age of Shakespeare R. Malcolm Smuts, 2016-06-30 The Oxford Handbook of the Age of Shakespeare presents a broad sampling of current historical scholarship on the period of Shakespeare's career that will assist and stimulate scholars of his poems and plays Rather than merely attempting to summarize the historical background to Shakespeare individual chapters seek to exemplify a wide variety of perspectives and methodologies currently used in historical research on the early modern period that can inform close analysis of literature Different sections examine political history at both the national and local levels relationships between intellectual culture and the early modern political imagination relevant aspects of religious and social history and facets of the histories of architecture the visual arts and music Topics treated include the emergence of an early modern public sphere and its relationship to drama during Shakespeare's lifetime the role of historical narratives in shaping the period's views on the workings of politics attitudes about the role of emotion in social life cultures of honour and shame and the rituals and literary forms through which they found expression crime and murder and visual expressions of ideas of moral disorder and natural monstrosity in printed images as well as garden architecture

War and Its Causes Jeremy Black, 2019-01-21 This interdisciplinary book provides an invaluable perspective on the causes of war drawing on a thoughtful consideration of what war actually is the key foundation for an analysis of its causes Jeremy Black assesses the three main types of war between cultures within cultures and civil emphasizing the social and cultural factors leading to conflict He argues that cultural factors have always been the key element especially aggression in the shape of a willingness to kill and be killed which alters rational assumptions of risk and overcomes deterrence He assesses the predisposition of ideologies to think and act in terms of conflict the functional dynamics of international relations systems and the strengths and failures of diplomacy Drawing on research from history political science and international relations Black marshals global examples spanning the fifteenth century to the present Contrasting wars within cultures and wars between cultures he considers the implications for ongoing and future conflict

Early Modern Court Culture Erin Griffey, 2021-11-29 Through a thematic overview of court culture that connects the cultural with the political confessional spatial material and performative this volume introduces the dynamics of power and culture in the early modern European court Exploring the period from 1500 to 1750 Early Modern Court Culture is cross cultural and interdisciplinary providing insights into aspects of both community and continuity at courts as well as individual identity change and difference Culture is presented as not merely a vehicle for court propaganda in promoting the monarch and the dynasty but as a site for a complex range of meanings that conferred status and virtue on the patron maker court and the wider community of elites The essays show that the court provided an arena for virtue and virtuosity intellectual and social play demonstration of moral authority and performance of social gendered confessional and dynastic identity Early Modern Court Culture moves from political structures and political players to architectural forms and spatial geographies ceremonial and ritual observances visual and material culture entertainment and knowledge With 35 contributions on

subjects including gardens dress scent dance and tapestries this volume is a necessary resource for all students and scholars interested in the court in early modern Europe

The Scramble for Italy Idan Sherer, 2021-02-21 The Scramble for Italy offers fresh insights on the set of conflicts known as the Italian Wars of 1494-1559. The aim of this book is to explore the trends of continuity and change that characterized the sixteenth century in order to demonstrate the significance of the Italian Wars as an especially intense period of warfare that drove forward several important social, political, and especially military developments. Employing a myriad of primary and secondary sources, this book illustrates how the European nobility, still very much steeped in knightly and chivalric ideals, was fashioning the Italian Wars into an essentially traditional aristocratic war, while the rise of military professionalization and privatization, accompanied by the processes of centralization and consolidation of political power, were rapidly changing their world. Moreover, the book attempts to demonstrate that, although the debate on a supposed military revolution in late medieval and early modern Europe still rages, sixteenth-century soldiers and intellectuals were quite certain and anxious about the potential effects of gunpowder weapons and novel tactics and strategy on their world. Scholars and general readers who are interested in the political and military history of late medieval and early modern Europe should find this study especially instructive.

Empire and Holy War in the Mediterranean Phillip Williams, 2014-05-12 In the century after 1530, the Habsburgs of Spain and the Ottoman Turks fought a maritime war that seemed destined to lead nowhere. Lasting peace was as unlikely as final triumph, in part because the principal beneficiaries of the fighting were pirates or corsairs based in ports such as Malta and Algiers. It was also a war of unequal means, since the Habsburgs had too few good warships and the Ottomans too many bad ones. Phillip Williams here provides a detailed examination of the oared warships used in the fighting, the structures of political and military organization, the role of geography and the environment, and the respective claims to be defending Christendom and Islam advanced by Habsburg rulers such as Charles V and Philip II and the Ottoman Sultan Suleyman the Magnificent. Providing a unique perspective on early modern maritime conflict, this book will be essential reading for all students and researchers of Mediterranean History and the early modern world.

Martin Luther Alberto Melloni, 2017-12-20 The three volumes present the current state of international research on Martin Luther's life and work and the Reformation's manifold influences on history, churches, politics, culture, philosophy, arts, and society up to the 21st century. The work is initiated by the Fondazione per le scienze religiose Giovanni XXIII, Bologna, in cooperation with the European network Refo500. This handbook is also available in German.

Intervention and State Sovereignty in Central Europe, 1500-1780 Patrick Milton, 2022 Interventions in other states on behalf of their populations is often portrayed as a novel phenomenon in state practice, one which breaches the old principle of sovereignty. But is this really a new practice? Patrick Milton argues that such interventions occurred frequently as far back as the 16th, 17th, and 18th centuries.

Citizens without Nations Maarten Prak, 2018-08-16 Citizenship is at the heart of our contemporary world, but it is a particular vision of national citizenship forged in the French Revolution.

In *Citizens without Nations* Maarten Prak recovers the much longer tradition of urban citizenship across the medieval and early modern world. Ranging from Europe and the American colonies to China and the Middle East, he reveals how the role of ordinary people in urban politics has been systematically underestimated and how civic institutions such as neighbourhood associations, craft guilds, confraternities, and civic militias helped shape local and state politics. By destroying this local form of citizenship, the French Revolution initially made Europe less rather than more democratic. Understanding citizenship's longer term history allows us to change the way we conceive of its future, rethink what it is that makes some societies more successful than others, and whether there are fundamental differences between European and non-European societies.

The Limits of Empire: European Imperial Formations in Early Modern World History William Reger, 2016-03-03. This volume, published in honor of historian Geoffrey Parker, explores the working of European empires in a global perspective, focusing on one of the most important themes of Parker's work: the limits of empire, which is to say the centrifugal forces—sacral, dynastic, military, diplomatic, geographical, informational—that plagued imperial formations in the early modern period, 1500–1800. During this time of wrenching technological, demographic, climatic, and economic change, empires had to struggle with new religious movements, incipient nationalisms, new sea routes, new military technologies, and an evolving state system with complex new rules of diplomacy. Engaging with a host of current debates, the chapters in this book break away from conventional historical conceptions of empire as an essentially western phenomenon with clear demarcation lines between the colonizer and the colonized. These are replaced here by much more fluid and subtle conceptions that highlight complex interplays between coalitions of rulers and ruled. In so doing, the volume builds upon recent work that increasingly suggests that empires simply could not exist without the consent of their imperial subjects or at least significant groups of them. This was as true for the British Raj as it was for imperial China or Russia. Whilst the thirteen chapters in this book focus on a number of geographic regions and adopt different approaches, each shares a focus on and interest in the working of empires and the ways that imperial formations dealt with or failed to deal with the challenges that beset them. Taken together, they reflect a new phase in the evolving historiography of empire. They also reflect the scholarly contributions of the dedicatee, Geoffrey Parker, whose life and work are discussed in the introductory chapters, and we're proud to say in a delightful chapter by Parker himself, an autobiographical reflection that closes the book.

Warfare and the Age of Printing (4 vols.) Louis Sloos, 2008-01-31. An important part of the Dutch national treasure of early printed books from before 1801 on military and related subjects is kept in military libraries and collections. This catalogue contains 10,000 books in twelve different languages, dated 1500–1800, from nine different Defence institutions' collections, representing both Army and Navy. By far the largest collections are the property of the Royal Netherlands Army Museum in Delft and the Royal Netherlands Military Academy in Breda. A great, if not substantial, part of these books is especially of international significance because of the contents, the intrinsic value, or as historical objects. It took eight years to trace and describe these books, all of which have

been given extensive analytical bibliographic descriptions The book includes over 2000 illustrations The book is a project of the Royal Netherlands Army Museum Delft Conquistadores Fernando Cervantes, 2021-09-14 A sweeping authoritative history of 16th century Spain and its legendary conquistadors whose ambitious and morally contradictory campaigns propelled a small European kingdom to become one of the formidable empires in the world The depth of research in this book is astonishing but even more impressive is the analytical skill Cervantes applies He conveys complex arguments in delightfully simple language and most importantly knows how to tell a good story The Times London Over the few short decades that followed Christopher Columbus's first landing in the Caribbean in 1492 Spain conquered the two most powerful civilizations of the Americas the Aztecs of Mexico and the Incas of Peru Hernán Cortés Francisco Pizarro and the other explorers and soldiers that took part in these expeditions dedicated their lives to seeking political and religious glory helping to build an empire unlike any the world had ever seen But centuries later these conquistadors have become the stuff of nightmares In their own time they were glorified as heroic adventurers spreading Christian culture and helping to build an empire unlike any the world had ever seen Today they stand condemned for their cruelty and exploitation as men who decimated ancient civilizations and carried out horrific atrocities in their pursuit of gold and glory In *Conquistadores* acclaimed Mexican historian Fernando Cervantes himself a descendent of one of the conquistadors cuts through the layers of myth and fiction to help us better understand the context that gave rise to the conquistadors' actions Drawing upon previously untapped primary sources that include diaries letters chronicles and polemical treatises Cervantes immerses us in the late medieval imperialist religious world of 16th century Spain a world as unfamiliar to us as the Indigenous peoples of the New World were to the conquistadors themselves His thought provoking illuminating account reframes the story of the Spanish conquest of the New World and the half century that irrevocably altered the course of history

Lending to the Borrower from Hell Mauricio Drelichman, Hans-Joachim Voth, 2016-12-13 What the loans and defaults of a sixteenth century Spanish king can tell us about sovereign debt today Why do lenders time and again loan money to sovereign borrowers who promptly go bankrupt When can this type of lending work As the United States and many European nations struggle with mountains of debt historical precedents can offer valuable insights *Lending to the Borrower from Hell* looks at one famous case the debts and defaults of Philip II of Spain Ruling over one of the largest and most powerful empires in history King Philip defaulted four times Yet he never lost access to capital markets and could borrow again within a year or two of each default Exploring the shrewd reasoning of the lenders who continued to offer money Mauricio Drelichman and Hans Joachim Voth analyze the lessons from this important historical example Using detailed new evidence collected from sixteenth century archives Drelichman and Voth examine the incentives and returns of lenders They provide powerful evidence that in the right situations lenders not only survive despite defaults they thrive Drelichman and Voth also demonstrate that debt markets cope well despite massive fluctuations in expenditure and revenue when lending functions like insurance The authors unearth

unique sixteenth century loan contracts that offered highly effective risk sharing between the king and his lenders with payment obligations reduced in bad times A fascinating story of finance and empire Lending to the Borrower from Hell offers an intelligent model for keeping economies safe in times of sovereign debt crises and defaults

Unveiling the Magic of Words: A Report on "**Emperor Charles V Impresario Of War Campaign Strategy International Finance And Domestic Politics**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Emperor Charles V Impresario Of War Campaign Strategy International Finance And Domestic Politics**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book's central themes, examine its distinctive writing style, and assess its profound impact on the souls of its readers.
