**Empire Or Republic?** James F. Petras, Morris H. Morley, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company      *Empire or Republic?* James Petras, Morris Morley, 2012-11-12 Empire or Republic makes the necessary but much overlooked link between our nation s international policies and the domestic situation The authors contend that the Reagan Bush and Clinton administrations have all focused on global leadership to the detriment of pressing social economic and political problems at home      *Global Production and Domestic Decay* Brian D. Phillips, 2021-12-12 First Published in 1942 Phillips has written an important study covering three areas three areas theoretical empirical and public policy This book explores some of the explanations for and consequences of globalized production by transnational corporations A review of the theoretical underpinnings of the reasons for corporate overseas expansion precedes a discussion of transnational corporation overseas production facilities The literature reviewed supports the position that the exodus of manufacturing capital has been assisted by state policy which has encouraged capital flight and that corporate efforts to downsize manufacturing operations in the United States have added to corporate profitability and championed profits over the strengthening the domestic economy      **(Un)writing Empire** , 2020-10-12 The contributors to the present volume in espousing and extending the programme of such writers as Edward Said Benedict Anderson Homi Bhabha and Gayatri Spivak lay bare the genealogy of writing empire thereby in a sense un writing it One focus is the Caribbean the retrograde agenda of francophone cr olit the re writing of empire in the postmodern disengagement of Edouard Glissant resistance to post colonial allegiances and the dissolving of binary categories in contemporary West Indian writing Essays on India Malaysia and Indonesia explore various aspects of cultural self understanding in Asia un writing high culture through hybrid shopping among Western styles the use of indigenous oral forms to counter Western hegemony romantic and anti romantic attitudes towards empire and the land A shift to Africa brings a study of Nadine Gordimer s feminist un writing of Hemingway s masculinist colonising narrative a searching analysis of Soyinka s restoration of ancient syncretic elements in his West African re visions of Greek tragedy changing evaluations of the validity of European civilization in Andr Gide s representations of Africa and tensions of linguistic allegiance in Maghreb literature North America finally is brought back into the imperial fold through discussions of Melville s re writing of travel and captivity narratives to critique the mission of American empire Leslie Marmon Silko s re territorialization of expropriated Native American oral traditions and Timothy Findley s representation of Canada s troubled involvement with its three shaping empires French British American      **The Iraq War and Democratic Politics** Alex Danchev, John MacMillan, 2004-11-10 This book examines the meaning of the 2003 Iraq war for democratic politics It shuns simplistic analysis and provides a nuanced and critical overview of this key moment in global politics      **Neoliberal Democratization and New Authoritarianism** Dennis C. Canterbury, 2019-06-04 Originally published in 2005 Domestic and foreign economic and political policies in the rich capitalist nations in the North

and in the poor countries in the South are geared towards globalization and democratization. Indeed the dominant view held by countries in the North is that globalization leads to democracy and vice versa and that in turn economic development will result from that process. Thus many scarce resources are allocated to bring about globalization and democracy. Exploring the dynamics of change that allow for the persistence of authoritarian states in the Third World, this illuminating book highlights certain aspects of democratization that have not been investigated fully. Anyone interested in development politics and political sociology will draw a plethora of important theoretical insights into globalization, authoritarianism and transition democratization from this original study.

**From Nation-Building to State-Building** Mark T. Berger, 2013-09-13 This book examines the history of nation building during the era of decolonization and the Cold War and on the more recent post Cold War and post 9/11 pursuit of nation building in what have become known as collapsed or failed states. In the post Cold War and post 9/11 era, nation building or what is increasingly termed state building has taken on renewed salience, making it more important than ever to set the idea and practice of nation building in historical perspective. Focusing on both historical and contemporary examples, the contributors explore a number of important themes that relate to successful and unsuccessful nation building efforts from South Vietnam in the 1950s and 1960s to East Timor, Afghanistan and Iraq in the twenty-first century. *From Nation Building to State Building* was previously published as a special issue of *Third World Quarterly* and will be of interest to students and scholars of comparative politics and peace studies.

[Clinton's Foreign Policy](#) John Dumbrell, 2009-04-02 This volume is a detailed account of President Clinton's foreign policy during 1992-2000, covering the main substantive issues of his administration, including Iraq, Bosnia and Kosovo. The book emphasizes Clinton's adaptation of the elder Bush's New World Order outlook and his relationship to the younger Bush's Americanistic foreign policy. In doing so, it discusses in detail such key policy areas as foreign economic policy, humanitarian interventionism, policy towards Russia and China and towards European and other allies, defence priorities, international terrorism and peacemaking. Overall, the author judges that Clinton managed to develop an American foreign policy approach that was appropriate for the domestic and international conditions of the post Cold War era. This book will be of great interest to students of Clinton's administration, US foreign policy, international security and IR in general. John Dumbrell is Professor of Government at Durham University. He specialises in the study of US foreign policy.

*America after Empire* Berch Berberoglu, 2022-11-09 After the end of America's longest 20-year war in Afghanistan and Iraq, that cost more than 6 trillion and nearly half a million lives, what does the future hold for America and the American people in the 21st century? In this timely and important book, Berch Berberoglu provides an eye-opening account of the history of the American Empire from its inception to the present, with prospects for its future. Examining the worldwide expansion of the American Empire over the course of its turbulent history in great detail, Berberoglu assesses America's imperial legacy in a sober way, highlighting its failure to come to terms with the enormous cost of this adventure in imperial overreach. But Berberoglu sees light at the end of the long dark tunnel.

when the American people will awaken and lead the way to a new America after empire in the coming decades of the 21st century

**The Battle for Asia** Mark T. Berger, 2004 This book is a history of the Asian region from 1945 to the present day which delineates the various ideological battles over Asia's development

**Clinton's Foreign Policy in Russia** George A. MacLean, 2017-11-30 Some of Bill Clinton's most basic foreign policy elements democratic peace the post Cold War peace dividend geopolitics and state society relations are epitomized in the US Russian Highly Enriched Uranium HEU Purchase Agreement It was one of the most remarkable initiatives of Clinton's presidency but oddly one of the most obscure that still continues under George W Bush This agreement illustrates how successfully the US and Russia could work together to reduce global nuclear fears but also how a series of decisions pitted global designs over American domestic interests Illustrating one of the most compelling decisions Clinton made as President this remarkable book elucidates the theory of democratic peace and demonstrates a new and more advanced nuclear restraint regime from reduction to elimination The story behind Clinton's decision has repercussions for our understanding of arms control foreign policy decision making and US Russian relations This is a book about the intersection of levels of analysis international security concerns and domestic political economy and as such is ideal as a supplementary text for advanced courses in security and foreign policy

**The Rise of East Asia** Mark Berger, Douglas Borer, 2002-09-11 There is great interest in the Pacific Century and what its implications for the future will be The rapid economic growth of East Asia was already setting the region apart from the rest of the world by the 1970s By the 1980s the trend was seen to have spread southward to Thailand Malaysia and Indonesia while China's provinces had also become integral to the regional economic boom In this exciting new study many of the ideas and expectations associated with the Pacific Century are placed under critical scrutiny The book includes studies of particular countries such as China Japan South Korea Vietnam Indonesia and Malaysia There is analysis of economic and political trends in the region the reasons behind its rise and its importance on a global scale The rise of East Asia represents an historic turning point with immense significance world wide This book will be of interest to anyone concerned about the new approaches to and the debate about the rise of east Asia and the coming of the Pacific Century

**World Directory of Minorities** Bridget Anderson, James Chin, John Connell, Patrick Costello, Lindsey Crickmay, Chris Dammers, James Ferguson, David Hawk, David McDowall, Anna Matveeva, Julia Maxted, Neil Melvin, Peter O'Neill, Suzanne Pattle, Martyn Rady, Javaid Rehman, Alex Roslin, Nikhil Roy, David Sogge, Bogdan Szajkowski, Carl Wilson, Abebe Zegeye, 1997-01-01 This publication is the first version of the World Directory of Minorities and Indigenous Peoples published in 1997 The full Directory is now available and continually updated on our website The large majority of violent conflicts in the world today are conflicts within states with groups polarized across ethnic and religious divides and not across borders Ethnic religious and linguistic minorities are often among the poorest of the poor suffer discrimination and are frequently the victims of human rights abuses Time and time again in the past the United Nations system governments and even non governmental

organizations NGOs working in the field of conflict prevention have failed to promote the human rights of minorities or to take early action to promote cooperation between communities Early action may have prevented the loss of millions of lives in many countries ranging from Rwanda to the former Yugoslavia and from Sri Lanka to Guatemala It is also significant that the Nobel Peace Prize was awarded to the Dalai Lama in 1989 and to Jose Ramos Horta and Bishop Carlos Belo in 1996 as a result of their peaceful campaigns to promote the rights of their people The situation of minorities is then a matter of major concern and it is essential that accurate objective and up to date information is made available This Directory contributes to that process It is difficult to assess accurately what proportion of the world's population identify themselves as belonging to minority communities Conservative estimates place this above 10 per cent and some suggest that more than 20 per cent of the world's population belongs to several thousand different minority groups and subgroups National statistics are often skewed for political reasons and there is no universally accepted definition of minorities The word has different interpretations in different societies throughout the world while the United Nations General Assembly has not sought to reach a definition beyond that implied in the title of the UN Declaration on the Rights of Persons belonging to National or Ethnic Religious and Linguistic Minorities adopted in December 1992 Minority Rights Group focuses its work on non dominant ethnic religious and linguistic communities whether or not they are numerical minorities The concept thus relates to any self identified community that is marginalized without power unable to take decisions over its destiny and often experiencing high levels of illiteracy under education and overt or covert discrimination The basic rights of such communities need protection and promotion There is however a danger of generalizing about minorities and forgetting the complexity of their social composition including the rural poor urban migrants older people women and children These groups may be considered as doubly vulnerable What makes their situation particularly problematic is that there is often a deliberate political policy on the part of majorities and states not to give due regard to the legitimate interests of minorities while members of minorities see their identity as central to their social and economic situation They are often excluded from political power and decision making in the development process without equal opportunities to secure a better quality of life One further danger may lie in regarding ethnicities as fixed rather than as the potentially fluid phenomena that they often are Situational ethnicity does occur and individuals and groups do modify their self identifications depending on circumstances Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

**Institutional Analysis and Economic Policy** Marc R. Tool, Paul Dale Bush, 2012-12-06 The purpose of this volume is to demonstrate how contemporary institutional economic analysis can be

applied to the resolution of economic problems All of the essays in this book challenge the conventional wisdom in the problem areas addressed They advocate policy positions that often run contrary to views widely held by academic economists and policy makers alike The general literature of institutional economics is unorthodox beginning with its methodological foundations and continuing through the kind of policy analysis found in these pages The orthodox tradition in economics is commonly characterized as neoclassical economics Neoclassical economics fosters the myth that only the market can efficiently allocate a society's economic resources and equitably distribute its income It provides the intellectual defense for in which free markets are championed over democratic capitalist ideology policy formation which it contends is neither efficient nor equitable For both professional economists and policy makers of a conservative political persuasion neoclassical economics writes the script for a morality play in which the market is the good guy and the government is the bad guy As such it undermines the belief that free societies can enhance economic welfare through the use of democratic processes in the formulation of economic policies

**Hegel and Marx** David MacGregor, 2014-06-15 The second edition of *Hegel and Marx* After the Fall of Communism surveys Hegel's close connection with world famed economist Friedrich List the declared enemy of Karl Marx Illuminating the mysterious nature of Hegel's relationship with Marx and Friedrich List may help us to comprehend the extraordinary geopolitical transformations that have occurred in the last fifteen years since the original publication of *Hegel and Marx* in 1998

*Postwar America* James Ciment, 2015-03-26 From the outbreak of the Cold War to the rise of the United States as the last remaining superpower the years following World War II were filled with momentous events and rapid change Diplomatically economically politically and culturally the United States became a major influence around the globe On the domestic front this period witnessed some of the most turbulent and prosperous years in American history *Postwar America* An Encyclopedia of Social Political Cultural and Economic History provides detailed coverage of all the remarkable developments within the United States during this period as well as their dramatic impact on the rest of the world A-Z entries address specific persons groups concepts events geographical locations organizations and cultural and technological phenomena Sidebars highlight primary source materials items of special interest statistical data and other information and Cultural Landmark entries chronologically detail the music literature arts and cultural history of the era Bibliographies covering literature from the postwar era and about the era are also included as are illustrations and specialized indexes

**Solidarity and Contention** Michael C. Dreiling, 2001 First published in 2001 Routledge is an imprint of Taylor Francis an informa company

*American Culture in the 1980s* Graham Thompson, 2007-03-13 This book looks beyond the common label of Ronald Reagan's America to chart the complex intersection of cultures in the 1980s In doing so it provides an insightful account of the major cultural forms of 1980s America literature and drama film and television music and performance art and photography and influential texts and trends of the decade from *White Noise* to *Wall Street* from Silicon Valley to MTV and from Madonna to Cindy Sherman A focused chapter considers the changing dynamics of American

culture in an increasingly globalised marketplace      *US Imperialism* James Petras,2019-08-28 This book offers a broad and deep examination of the dynamics of US imperialism Petras analyzes imperialism not only as economic domination showing that its impact in the world takes many forms including cultural political and historical He points to the disruptive effects it has on other world regional economies and cultures Capitalism and imperialism take diverse forms but both are intimately tied to the projection of state power in the service of capital a strategy designed to advance the geopolitical and economic interests of the US economic elite and ruling class interests that are equated with the US national interest      **Race and Ethnicity** Rodney D. Coates,2004-10-01 Race and ethnicity much like water and air are all around us Yet race and ethnicity remain impervious to many of us Hence in this volume authors were challenged to think outside the box As such scholars were encouraged to dare to contemplate to evaluate and analyze issues regarding race and ethnicity from radically different perspectives This critical process required them to evaluate their own assumptions and those of their respective disciplines Therefore much like walking a tight rope without a net the scholars attempt to free themselves from the disciplinarian blinders that often preclude the development of fresh insights Collectively the papers challenge the way we conceive and perceive of race and ethnicity As a consequence they go past the ideological constraints that normally limit such discourse by disciplinarian boundaries or disciplinarian myopia Therefore these papers provide a critical reappraisal of race and ethnicity
