Empire War Faith In Modern Europe:

Empire, War and Faith in Early Modern Europe Geoffrey Parker, 2002 Failure is fascinating partly because it is so common In the 20th century Enoch Powell claimed that All political lives end in failure while according the Winston Churchill Success is never final This has always been true Geoffrey Parker s new book examines ten cases from the history of Europe in the 16th and 17th centuries of defeat snatched from the jaws of victory **European Warfare, 1350-1750** Frank Tallett, D. J. B. Trim, 2010-01-28 The period 1350 1750 saw major developments in European warfare which not only had a huge impact on the way wars were fought but also are critical to long standing controversies about state development the global ascendancy of the West and the nature of military revolutions past and present However the military history of this period is usually written from either medieval or early modern and either Western or Eastern European perspectives These chronological and geographical limits have produced substantial confusion about how the conduct of war changed The essays in this book provide a comprehensive overview of land and sea warfare across Europe throughout this period of momentous political religious technological intellectual and military change Written by leading experts in their fields they not only summarise existing scholarship but also present new findings and new ideas casting new light on the art of war the rise of the state and European expansion **European War and Diplomacy, 1337-1815** William Young, 2003-10 The history of international relations and warfare of early modern Europe has gained popularity in recent years This bibliography provides a valuable listing of books dissertations and journal articles in the English language for scholars and general readers interested in diplomatic relations and warfare from the Hundred Years War to the Napoleonic Wars **Warfare in Early Modern Europe 1450-1660** Paul E.J. Hammer, 2017-05-15 The early modern period saw gunpowder weapons reach maturity and become a central feature of European warfare on land and at sea This exciting collection of essays brings together a distinguished and varied selection of modern scholarship on the transformation of war often described as a military revolution during the period between 1450 and 1660 **Faith in War** Nikolas M. Funke, 2024-08-01 While the social and cultural history of the early modern military has greatly advanced in the last few decades the religious dimension of the military life in the Holy Roman Empire between 1500 and 1650 has hardly been explored The Reformation brought profound political social and cultural upheavals but the religiosity of the men and women who followed the Christian life in the chaos of war still represents a large gap in the historiography Faith in War shows that confessional antagonisms lost much of their meaning during war and coexistence became a fact of army life Connecting military and civilian social and cultural history in these ways Nikolas Funke s case study on this period brings new life to important current historiographical discussions in a military context including stereotyping confessionalization social discipline deviance toleration religious violence and the culture of death *The Age of Wars of Religion, 1000-1650* Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many

lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi'ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires

Dynasty and Piety Luc Duerloo, 2016-04-29 The youngest son of Emperor Maximilian II and nephew of Philip II of Spain Archduke Albert 1559-1621 was originally destined for the church However dynastic imperatives decided otherwise and in 1598 upon his marriage to Philip's daughter the Infanta Isabella Clara Eugenia he found himself ruler of the Habsburg Netherlands one of the most dynamic yet politically unstable territories in early modern Europe Through an investigation of Albert's reign this book offers a new and fuller understanding of international events of the time and the Habsburg role in them Drawing on a wide range of archival and visual material the resulting study of Habsburg political culture demonstrates the large degree of autonomy enjoyed by the archducal regime which allowed Albert and his entourage to exert a decisive influence on several crucial events preparing the ground for the Anglo-Spanish peace of 1604 by the immediate recognition of King James clearing the way for the Twelve Years Truce by conditionally accepting the independence of the United Provinces reasserting Habsburg influence in the Rhineland by the armed intervention of 1614 and devising the terms of the Oath Treaty of 1617 In doing so the book shows how they sought to initiate a realistic policy of consolidation benefiting the Spanish Monarchy and the House of Habsburg Whilst previous work on the subject has tended to concentrate on either the relationship between Spain and the Netherlands or between Spain and the Empire this book offers a far deeper and much more nuanced insight in how the House of Habsburg functioned as a dynasty during these critical years of increasing religious tensions Based on extensive research in the archives left by the archducal regime and its diplomatic partners or rivals it bridges the gap between the reigns of Philip II and Philip IV and puts research into the period onto a fascinating new basis

In Search of

Ulster-Scots Land Barry Vann, 2008 Social and religious historians have conducted much research on Scottish colonial migrations to Ulster however there remains historical debate as to whether the Irish Sea in the seventeenth century was an intervening obstacle or a transportation artery Vann presents a geographical perspective on the topic showing that most population flows involving southwest Scotland during the first half of the seventeenth century were directed across the Irish Sea via centuries old sea routes that had allowed for the formation of evolving cultural areas As political or religious motivational factors presented themselves in the last half of that century Vann holds the established social and familial links stretched along those sea routes facilitated chain migration that led to the birth of a Protestant Ulster Scots community Vann also shows how this community constituted itself along religious and institutional rubrics of dissent from the Church of England Church of Scotland and Church of Ireland

Churchill as Home Secretary Charles Stephenson, 2023-02-22 There can be few statesmen whose lives and careers have received as much investigation and literary attention as Winston Churchill Relatively little however has appeared which deals specifically or holistically with his first senior ministerial role that of Secretary of State for the Home Office This may be due to the fact that of the three Great Offices of State which he was to occupy over the course of his long political life his tenure as Home Secretary was the briefest The Liberal Government of which he was a senior figure had been elected in 1906 to put in place social and political reform Though Churchill was at the forefront of these matters his responsibility for domestic affairs led to him facing other major challenges departmentally this was a time of substantial commotion on the social front with widespread industrial and civil strife Even given that Home Secretaries never do have an easy time his period in office was thus marked by a huge degree of political and social turbulence The terms Tonyandy and Peter the Painter perhaps spring most readily to mind Rather less known is his involvement in one of the burning issues of the time female suffrage and his portrayal as the prisoners friend in terms of penal reform Aged 33 on appointment and the youngest Home Secretary since 1830 he became empowered to wield the considerable executive authority inherent in the role of one of His Majesty's Principal Secretaries of State and he certainly did not shrink from doing so There were of course commensurate responsibilities and how he shouldered them is worth examination
