**Fragile Settlements** Amanda Nettelbeck,Russell Smandych,Louis A. Knafla,Robert

Foster, 2016-03-20 *Fragile Settlements* compares the processes by which colonial authority was asserted over Indigenous people in south west Australia and prairie Canada from the 1830s to the early twentieth century At the start of this period there was an explosion of settler migration across the British Empire In a humanitarian response to the unprecedented demand for land Britain's Colonial Office moved to protect Indigenous peoples by making them subjects under British law This book highlights the parallels and divergences between these connected British frontiers by examining how colonial actors and institutions interpreted and applied the principle of law in their interaction with Indigenous peoples on the ground *Fragile Settlements* questions the finality of settler colonization and contributes to ongoing debates around jurisdiction sovereignty and the prospect of genuine Indigenous settler reconciliation in Canada and Australia Convicts Clare Anderson, 2022-01-13 Clare Anderson provides a radical new reading of histories of empire and nation showing that the history of punishment is not connected solely to the emergence of prisons and penitentiaries but to histories of governance occupation and global connections across the world Exploring punitive mobility to islands colonies and remote inland and border regions over a period of five centuries she proposes a close and enduring connection between punishment governance repression and nation and empire building and reveals how states imperial powers and trading companies used convicts to satisfy various geo political and social ambitions Punitive mobility became intertwined with other forms of labour bondage including enslavement with convicts a key source of unfree labour that could be used to occupy territories Far from passive subjects however convicts manifested their agency in various forms including the extension of political ideology and cultural transfer and vital contributions to contemporary knowledge production Making the Imperial Nation Gabriel Glickman, 2023-01-31 How did the creation of an overseas empire change politics in England itself After 1660 English governments aimed to convert scattered overseas dominions into a coordinated territorial power base Stuart monarchs encouraged schemes for expansion in America Africa and Asia tightened control over existing territories and endorsed systems of slave labor to boost colonial prosperity But English power was precarious and colonial designs were subject to regular defeats and failed experimentation Recovering from recent Civil Wars at home England itself was shaken by unrest and upheaval through the later seventeenth century Colonial policies emerged from a kingdom riven with inner tensions which it exported to enclaves overseas Gabriel Glickman reinstates the colonies within the domestic history of Restoration England He shows how the pursuit of empire raised moral and ideological controversies that divided political opinion and unsettled many received ideas of English national identity Overseas ambitions disrupted bonds in Europe and cast new questions about English relations with Scotland and Ireland Vigorous debates were provoked by contact with non Christian peoples and by changes brought to cultural tastes and consumer habits at home England was becoming an imperial nation before it had acquired a secure territorial empire The pressures of colonization exerted a decisive influence over the wars revolutions and party conflicts that destabilized the later Stuart kingdom **Congress's Own** Holly A. Mayer, 2021-04-01

Colonel Moses Hazen's 2nd Canadian Regiment was one of the first national regiments in the American army. Created by the Continental Congress, it drew members from Canada, eleven states, and foreign forces. Congress's Own was among the most culturally, ethnically, and regionally diverse of the Continental Army's regiments, a distinction that makes it an apt reflection of the union that was struggling to create a nation. The 2nd Canadian, like the larger army, represented and pushed the transition from a colonial continental alliance to a national association. The problems the regiment raised and encountered underscored the complications of managing a confederation of states and troops. In this enterprising study of an intriguing and at times infernal regiment, Holly A. Mayer marshals personal and official accounts from the letters and journals of Continentals and congressmen to the pension applications of veterans and their widows to reveal what the personal passions, hardships, and accommodations of the 2nd Canadian can tell us about the greater military and civil dynamics of the American Revolution. Congress's Own follows congressmen, commanders, and soldiers through the Revolutionary War as the regiment's story shifts from tents and trenches to the halls of power and back. Interweaving insights from borderlands and community studies with military history, Mayer tracks key battles and traces debates that raged within the Revolution's military and political borderlands wherein subjects became rebels, soldiers, and citizens. Her book offers fresh, vivid accounts of the Revolution that disclose how Congress's Own regiment embodied the dreams, diversity, and divisions within and between the Continental Army, Congress, and the emergent union of states during the War for American Independence.

**Twenty-First Century Perspectives on Indigenous Studies** Birgit Däwes, Karsten Fitz, Sabine N. Meyer, 2015-04-24 In recent years the interdisciplinary fields of Native North American and Indigenous Studies have reflected at times even foreshadowed and initiated many of the influential theoretical discussions in the humanities after the transnational turn. Global trends of identity, politics, performativity, cultural performance, and ethics, comparative and revisionist historiography, ecological responsibility, and education, as well as issues of social justice, have shaped and been shaped by discussions in Native American and Indigenous Studies. This volume brings together distinguished perspectives on these topics by the Native scholars and writers Gerald Vizenor, Anishinaabe Diane Glancy, Cherokee and Tomson Highway, Cree, as well as non-Native authorities such as Chadwick Allen, Hartmut Lutz, and Helmbrecht Breinig. Contributions look at various moments in the cultural history of Native North America, from earthmounds via the Catholic appropriation of a Mohawk saint to the debates about Makah whaling rights, as well as at a diverse spectrum of literary, performative, and visual works of art by John Ross, John Ridge, Elias Boudinot, Emily Pauline Johnson, Leslie Marmon Silko, Emma Lee Warrior, Louise Erdrich, N. Scott Momaday, Stephen Graham Jones, and Gerald Vizenor, among others. In doing so, the selected contributions identify new and recurrent methodological challenges, outline future paths for scholarly inquiry, and explore the intersections between Indigenous Studies and contemporary Literary and Cultural Studies at large.
