Employment Law at the European Court of Justice Siófra O'Leary, 2002-12-18 Despite the fact that the case law of the European Court of Justice on employment related issues has become increasingly erratic of late there is no denying the centrality of the Court's role in the development of EC employment law Though concentration on the work of the Court of Justice may no longer be in vogue this book examines its contribution in the employment law field in its political and economic context as well as with reference to the juridical structures within which the Community's judicial arm is obliged to operate The objective is not simply to critique the employment jurisprudence of the Court but also to examine the procedural operational and structural context in which the Court of Justice is obliged to work and to reflect on how this context may affect the jurisprudential outcome The book focuses in particular on the shortcomings of the preliminary reference procedure When the Court of Justice hands down decisions in the employment law field Article 234 EC dictates a particular type of judicial dialogue between it and the national referring courts It is contended that the dual dispute resolution public interest nature of the Court's role in the preliminary reference procedure goes some way to explaining why its answers are often regarded as unsatisfactory from the perspective of the referring court and users of EC law generally The book further outlines the developing Community policy on employment and reflects on the effect which this nascent policy may have on the balancing exercises which the Court is inevitably called upon to perform in a variety of social policy contexts Finally part two of the book examines specific substantive areas of EC employment law The policy considerations at play in the case law of the Court are discussed in detail as is the coherence of this case law with the Community's political stance on employment

Environment and Resettlement Politics in China Gørild Heggelund, 2017-07-05 The Three Gorges dam currently being constructed on the Yangtze River in China is controversial both inside and outside China particularly because of the large number of people to be resettled officially 1.2 million and the environmental impacts Using material previously unavailable in any Western language it analyses the Chinese discussions over policy making for the resettlement process and impacts It concludes that the environment and resettlement policies have been linked in a new way in this project However despite

these positive developments it argues that the social impacts from resettlement have not yet reached a high level of political attention and that the Chinese authorities need to acknowledge that resettlement has social costs The book provides an understanding of the social political and economic factors of one of the largest and most controversial development projects currently being implemented It also sheds light on China's policy making procedures and political priorities over the past decade

Bibliographie Mensuelle United Nations Library (Geneva, Switzerland),2001 *Corporate Accountability under Socio-Economic Rights* Jernej Letnar Čerňič,2018-08-14 In recent decades corporations have increasingly accepted that they have obligations to respect the socio economic rights of individuals whose rights to livelihoods education food health housing and water are affected by the actions of corporations on a daily basis Despite this it is often difficult for victims to bring corporations to court for violations of their socio economic rights Domestic constitutional systems provide at best fragile and limited protections against adverse corporate activities while international responses have been lacking in creating obligations and accountability for corporations under socio economic rights The urgency of bolstering corporate accountability for socio economic rights is therefore apparent In light of this this book asks whether corporations are required to observe socio economic rights and if they are accountable for any violations In doing so it identifies and analyzes the theoretical foundations and the existing scope of corporate accountability arising from socio economic rights at both national and international levels Through careful analysis Jernej Letnar Čerňič exposes the stark need for greater clarity in the obligations and accountability of corporations advocating a normative framework for corporate accountability for socio economic rights in national legal orders which builds on existing mechanisms
