Empowerment Church Speaking A New Language For Church Growth:

The Empowerment Church Carlyle Fielding Stewart, 2001 The purpose of the church is simple it exists to bring people to salvation in Christ and to positively and permanently change lives for the good of the community The way the church fulfills this basic calling is through empowerment endowing people with the capacity to be recipients and catalysts of positive social and personal change Too many churches in North America have neglected this basic calling argues the author If they are to become thriving centers of personal and social transformation then they must work to empower the whole person through ministries that work at the same time for spiritual relational and communal transformation Only when they thus empower individuals to be disciples of Jesus Christ in ways that then transform those individuals personal relations and the communities in which they live will the church have fulfilled its basic calling

Burning Center, Porous Borders Eleazar S. Fernandez, 2011-10-17 Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church's spiritual center burns mightily Conversely it can burn mightily in the spirit of Christ only if its borders

The Megachurch and the Mainline Stephen Ellingson, 2008-09-15 Religious traditions provide the stories and rituals that define the core values of church members Yet modern life in America can make those customs seem undesirable even impractical As a result many congregations refashion church traditions so they may remain powerful and salient How do these transformations occur How do clergy and worshipers negotiate which aspects should be preserved or discarded Focusing on the innovations of several mainline Protestant churches in the San Francisco Bay Area Stephen Ellingson's *The Megachurch and the Mainline* provides new understandings of the transformation of spiritual traditions For Ellingson these particular congregations typify a new type of Lutheranism one which combines the evangelical approaches that are embodied in the growing legion of megachurches with American society's emphasis on pragmatism and consumerism Here Ellingson provides vivid descriptions of congregations as they sacrifice hymns in favor of rock music and scrap traditional white robes and stoles for Hawaiian shirts while also making readers aware of the long history of similar attempts to Americanize the Lutheran tradition This is an important examination of a religion in flux one that speaks to the growing popularity of evangelicalism in America
