Ellanna, Ernest S. Burch, 2020-08-25 Hunter gatherer research has experienced enormous expansion over the past three decades In the late 1950s less than a score of anthropologists were actively engaged in issue oriented studies of foraging populations Since then the number of active researchers has grown into the hundreds This book offers the most up to date anthology of papers on hunter gatherer research and contains possibly the most comprehensive bibliography on hunter gatherers ever published It will be essential reading for all students of hunter gatherer societies      *Circular*, 1938      *Self-help* Samuel Smiles, 1906      **Preventing Elder Falls** United States. Subcommittee on Aging, 2003      **Africa's Social and Religious Quest** Randee Ijatuyi-Morphé, 2014-01-30 This well crafted book probes the key dimensions of Africa s existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa s social and religious quest Beyond split explanations of external versus internal factors e g colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality politics and destinies vis vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are This study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re signifies life and wholeness as a true end of Africans quest today      **Family-Based Palliative Care** Jane Marie Kirschling, 2018-10-24 Learn to interact with families in ways that promote family functioning when a family member is dying Family Based Palliative Care is an insightful book that aims to increase professionals understanding of the family as client Authoritative contributors who are experienced in working with the terminally ill present the most current theory practice and research related to family based care of hospice patients Each readable chapter includes a wealth of information that can be applied to health care settings in which holistic care is a priority The first chapter presents a conceptual framework for caring for families of the terminally ill as well as clinical examples that are used to illustrate the application of the framework in practice Experts describe four research
