E. A. Tyler,2004-11 A comprehensive guide to the history legends languages and peoples of Middle Earth compiling facts names words dates and events and providing explanatory maps charts and genealogical tables *J.R.R. Tolkien's Utopianism and the Classics* Hamish Williams,2023-02-09 This book opens up new perspectives on the English fantasy writer J R R Tolkien arguing that he was an influential thinker of utopianism in 20th century fiction and that his scrutiny of utopias can be assessed through his dialogue with antiquity Tolkien s engagement with the ancient world often reflects an interest in retrotopianism his fictional places cities forests homes draw on a rich post classical narrative imagination of similar spaces Importantly for Tolkien such narratives entail eutopian thought experiments the decline and fall of distinctly classical communities provide an utopian blueprint for future political restorations the home

as oikos becomes a space where an ideal ethical reciprocity between host and guest can be sought the ancient forest is an ambiguous unsettling site where characters can experience necessary forms of awakening From these perspectives tokens of Platonic moderation Augustan restoration Homeric xenophilia and the Ovidian material sublime are evident in Tolkien's writing Likewise his retrotopianism also always entails a rewriting of ancient narratives in post classical and modern terms This study then explores how Tolkien's use of the classical past can help us to align classical and utopian studies and thus to reflect on the ranges and limits of utopianism in classical literature and thought Wall of Destruction James Grimm, 2014-10-12 Do you know how fabled Atlantis fell It was said it sank beneath the waves What if it happened like this During the last ice age a global war between the empire of Atlantis and their arch rival the Rama Empire is tearing the world apart Atlantis driven by the hunger for world domination unleash their versions of weapons of mass destruction Facing annihilation in a last desperate gambit Rama strikes back in a way that destroys the Ice Age world they knew In the aftermath of Rama's desperation the survivors of one remote Atlantean colony decide it's time to leave the power hungry war mongers ruling Atlantis The problem is Atlantis is not willing for them to leave **Forgotten Civilization** Robert M. Schoch, 2012-08-10 Scientific confirmation of advanced civilization at the end of the last ice age the solar catastrophe that destroyed it and what the evidence means for our future Demonstrates based on the 12 000 year old megalithic complex of G bekli Tepe that advanced civilization extends thousands of years further back than generally acknowledged Examines the catastrophic solar outbursts that ended the last ice age wiping out antediluvian civilization and incinerating much of the evidence of that period Reveals data that show solar outbursts powerful enough to devastate modern society could return in the future Building upon his revolutionary theory that the Sphinx dates back much further than 2500 BCE geologist Robert Schoch reveals scientific evidence of advanced civilization predating ancient Egypt Sumeria and Greece as well as the catastrophe that destroyed it nearly 12 000 years ago and what its legacy can teach us about our own future Combining evidence from multiple scientific disciplines Schoch shows how the last ice age ended abruptly in 9700 BCE due to coronal mass ejections from the Sun These solar outbursts unleashed electrical plasma discharges upon Earth and triggered volcanic activity earthquakes fires and massive floods as glaciers melted and lightning strikes released torrential rains from the oceans He explains how these events eradicated the civilization of the time and set humanity back thousands of years only to reemerge around 3500 BCE with scattered memories and nascent abilities He explores within this framework how many megalithic monuments underground cities and ancient legends fall logically into place as well as the reinterpreted Easter Island rongorongo texts and the intentional burial 10 000 years ago of the G bekli Tepe complex in Turkey Schoch reveals scientific evidence that shows how history could repeat itself with a coronal mass ejection powerful enough to devastate modern society Weaving together a new view of the origins of civilization the truths behind ancient wisdom and the dynamics of the planet we live on Schoch maintains we must heed the megalithic warning of the past and collectively prepare for
