Daniels,2008-10-01 Distinguished historian of the Soviet period Robert V Daniels offers a penetrating survey of the evolution of the Soviet system and its ideology In a tightly woven series of analyses written during his career long inquiry into the Soviet Union Daniels explores the Soviet experience from Karl Marx to Boris Yeltsin and shows how key ideological notions were altered as Soviet history unfolded The book exposes a long history of American misunderstanding of the Soviet Union leading up to the grand surprise of its collapse in 1991 Daniels s perspective is always original and his assessments some worked out years ago are strikingly prescient in the light of post 1991 archival revelations Soviet Communism evolved and decayed over the decades Daniels argues through a prolonged revolutionary process combined with the challenges of modernization and the personal struggles between ideologues and power grabbers *The Fall* Steven Saxonberg,2017-07-05 With a foreword by Seymour Lipset Hoover Institution and George Mason University USA The Fall examines one of the twentieth century s great historical puzzles why did the communist led regimes in Eastern Europe collapse so quickly and why was the process of collapse so different from country to country This major study explains why the impetus for change in Poland and Hungary came from the regimes themselves while in Czechoslovakia and East Germany it was mass movements which led to the downfall of the regimes *The Rise and Fall of Communism* Sunil Kumar Sarker,1994 Marx Posed As The Messiah To The Down Trodden He Declared That Communism Will In The Words Of The German Poet Lessing Blotch Es Up The Loopholes In The Structures Of The World There Will Be One World One Flag One Humanity And One Ideology Being Carried Away By The Charisma Of Lenin And Stalin The Down Trodden Conquered About One Third Of The World To Be Governed From Moscow The Hammer Sickles And Star Embossed Red Flag Fluttered In The Sky The Whole Bourgeois World Trembled But Very Soon The Hammer Fell On The Head Of Trotsky And Soon The Teeth Of The Sickles Got Rusted And Lastly The Star Fell To The Ground Like A Burnt Up Meteor Why Did The People Get Attracted To Communism How Did Communism Temporarily Succeed In Conquering A Part Of The World What Did The People Get From Communism Why One Communism Broke Up Into Many Communisms Why Did Communism Fall And Lastly What Political Garb The World May Wear In The Near Future These Are The Questions The Author Tries To Answer Here **Politics and Symbols** David I. Kertzer,1996-01-01 In the wake of the collapse of the Soviet Union and its Communist satellites the Italian Communist Party began a heated two year struggle over an identity and future David I Kertzer tells the riveting story of how Italy s second largest political party transformed itself into the new Democratic Party of the Left Democracy and the Market Adam Przeworski,1991-07-26 The quest for

freedom from hunger and repression has triggered in recent years a dramatic worldwide reform of political and economic systems Never have so many people enjoyed or at least experimented with democratic institutions However many strategies for economic development in Eastern Europe and Latin America have failed with the result that entire economic systems on both continents are being transformed This major book analyzes recent transitions to democracy and market oriented economic reforms in Eastern Europe and Latin America Drawing in a quite distinctive way on models derived from political philosophy economics and game theory Professor Przeworski also considers specific data on individual countries Among the questions raised by the book are What should we expect from these experiments in democracy and market economy What new economic systems will emerge Will these transitions result in new democracies or old dictatorships *American-Soviet Relations* Peter G. Boyle,2022-12-28 *American Soviet Relations* 1993 is a study of American policy towards the Soviet Union from 1917 to the fall of Communism It attempts to understand what precisely were the roots of the Cold War and an analysis of the later relationship in the light of the Soviet Union s evolution since the Revolution It argues that American policy was shaped not only by the external threat from the USSR but also by internal forces within American society domestic politics economic interests emotional and psychological attitudes and images of the Soviet Union *The Collapse of the Soviet Union, Updated Edition* Susan Darraj,2021-09-01 The dissolution of the Union of Soviet Socialist Republics on December 31 1991 stunned the world The communist empire which had been a dominant force in global politics for 74 years influencing world events from World War II to issues of nuclear weapons and defense was suddenly gone Illustrated with full color and black and white photographs and accompanied by a chronology bibliography and further resources *The Collapse of the Soviet Union Updated Edition* highlights major events in Soviet history such as the rise of communism in Russia the terror and expansionist policies of Joseph Stalin the election of Mikhail Gorbachev the explosion at the Chernobyl nuclear reactor and the rivalry between Gorbachev and Boris Yeltsin as a new more democratic Russia emerged from the ashes of the Soviet Union Historical spotlights and excerpts from primary source documents are also included *The Curtain Rises* Susan G. Shapiro,Ronald Shapiro,2004-02-04 Much has been written about how the authoritarianism of the Communist era gave way to more open societies in the former Soviet bloc countries yet little has been said about how individuals in these countries have been affected and how they contributed to the changes in their societies How does the relationship between husband and wife change when planned economy gives way to financial incertitude When all are free to speak their minds publicly are children more likely to do so at home or at school How do the elderly adjust to new laws and fewer pensions This book describes in their own words the lives of everyday people in Romania Hungary the Czech Republic Lithuania and the Former Yugoslav republic of Macedonia as they struggled under Soviet domination as they endured the revolutions in their respective countries and as they now adapt to a free world society These individuals struggling with philosophical political educational cultural and spiritual adjustments are entrepreneurs political activists scientists and teachers They are assuming

leadership roles in local politics and implementing reforms in the schools The book includes photographs maps and short introductory national histories The Fall of Soviet Communism, 1986-1991 Jeremy Smith,2017-03-16 The fall of communism and the break up of the Soviet Union into 15 independent states in December 1991 was one of the most significant events of the 20th century In the last years of Soviet rule images of mass protests on the streets of Moscow Tbilisi and Vilnius bloodshed in Baku striking miners Mikhail Gorbachev wooing the West and Boris Yeltsin defiantly mounting a tank in front of the White House building in Moscow shattered all of the old certainties about the seemingly unbreakable communist system Gorbachev and Yeltsin were the dominant figures in this process but non Russian national movements workers intellectuals and international developments all had roles to play Jeremy Smith presents the dramatic events of 1985 91 in a clear and succinct form setting out a variety of interpretations for the demise of communism in the Soviet Union and suggesting new approaches to answering the unresolved question of why it happened Smith discusses the long term and short term factors behind the extraordinary collapse assessing the impact of economic crisis nationalism personalities and democratization in the process *The New Geography of Global Income Inequality* Glenn Firebaugh,2009-07 The surprising finding of this book is that contrary to conventional wisdom global income inequality is decreasing Critics of globalization and others maintain that the spread of consumer capitalism is dramatically polarizing the worldwide distribution of income But as the demographer Glenn Firebaugh carefully shows income inequality for the world peaked in the late twentieth century and is now heading downward because of declining income inequality across nations Furthermore as income inequality declines across nations it is rising within nations though not as rapidly as it is declining across nations Firebaugh claims that this historic transition represents a new geography of global income inequality in the twenty first century This book documents the new geography describes its causes and explains why other analysts have missed one of the defining features of our era a transition in inequality that is reducing the importance of where a person is born in determining his or her future well being *Gorbachev-Yeltsin* Stuart A. Kallen,1992 Examines the events in the Soviet Union during the time of Gorbachev and Yeltsin including the failed coup of 1991 and the collapse of the Union itself
