Fallen Leaves:

Lake Stechlin S. Jost Casper, 2012-12-06 **Applied Mycology** Mahendra Rai, P. D. Bridge, 2009-01-01 This book is intended to provide both students and researchers with a broad background to some of the fastest developing areas in current applied mycology. A range of contributions are given to highlight the diverse nature of current applied mycology research. The opening chapter of this volume provides some examples of how mycology is often neglected and presents a case for considering mycology as a megascience. The subsequent chapters have been loosely grouped into four sections in order to reflect the wider context or context of the particular mycological areas or activities. In each section contributions that show either new applications or developments of well established technology or novel research into new technology or environments are included. The section on environment agriculture and forestry is represented by contributions that illustrate novel fungal associations or new aspects of well known interactions. The section on foods and medicine reflects the long history of applied mycology in the manufacture of alcoholic beverages with two chapters devoted to beer production and winery spoilage issues. Chapters in the section on biotechnology and emerging science reflect some of the current interests in fungal enzymes and their importance in broader environmental processes and applications.

ICICA 2022 Johan Debayle, Guangwei Bai, Shuangming Yang, 2023-03-27 The 2022 2nd International Conference on Information Control and Automation ICICA 2022 was held on December 2nd-4th 2022 in Chongqing China virtual event. Invited and contributed papers present the state of the art research in information control and automation. This workshop always welcomes a fruitful mix of experienced researchers and students to allow a better understanding of related fields. The 2022 session of the information control and automation was doubtlessly a great success. The program covered a wide variety of topics namely Numerical Analysis, Information Theory, Genetic Algorithm, Distributed Control System, Industrial Control Motors and Appliances etc. The conference agenda was divided into two parts including Keynote Speeches and Oral Presentations. ICICA 2022 is to bring together innovative academics and industrial experts in the field of Information Control and Automation to a common forum. The primary goal of the conference is to promote research and developmental activities in Information Control and Automation and another goal is to promote scientific information interchange between researchers, developers, engineers, students and practitioners working all around the world. The conference will be held every year to make it an ideal platform for people to share views and experiences in Information Control and Automation and related areas. Everyone interested in these fields were welcomed to join the online conference and to give comments and raise questions to the speeches and presentations.

Humic Substances E. A. Ghabbour, G. Davies, 2014-01-30 The properties of humic substances (HSs) in plants, soils and sediments regulate the environment and affect all aspects of life, yet they are only very imprecisely understood. This volume presents work on HSs including instruments and techniques being developed to throw more light on their structure and relationship to macro and microscopical properties.
