Nature Spirits of the Trees and What They Want to Tell Us Verena Stael von Holstein,2019-11-06 People often ask us about the best way to come close to nature and the beings enchanted within it One way to do so is through wonder and

astonishment to open our senses fully to nature's beauty and wisdom And here we can encounter entities that most closely resemble human beings the trees Verena has learned to communicate with elemental and nature beings and to translate their language into terms we can understand In her remarkable book *Nature Spirits and What They Say* she conversed with a range of beings including spirits of fire air water and stone In this new volume we hear from trees the nature spirits that in many ways are most similar to human beings Through Verena's remarkable clairvoyant abilities conversations with different tree species such as sweet cherry rowan elm and common oak are relayed These communications reveal compelling insights into the role of trees within the natural world and their relationships with the vegetable animal human and spirit kingdoms Particular emphasis is placed on the characteristics of trees that correspond with qualities of the human soul such as the oak's connection to individualism The tree spirits want to speak and are responsive all kinds of questions such as their roles in the landscape their specific shapes on problems that affect them in particular and on urgent issues that are relevant to all beings on earth such as climate change The interviews disclose beautiful fascinating and often challenging insights offering inspiration to help us build more constructive relationships to these wonderful entities
