Perils Of The Atlantic William Flayhart, 2003-05-27 Perils of the Atlantic captures the stories of a number of vessels that experienced adventure on the high seas from the tragic loss of the liner Arctic in 1854 to the swift sinking of the Italian Andrea Doria in 1956 The Titanic in Print and on Screen D. Brian Anderson, 2014-12-09 Titanic scholars contend that the demise of the unsinkable ship left more behind than a memory of April 15 1912 as an important point in history Through books films stories and songs the archetypal shipwreck has endured as a metaphor for the perils of mankind s hubris and the fallibility of technology In 1985 the discovery of the long missing wreckage two miles below the surface of the Atlantic revitalized interest in the Titanic and

spawned a new generation of books films and for the first time websites and computer games James Cameron s blockbuster Titanic became the biggest movie of all time and engendered still greater popular interest in the tragic event This bibliography is a survey of the immense volume of literary dramatic and commercial endeavors that came out of history s most compelling shipwreck Organized by genre in accessible categories and short entries the book includes Titanic inspired documentaries narrative films children s books histories short stories novels plays articles essays software websites poems and songs Each entry includes a brief review bibliographic information and the technical details of the specific source The reviews include subjective analysis designed to reflect the usefulness of the source and to be of benefit to researchers and scholars Five appendices include lists of the actors appearing in more than one Titanic film brief film and television appearances of the Titanic films never or not yet released books that survived the wreck and books written by passengers

Eighty Days Matthew Goodman,2013 Documents the 1889 competition between feminist journalist Nellie Bly and Cosmopolitan reporter Elizabeth Bishop to beat Jules Verne s record and each other in a round the globe race offering insight into their respective daunting challenges as recorded in their reports sent back home 50 000 first printing **Fatherlands** Abigail Green,2001-09-06 An exploration of the nature of identity in nineteenth century Germany **Titanic, Destination Disaster** John P. Eaton,Charles A. Haas,1996 Clears up misconceptions about the sinking of the Titanic describes the ship s construction and recounts the discovery of the ship s wreckage **RMS Olympic** Mark Chirnside,2015-09-07 Launched as the pride of British shipbuilding and the largest vessel in the world Olympic was more than 40 per cent larger than her nearest rivals almost 900ft long and the first ship to exceed 40 000 tons She was built for comfort rather than speed and equipped with an array of facilities including Turkish and electric baths one of the first ships to have them a swimming pool gymnasium squash court la carte restaurant large first class staterooms and plush public rooms Surviving from 1911 until 1935 she was a firm favourite with the travelling public carrying hundreds of thousands of fare paying passengers and retained a style and opulence even into her twilight years During the First World War she carried more troops than any other comparable steamship and was the only passenger liner ever to sink an enemy submarine by ramming it Overshadowed frequently by her sister ships Titanic and Britannic Olympic s history deserves more attention than it has received She was evolutionary in design rather than revolutionary but marked an ambition for the White Star Line to dominate the North Atlantic express route Rivals immediately began trying to match her in size and luxury The optimism that led to her conception was rewarded whereas her doomed sisters never fulfilled their creators dreams This revised and expanded edition of the critically acclaimed RMS Olympic Titanic s Sister uses new images and further original research to tell the story of this remarkable ship 80 years after her career ended *Disaster At Sea* William Flayhart,2005-03-22 Flayhart delivers a gripping chronicle of mishap and mayhem filled with danger and heroism and rich with detail Sea Power A colorful and deadly history of ocean liner disasters from the mid nineteenth century to the present Disaster at Sea is a chronicle of

the most frightening episodes in the maritime history of the North Atlantic From 1850 to the present day the Atlantic has been home to hundreds of ocean liners and cruise ships each more lavish than the last all of them symbols of wealth and luxury Perhaps this is why readers have always been fascinated by the lives of these ships and their deaths Many of us know the stories of the Titanic and the Lusitania Both tragedies caused tremendous loss of life even as they made the ships immortal But there are many little known accounts of extraordinary survivals at sea such as the Inman and International liner City of Chicago that jammed her bow into an Irish peninsula in 1892 but stayed afloat long enough for all to be rescued or the City of Richmond that survived a dangerous fire in 1891 and a year earlier the City of Paris whose starboard engine exploded at full speed in the mid Atlantic and yet miraculously still made port Often such tales are forgotten even if the ship sank In 1898 the Holland America liner Veendam hit a submerged wreck and sank at sea but all lives were saved so this vessel's dramatic story seemed less important in maritime history than incidents involving human loss As recently as 2000 the Sea Breeze I sank off the East Coast of the United States while on a positioning voyage but all her crew members were rescued in a heroic effort by U S Coast Guard helicopters These stories and many others are dramatic and acclaimed maritime scholar William Flayhart has spent much of the last forty years in search of material from which to create colorful narratives Author of *The American Line 1871-1902* and coauthor of *Majesty at Sea* and the first edition of *QE2* Flayhart retells classic ocean liner disaster stories while bringing to light never before published but compelling episodes in man's ongoing battle with the sea Originally published in hardcover under the title *Perils of the Atlantic* **Titanic Captain** G. J. Cooper, 2011-10-31 Commander Edward John Smith's career had been a remarkable example of how a man from a humble background could get far in the world Born to a working class family in the landlocked Staffordshire Potteries he went to sea at the age of 17 and rose rapidly through the ranks of the merchant navy serving first in sailing vessels and later in the new steamships of the White Star Line By 1912 he was White Star's senior commander and regarded by many in the shipping world as the millionaire's captain In 1912 Smith was given command of the new RMS Titanic for her maiden voyage but what should have been among the crowning moments of his long career at sea turned rapidly into a nightmare following Titanic's collision with an iceberg In a matter of hours the supposedly unsinkable ship sank taking over 1 500 people with her including Captain Smith **Identity, Community and Australian Artists, 1890-1914** Kate R. Robertson, 2019-09-19 An irresistible call lured Australian artists abroad between 1890 and 1914 a transitional period immediately pre and post federation Travelling enabled an extension of artistic frontiers and Paris the centre of art and London the heart of the Empire promised wondrous opportunities These expatriate artists formed communities based on their common bond to Australia enacting their Australian-ness in private and public settings Yet they also interacted with the broader creative community fashioning a network of social and professional relationships They joined ateliers in Paris such as the Académie Julian clubs like the Chelsea Arts Club in London and visited artist colonies including St Ives in England and Giverny in France Australian

artists persistently sought a sense of belonging negotiating their identity through activities such as plays balls tableaux parties dressing up and of course the creation of art While individual biographies are integral to this study it is through exploring the connections between them that it offers new insights Through utilising extensive archival material much of which has limited or no publication history this book fills a gap in existing scholarship It offers a vital exploration re consideration of the fluidity of identity place and belonging in the lives and work of Australian artists in this juncture in British Australian history

Transports of Delight Peter Hancock,2017-05-11 This inspiring book shows how the spiritual side of life with its thoughts feelings and aspirations is intimately bound up with our material technologies From the wonder of Gothic Cathedrals to the quiet majesty of lighter than air flight to the ultimate in luxury of the north Atlantic steamers Peter Hancock explores how these sequential heights of technology have enabled our dreams of being transported to new and uncharted realms to become reality Sometimes literally sometimes figuratively technology has always been there to make material the visions of our imagination This book shows how this has essentially been true for all technologies from Stonehenge to space station But technology is far from perfect Indeed the author argues here that some of the most public and tragic of its failures still remain instructive emblematic and even inspiring He reports on examples such as a Cathedral of the Earth Beauvais a Cathedral of the Seas

Titanic and a Cathedral of the Air Hindenburg and tells their stories from the viewpoint of material transcendence By interweaving their stories he reveals how technologies can succeed in elevating human beings and in taking them to whole new realms of being he explores and explains why these experiences are Transports of Delight *Maiden Voyages* Siân Evans, 2021-08-10 In an engaging and anecdotal social history Si n Evans s Maiden Voyages explores how women s lives were transformed by the Golden Age of ocean liner travel between Europe and North America During the early twentieth century transatlantic travel was the province of the great ocean liners It was an extraordinary undertaking made by many women whose lives were changed forever by their journeys between the Old World and the New Some traveled for leisure some for work others to reinvent themselves or find new opportunities They were celebrities migrants and millionaires refugees aristocrats and crew members whose stories have mostly remained untold until now Maiden Voyages is a fascinating portrait of the era the ships themselves and these women as they crossed the Atlantic The ocean liner was a microcosm of contemporary society divided by class from the luxury of the upper deck playground for the rich and famous to the cramped conditions of steerage or third class travel In first class you ll meet A listers like Marlene Dietrich Wallis Simpson and Josephine Baker the second class carried a new generation of professional and independent women like pioneering interior designer Sibyl Colefax Down in steerage you ll follow the journey of migr Maria Riffelmacher as she escapes poverty in Europe Bustling between decks is a crew of female workers including Violet The Unsinkable Stewardess Jessop who survived the Titanic disaster Entertaining and informative Maiden Voyages captures the golden age of ocean liners through the stories of the women whose transatlantic journeys changed the shape of society on both sides of the globe **The Mariner's Mirror** Leonard George Carr Laughton, Roger Charles Anderson, William Gordon Perrin, 1997 *Titanic* John P.
