Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Children, Family, Drugs and Alcoholism, 1987 **Families, Alcoholism, and Recovery** Celia Dulfano, 1982-01-01 This book offers mental health professionals an updated and expanded guide for applying family therapy approaches to the treatment of alcoholism It shows how alcoholism can impair the family's normal functioning and growth offers advice for helping individual family members to resume their specific roles and responsibilities and so begin healthy development In addition this revised version includes new insights on contending with such issues as violence sexual abuse and incest and it reveals new findings on the long term effects on children growing up in families with alcoholics *Practical Approaches to Alcoholism Psychotherapy* Sheldon Zimberg, J. Wallace, S.B. Blume, 1985-04-30 **Co-Dependence Healing the Human Condition** Charles Whitfield, 2010-01-01 Of all the books on the often misunderstood concept of co dependence this is probably the clearest most complete and informative Charles Whitfield is a frontline clinician who has been assisting co dependents in their healing for over twenty years He has researched the literature on co dependence which he summarizes in this widely read book He sees co dependence as a way to more accurately describe the painful and confusing part of the human condition In careful detail he describes just what co dependence is and what it is not how it comes about and how to heal its painful aftereffects [The Responsibility Trap](#) Claudia Bepko, 2002-01-15 Bepko and Krestan integrate theory and practice in describing the treatment of families with alcohol problems This book is the outgrowth of seven years of work in which we have made an attempt to integrate our own understanding of alcoholic dynamics within the framework of systemic family therapy Since we share both a commitment to the principles of Alcoholics Anonymous as well as a commitment to approaching problems from a systemic viewpoint it has always been a source of concern for us that the fields of alcoholism treatment and family therapy seem so polarized in their respective views on the nature of alcoholism as a symptomatic process Our hope is that this book can provide a bridge between those two viewpoints as well as some new ways of looking at alcoholism that can be clinically useful and relevant to other practitioners from [The Responsibility Trap](#) [The Alcoholic Family in Recovery](#) Stephanie Brown, Virginia Lewis, 2012-01-19 Family relationships change dramatically when one or more members stops drinking Far from offering a quick fix to family problems in fact the first years of sobriety are often marked by continuing tension that fuels marital stress

acting out kids and difficulties at work This book explores the process of recovery from addiction as it affects the entire family presenting an innovative model for understanding and treating families navigating this difficult period The authors draw upon extensive clinical and research experience to demonstrate how families can be helped to regroup after abstinence weather periods of emotional upheaval and find their way to establishing a more stable yet flexible family system

Reading Alcoholisms J. Lilienfeld,2016-04-30 With Reading Alcoholisms Jane Lilienfeld has produced a ground breaking cross disciplinary study using the social psychological and scientific literature on alcoholism and family alcoholism to examine the novels of Hardy Joyce and Woolf Each of these authors was directly affected by the alcoholism of a family member or mentor and Lilienfeld shows how the effects of alcoholism organized their texts through the portrayal of a protagonist in *The Mayor of Casterbridge* through the denial of parental alcoholism and its silent presence in *A Portrait of the Artist as a Young Man* and through codependent reactive patterns of Mrs and Mr Ramsay in *To the Lighthouse* With the remarkable empathy Lilienfeld has for human dimensions of alcoholism she demonstrates that the narrative strategies in each of these novels at times mimic the behaviors and feeling states often arising from alcoholism Without an understanding of the multidimensional nature of alcoholism and the transmission of its effects across generations any analysis of the work of these three literary giants is incomplete
