Working with Dreams in Psychotherapy Clara E. Hill, 1996-05-03 Working with dreams in therapy can help clients establish a focus and reach core issues quickly and can play an important clinical role in both brief

and long term therapeutic relationships This accessible volume integrates the latest research on sleep and dreaming with a cognitive experiential psychotherapeutic perspective providing a comprehensive guide to dream interpretation In clear jargon free prose elucidated by extensive case material the author presents a three stage model of dream interpretation based on the premises that dreams reflect waking life that their meaning is best understood in a collaborative effort between client and therapist and that both cognitions and emotions are important in this process An Appendix contains a reproducible self guided manual on dream interpretation featuring step by step instructions and worksheets This Appendix is an ideal resource for therapists to use with clients

The Scribes of Sleep Kelly Bulkeley, 2023 Dream journals are a surprisingly powerful resource for psychological and spiritual discovery Contemporary dream science has shown that as much as we can learn from single dreams far more information can be derived from analyzing a series of dreams over time Various people through history have intuitively understood this point and they carefully recorded their dreams for years and even decades drawing profound guidance from the patterns they discovered This is the first book to gather historical and cross cultural evidence showing the value of dream journals as a potent means of healing religious experience and metaphysical insight Seven remarkable people who kept dream journals are profiled Aelius Aristides of second century Rome My e Shonin of twelfth century Japan Lucrecia de Le n of sixteenth century Spain Emanuel Swedenborg of seventeenth century Sweden Benjamin Banneker of eighteenth century America Anna Kingsford of nineteenth century Britain and Wolfgang Pauli of twentieth century Austria Because dreams are so complex and multifaceted especially when viewed in a series an interdisciplinary approach is required to shed light on their meanings In this work three broad methods are applied to the seven journals data science depth psychology and religious studies As the findings of these different methods are woven together and mutually illuminated it becomes clear that the practice of keeping a dream journal stimulates several specific qualities of religiosity prompting the dreamers to move in more individualist mystical and pluralistic directions toward becoming a free spirit

Psychodynamic Perspectives on Working with Children, Families, and Schools Michael O'Loughlin, 2012-12-08 With the push toward accountability and test performance in schools there has been a decline in emphasis on creativity imagination and feelings in schools Psychodynamic Perspectives on Working with Children Families and Schools is designed for students and professionals who are interested in restoring such values to their work with children There is an absence of psychoanalytic ways of thinking in conventional professional discourses of schooling With a few notable exceptions the discourses of child development classroom management early childhood education special education school psychology and school counseling have constructed notions of children and schooling that are often behaviorist instrumental and symptom focused Curriculum too often focuses on acquisition of knowledge and behaviors discipline is conceptualized as compliance and symptoms such as anger school resistance etc are pathologized and reacted to out of context children s special needs are often conceptualized instrumentally and children with complex psychological

symptoms are delimited depersonalized or simply removed Professionals who work with children psychodynamically draw on diverse frameworks including the work of Anna Freud the long tradition of the Tavistock Clinic in London e g Anne Alvarez Susan Reid Margaret Rustin Frances Tustin etc the writings of Klein Winnicott and their colleagues French analysts e g Piera Aulagnier Didier Anzieu Laurent Danon Boileau Fran oise Dolto Maud Mannoni and Catherine Mathelin and Italian infant child analyst Alessandro Piontelli This work is valuable but often inaccessible to school professionals because the writing is somewhat specialized and because there is no tradition of teaching such work in professional preparation in those fields This collection is theoretically grounded in that the authors share a commitment to valuing children s emotions and understand the usefulness of psychoanalytic approaches for enhancing children s lives It is laden with examples to invite into this discussion those students and professionals who value these ideas but for whom this book may be their first introduction to progressive educational ideals and psychodynamic ways of working with children Psychodynamic Perspectives on Working with Children Families and Schools provides an introductory volume to open the door to the possibility of introducing psychodynamic frameworks to education and human service professors and school professionals and professionals working with children
