**Lives of Lesbian Elders** J. Dianne Garner, D. Merilee Clunis, Pat A. Freeman, Nancy M. Nystrom, Karen I. Fredriksen-Goldsen, 2014-07-16 The untold history of lesbian life from those who have lived it. Lives of Lesbian Elders: Looking Back, Looking Forward illuminates the hopes, fears, issues, and concerns of gay women as they grow older. Based on interviews with 62 lesbians ranging in age from 55 to 95, this very special book provides a historical account of the shared experiences of the lesbian community that is so often invisible or ignored in contemporary society. The book gives voice to their thoughts and feelings on a wide range of issues, including coming out, identity, and the meaning of life; the role of family and personal relationships; work and retirement; adversity; and individual sources of strength and resilience. Cast off and overlooked at best or victims of scorn and prejudice at worst, lesbians in the twentieth century lived dual lives: their full voices unheard until now. Lives of Lesbian Elders chronicles the life choices they made and their reasons for making them, set against the contexts of culture, politics, and the social mores of the eras in which they lived. Their stories of courage, resilience, resourcefulness, pride, and independence help restore lesbian history that has been forgotten, distorted, or disregarded and provide the information necessary to meet the future needs of aging lesbians. Lives of Lesbian Elders gives aging lesbians a chance to discuss their thoughts on a variety of topics, including:

- Coming out: "You didn't talk about it. Until two years ago, I never even referred to a lesbian or would I allow the word to pass my lips. I used to sneak into libraries and read about homosexuality, and back in that era, it was not classy; it was classified as a disorder of some type."
- Identity: "The only difference between me and anybody else is that I just happen to be sleeping with a woman. I think I grew up not really knowing who I was, and I think probably fighting all my life trying to find out who I was."
- Family: "I feel very connected with the lesbian community here. I guess I would call that family. Many years ago, my sister said, 'I think when they're ready, you need to explain to the nieces what a lesbian is because I

want them to hear the correct story I want them to hear what it really is and not all these stupid rumors that go around Work I was going to become a youth minister at one point and it dawned on me in high school that there was no way the church was going to let me work with kids I didn't really finish my career I still have dreams about the military and about not finishing It was my choice but it wasn't really my choice Aging and the Future I think financing of course is a real big problem for lesbian women I have a concern that if anything should happen to my partner in growing older of being isolated from the gay community and much more Lives of Lesbian Elders Looking Back Looking Forward also includes appendices that present demographic data on the women who were interviewed for the book information on historical timelines and suggested readings on lesbian history The book is an invaluable addition to the growing collective history of lesbians in the United States

Work Matters Maureen Perry-Jenkins, 2024-08-20 The transition to parenthood is one of the most life altering and destabilizing life events that adults experience even those with significant financial and social resources We commonly hear about dual career professional couples coping with the wage penalties associated with new motherhood or a woman's career being derailed on the mommy track But we know much less about how low wage employed mothers and fathers manage the demands of full time work and new parenthood despite the fact that this group makes up the largest portion of working parents in the country In Work Matters Maureen Perry Jenkins examines the workplaces of low income workers as a critical but often overlooked social setting that shapes family life and child development Building on years of research and over 1 500 interviews with new mothers fathers and their children from the first year of parenthood through six years postpartum Perry Jenkins examines how work conditions help or hinder new parents abilities to engage as partners and parents and the consequences for children She argues that parents job conditions workplace policies hours and schedules experiences of autonomy and job pressure and workplace social supports directly affect the healthy development of infants and children She uncovers the job conditions that diminish new parents ability to care for their infants and highlights the conditions of low wage work that enhance parenting and child outcomes In the final chapter of the book she offers recommendations for parents employers and policy makers that benefit all especially the children
