*Critical Leadership Praxis for Educational and Social Change* Katie Pak,Sharon M. Ravitch,2021 Educational leaders confront instances of inequity every day whether they are aware of it or not Many find themselves inadequately reacting to such issues due in part to traditional preparation programs that fail to interrogate the existence and impact of systems of oppression Why is naming and tackling inequity not at the forefront of every conversation about educational leadership How do our social constructions of identity hierarchies and deficits mis shape what leaders think and do How do leaders advocate for those who need and deserve advocacy This volume considers these questions and more by offering unique leadership frameworks that integrate critical theories for social change with everyday practice By bringing together diverse researchers practitioners and policymakers who are often pushed to the margins this volume will help today s leaders see with new eyes and gain the critical tools language and concepts for equity leadership The text is organized into four sections Transforming Self Transforming Educators Transforming Organizations and Transforming Systems Book Features Interrupts prevailing practices and advocates for a more inclusive intersectional vision of leaders and the field of educational leadership Specific and useful frames concepts and practices that leaders can adapt to their own context Authors that reflect diverse perspectives with wide ranging identities who intentionally push back against the White male dominated discourse A practitioner friendly format that includes glossaries of terms and resources Insights that reflect the worldwide pandemic crises of 2020

**Early Detection and Intervention in Audiology** Katijah Khoza-Shangase,Amisha Kanji,2021-02-01 A textbook with case studies for audiologists and speech pathologists to make recommendations for early detection and intervention of hearing impairments in the South African context Early hearing detection and intervention EHDI is the gold standard for any practicing audiologist and for families of infants and children with hearing impairment EHDI programs aim to identify diagnose and provide intervention to children with hearing impairment from as early as six months old as well as those at risk for hearing impairment to ensure they develop and achieve to their potential Yet EHDI remains a significant challenge for Africa and various initiatives are in place to address this gap in transferring policy into practice within the southern African context The diversity of factors in the southern African context presents unique challenges to teaching and

research in this field which has prompted this book project The South African government's heightened focus on increasing access to health care which includes ongoing Early Childhood Development ECD programs make this an opportune time for establishing and documenting evidence based research for current undergraduate and postgraduate students Early Detection and Intervention in Audiology An African Perspective aims to address this opportunity Grounded in an African context with detailed case studies this book provides rich content that pays careful attention to contextual relevance and contextual responsiveness to both identification and intervention in hearing impairment With diverse contributions from experts in local and international contexts but always with an African perspective this textbook will be an invaluable resource for students researchers and practitioners *Journal of the Senate of the United States of America* United States. The Multigenerational Church Crisis Bryan Chapell, 2025-05-06 Harness the strengths of every generation to create a church that endures open the lines of communication appreciate the experiences that shaped each generation in your church unite in one mission to impact your community and the world It may seem hard for younger Christians to believe that people over 50 were raised during an era when 90 percent of Americans identified as Christian These older believers were once part of a majority group that understood the mission of the church was to take control of our culture to halt its evils At the same time Christians under 50 have lived their entire lives perceiving themselves as a minority that needs to make credible their faith to a secular pluralistic culture These distinct experiences and perceptions have a profound impact on the priorities different generations have for church ministry It's no wonder that younger and older believers don't always see eye to eye But imagine what could be accomplished in the name of Christ if we could better understand each other and turn that understanding into shared purpose and aligned priorities Backed by thorough research this eminently practical and hopeful book from pastor and scholar Bryan Chapell shows you how to open the lines of communication appreciate the experiences that shaped each generation in your church and unite in one mission to impact your community and the world **Christian**

**Networks Journal**, 2004 **The Handbook of International Migration** Charles Hirschman, Philip Kasinitz, Josh Dewind, 1999-11-04 The historic rise in international migration over the past thirty years has brought a tide of new immigrants to the United States from Asia South America and other parts of the globe Their arrival has reverberated throughout American society prompting an outpouring of scholarship on the causes and consequences of the new migrations The Handbook of International Migration gathers the best of this scholarship in one volume to present a comprehensive overview of the state of immigration research in this country bringing coherence and fresh insight to this fast growing field The contributors to The Handbook of International Migration a virtual who's who of immigration scholars draw upon the best social science theory and demographic research to examine the effects and implications of immigration in the United States The dramatic shift in the national background of today's immigrants away from primarily European roots has led many researchers to rethink traditional theories of assimilation and has called into question the usefulness of making historical

comparisons between today's immigrants and those of previous generations Part I of the Handbook examines current theories of international migration including the forces that motivate people to migrate often at great financial and personal cost Part II focuses on how immigrants are changed after their arrival addressing such issues as adaptation assimilation pluralism and socioeconomic mobility Finally Part III looks at the social economic and political effects of the surge of new immigrants on American society Here the Handbook explores how the complex politics of immigration have become intertwined with economic perceptions and realities racial and ethnic divisions and international relations A landmark compendium of richly nuanced investigations The Handbook of International Migration will be the major reference work on recent immigration to this country and will enhance the development of a truly interdisciplinary field of international migration studies
